## OVERVIEW

---

The 2006 Hatteras 64 Motor Yacht LADY BELLA presents a sleek, contemporary silhouette paired with a sumptuous, carefully finished interior that speaks to the builder's celebrated craftsmanship and true bluewater capability. As a flybridge motor yacht, she marries graceful lines with practical functionality, offering a considered arrangement that favors long-range voyaging, elegant entertaining, and effortless hospitality—an offshore cruiser that delivers genuine luxury and seaworthy assurance.

Accommodations for 5–6 are arranged in three cabins, including a versatile office/guest stateroom that converts to suit your needs, while a generous full beam owner's suite with private ensuite provides a tranquil, spacious retreat with the volume and finish expected of a premium motor yacht. Propulsion is provided by reliable twin Caterpillar 3412s (1,400 hp each), ensuring confident, uncomplicated passages, and close-quarters maneuvering and docking are made simple by bow and stern thrusters operated via a remote yacht controller.

# DETAILED DESCRIPTION

---

## Recent shipyard work

---

During the February/March 2026 shipyard period the yacht received meticulous attention below and above the waterline: the bottom was faired and coated with fresh anti-foul paint, Prop Speed was expertly applied to all running gear, and six new thru-hull fittings with corresponding valves were installed to ensure reliable, dry operation. On deck the deckhouse windows were carefully re-caulked to restore watertight integrity, and all carpets throughout the yacht were professionally steam cleaned, leaving the vessel crisp, protected, and fully turnkey for immediate enjoyment.

## Major upgrades & improvements

---

From 2021 through 2024 the yacht benefited from a comprehensive program of enhancements that elevated comfort, entertainment, reliability, and exterior lifestyle. Systems improvements began with a new water-maker and the May 2022 installation of a Sea-keeper SK16 gyro stabilizer for remarkable comfort at sea, while onboard entertainment and connectivity were modernized with six new Smart TVs, DirecTV satellite TV, new Starlink satellite internet, and two Garmin stern cameras. Alfresco living was updated with a new flybridge refrigerator and a new flybridge grill, night presence and reliability were enhanced by a repowered port Onan generator and six LED underwater lights, and shore handling was simplified with a new shore power cable. Protection and cosmetic refinement include a new flybridge enclosure, professionally installed window tint and sun-protection film, and a new swim platform ladder. Climate and fuel systems were comprehensively renewed with all air-conditioning units replaced in 2023 and a new Headhunter automatic fuel transfer system installed, while daily convenience was improved by a new

onboard step ladder and an automatic salon door opener. Power reserves are up to date with batteries replaced in 2025, and custom exterior appointments — including custom aluminum aft flybridge railings with white safety mesh, a custom upper aft deck sail shade, and an upper aft deck wood table with four chairs — refine life outdoors. Thoughtfully pre-wired and set up for a davit, the yacht is primed for tender handling the moment you are.

## 2020 electronics & technology

---

In 2020 the vessel's technology suite was modernized to simplify handling and enhance situational awareness: a Wireless Yacht Controller was added for effortless remote maneuvering, and updated Garmin GPSMAP 8617 electronics were installed at both the upper and lower helms. The navigation and awareness package is complemented by Garmin AIS, XM Radio provides weather and entertainment services, and a Trac Vision SAT TV system delivers seamless satellite programming. Below decks comfort and connectivity were boosted with new LED TVs in all cabins and a new Aegean Networks onboard Wi-Fi network to ensure robust vessel-wide internet access.

## Additional upgrades

---

In 2019 the interior was refreshed with new carpeting and newly recovered exterior cushions, setting a crisp tone for the spaces you live in most. Mechanically the vessel underwent the CAT recommended 2000-hour service in December 2019, and performance was sharpened with new seven-blade high-performance VEEM propellers, improving efficiency, handling, and overall propulsion reliability.

## Disclaimer

---

The details of this yacht are offered in good faith but cannot guarantee the accuracy of the information nor warrant the condition of the boat for sale. This yacht is offered subject to prior sale, price change, or withdrawal from the market without notice, and the information is provided for convenience without creating a contract or direct representation of a specific vessel.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
