## OVERVIEW

---

Amor Fati, a 2019 Sirena 64 flybridge, is artfully designed for an owner who prizes smart architecture and everyday practicality. The yacht seamlessly marries purposeful engineering with refined styling: a thoughtful footprint expands interior volume without sacrificing the sense of comfort, while meticulous finishes and tasteful owner enhancements make the living spaces feel both modern and welcoming. The full beam owner's suite is generous and immaculately appointed, featuring the largest shower in its class, and the bright, contemporary interior flows effortlessly through salon and accommodations.

Above, the expansive flybridge commands wide visibility and plentiful room for entertaining, enhanced by custom flybridge configuration upgrades that accommodate an open air shower and an impressive bespoke TV installation. Systems are chosen for true owner operator confidence: Seakeeper stabilization for calm passages, a Garmin Platinum electronics package for navigation, and joystick control with bow and stern thrusters at both helms for precise maneuvering. An upgraded premium sound system completes the onboard ambiance.

Uniquely, this is the only Sirena 64 with a dedicated laundry room situated just outside the VIP stateroom—evidence of practical, liveaboard minded thinking. No gimmicks, simply thoughtful craftsmanship and capability, ideal for bluewater cruising, comfortable full time living, and stylish, practical adventures.

Currently lying in Annapolis, MD. Reach out to confirm location and arrange a viewing.

# DETAILED DESCRIPTION

---

## Mechanical

---

A powerhouse at heart, this yacht is driven by a CAT C12.9 engine delivering 1000 HP for confident, effortless performance, while electrical autonomy is bolstered by an additional 21.5 kW 60 Hz Onan generator; close quarters control is refined by an 8 kW stern thruster and Aventics joystick integration for both engines and thrusters at the main helm and on the flybridge, and seamless onboard management comes via a digital switch system interfaced directly on the chartplotters. Long range freedom is assured by a high capacity water maker producing 34 gal/h (130 l/h), complemented by a fresh water deck wash system for swift rinses after a day at sea. Comfort is elevated by a Seakeeper stabilizer rated at 16000 NMS (OPT216 US is required), with a dedicated second Seakeeper control station on the flybridge to keep every passage composed and every anchorage serene.

## Notable services, upgrades and specs.

---

Recent enhancements elevate every moment on board: all new canvas covers throughout, including upgraded custom canvas sets for exterior seating on both upper and lower decks; a new Fusion stereo system paired with all new Fusion Signature speakers and subwoofers for premium sound staging; and a thoughtfully reconfigured day head to accommodate an aftermarket MIELE stackable washer/dryer. Entertainment was further refined with an upper deck cabinet customized to house a SYLVOX 55 inch TV on a hi lo lift with a 180 degree swivel. Performance and connectivity were updated with new props fitted 03/24 (the previous set is retained on board) and Starlink installed 05/24. Power and navigation received attention too, with an upgraded suite of two Onan generators, a new engine battery charger (09/25), and a new

Garmin 8616xsv added on the flybridge. A full teak package enriches the decks, while Restoration Hardware furniture—both on the flybridge and in the salon—has been upgraded. Finishing details include reconditioned cockpit and foredeck tables (09/25) and comprehensive new exterior canvas protection.

## Electronics

---

Navigation and oversight are entrusted to a Garmin Platinum Package featuring two 7616 16 inch and one 7412 14 inch chartplotters, paired with an Open Array 4 kW HD radar for crisp targets and long range awareness. A dedicated Garmin 7410 10 inch chartplotter serves the crew cabin, while a Garmin AIS600 transceiver enhances traffic intelligence. Vigilance is aided by Garmin GC10 CCTV cameras covering the engine room and the flybridge, and entertainment is rounded out by a Raymarine SAT TV system 60STV to bring favorite channels aboard wherever you cruise.

## Exterior flybridge

---

The flybridge was conceived as an open air salon: an upgraded SYLVOX 55 inch TV rises on a hi lo lift and swivels a full 180 degrees, complementing upgraded Restoration Hardware lounge seating with an L shaped couch aft and a fixed U shaped settee wrapped around a teak dining table opposite the helm. A carbon hard top with electric awning shades a teak laid deck detailed with an aft teak flag pole, warm courtesy lighting, overhead speakers, and crisp LED illumination. Sunbathing cushions and tailored table covers keep the setting pristine, while the aft sunlounger deck gains an additional L shaped couch for gatherings. Daily life al fresco is effortless with an outdoor shower, two adjustable MAGMA grills, and a dry bar/buffet extension ready for long, lingering afternoons.

## Audio / visual

---

Entertainment flows naturally from cabin to deck: a 32 inch LED TV graces the VIP, a 50 inch LED TV centers the master, and a 50 inch LCD in the saloon descends gracefully on a hi lo system (OPT182 US is required) for cinema style viewing. On deck, an upgraded SYLVOX 55 inch TV with a hi lo lift and 180 degree swivel turns any anchorage into an open air theater. Sound is immersive and consistent thanks to an upgraded Fusion stereo with speakers and subwoofers distributed across the master, VIP and guest cabins, crew areas, the flybridge, and the foredeck.

## Salon

---

Framed by full length, floor to ceiling panoramic windows, the salon is a luminous retreat where upgraded hi lo 50 inch LED entertainment discreetly disappears to preserve the view. The seating plan has been elevated with an upgraded Restoration Hardware sofa paired with a custom opposing settee, all set over a wooden floor that continues seamlessly across the main deck through the saloon, dinette, and galley. A dedicated wine cooler stands ready for impromptu toasts, while interior courtesy lighting, electric blinds and curtains, and chilled water air conditioning tailor the atmosphere to every mood. Thoughtful details—overhead grab rails and expansive sliding glass doors—create a fluid transition to the cockpit.

## Galley

---

The semi enclosed galley, elegantly screened by photochromic glass, is conceived for serious culinary work with generous overhead lockers, under counter drawers, and smart pantry volume. Premium MIELE appliances include a full height fridge and freezer, dishwasher, a three burner induction

cooktop with oven, and a combination microwave/convection unit. An upgraded granite countertop presents a durable, refined work surface, flanked by nearby 220V outlets and USB ports, while an overhead hatch invites fresh sea air. Dining opposite is relaxed and versatile, with a free standing table seating four to six, three dinette chairs, and integrated overhead lighting that defines the ambient task zone.

## Master stateroom

---

Spanning the full beam, the master stateroom is suffused with light from large hull side windows to port and starboard, and invites lingering with a chaise lounge illuminated by automatic lighting. The lower deck carries a wooden floor through the cabins and corridor for visual continuity. Entertainment is at hand via a 50 inch LED TV and a Fusion AV750 A/V system, while abundant storage—under bed stowage, dual hanging lockers, and drawers—keeps the space immaculate. Practical luxuries include a safe, two reading lights, an extra 110 V socket, and gentle courtesy lighting. The en suite master head features His & Hers granite sinks and surfaces, wrap around storage, a large mirror, and a separate toilet room alongside a walk in shower trimmed in teak.

## VIP stateroom (fwd)

---

The forward VIP welcomes guests with a queen berth, a wooden floor that continues the lower deck design language, and the convenience of an upgraded washer/dryer modification positioned just outside the suite. Comfort touches include two reading lights, an extra 110 V socket, a 32 inch LED TV, a Fusion AV750 A/V system, classic portholes, courtesy lighting, and a dedicated vanity. The private en suite head is finished with upgraded granite countertops, mirrored cabinets, and a separate walk in shower appointed with teak seating and shelves.

---

## Guest stateroom (twin)

---

Thoughtfully arranged for flexibility, the twin guest stateroom provides two single berths, a hanging locker/closet, and storage beneath each bed. The wooden floor extends the lower deck finish, while portholes, two reading lights, a Fusion AV750 A/V system, an extra 110 V socket, and courtesy lights ensure comfort and convenience. The private ensuite head features a teak finished walk in shower and a sculptural granite vessel sink.

---

## Crew

---

Designed for efficiency and privacy, the crew area accommodates one to two crew with two berths, a compact head with shower, and a practical laundry combo unit. Daily operations are supported by a drawer type fridge in the crew cabin, a Fusion RA205 audio system with speakers, and discreet access via a cockpit hatch.

---

## Helm stations

---

Command is intuitive and composed at both stations. At the interior lower helm, throttle and joystick controls work in concert with a dedicated bow and stern thruster joystick and the Seakeeper stabilizer control. An upgraded premium Garmin electronics package anchors the suite alongside autopilot, VHF, and a compass, with the main AC/DC power panels close at hand. The Stidd captain's chair with adjustable armrests offers enduring comfort, an opening side window aids ventilation and docking visibility, and thoughtfully placed steps connect directly to the flybridge and lower deck. Anchor handling is simplified with a windlass operated from dual control stations. On the exterior upper helm, mirrored controls provide the same tactile confidence: throttle and joystick, bow and stern thruster joystick, and a dedicated

Seakeeper control, with the upgraded premium Garmin electronics package, autopilot, VHF, and compass. CCTV coverage for the engine room, an electric searchlight with controls at both helms, a companion pilot seat, a tinted acrylic windscreen, stainless steel guard rails, and two aft mounted floodlights complete a commanding, weatherwise helm experience.

## Exterior main deck + bow

---

Life al fresco unfolds across a full beam aft cockpit sheltered by the bridge overhang, where a transom bench with thick cushions faces teak decking under a canopy of overhead speakers and ambient lighting. Sliding glass doors grant direct access to the salon, while a passerelle and hydraulic Opacmare swim platform invite effortless boarding and water access. Dedicated storage swallows swim gear, SeaBobs, and safety equipment, with a hot/cold freshwater shower on hand. The hull presents with bottom and topsides painted in contrasting colors, and protection includes black mesh window covers plus tailored cushion and table covers for both aft cockpit and foredeck seating. Movement is sure footed thanks to a telescopic 4 meter gangway, an integrated ladder linking platform and stern, and courtesy and pop up lights set into the main deck. Docking muscle comes from two electric capstans in the cockpit, and upgraded Restoration Hardware chairs elevate the cockpit's lounge character. Forward, the bow is arranged for sunrise coffees and sunset cocktails: a C shaped bench with a fixed table sits under a bimini with carbon poles, opposite large triple sunpads with reclining backs. Dedicated lockers keep fenders and lines shipshape, while two electric capstans, a stainless steel Delta 50 kg anchor, and a dual station windlass assure effortless anchoring. Underfoot, the foredeck is teak laid, ringed by 360 degree steel safety railings for confidence underway.

## Custom decor options

---

Refinements that set a distinctive tone include a full carbon fiber lower helm station and carbon fiber front windshield supports for a technical, weight conscious aesthetic. Taupe leather dresses the lower deck cabinet tops, while lacquered paint ceilings throughout and lacquered lower cabin walls lend a luminous, gallery like finish that elevates every space.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
