## WILLING TO CONSIDER CLEAN TRADES

Poised with presence and built for distance, this 2012 64 foot luxury motor yacht—constructed in 2011 and currently lying in the United States—blends classic lines with true bluewater capability. Her hull and decks are hand laid fiberglass, a construction that yields a quiet, confidence inspiring ride while a broad 16 foot beam creates generous, livable volumes ideal for elegant cruising and entertaining.

Enter the light soaked salon and you find an environment fashioned for effortless socializing: sumptuous seating arranged for conversation, panoramic windows framing the horizon, and a smooth connection to a sociable galley appointed for fine dining whether at anchor or on passage. Multiple lounging areas encourage lingering—morning coffee, afternoon reading, or sunset aperitifs—while below decks private staterooms are laid out to provide restful retreats for owner and guests, all supported by four beautifully finished heads that bring a resort like comfort to extended voyages.

The exterior invites relaxed outdoor living: wide side decks with secure rails afford safe passage from bow to stern, the cockpit offers a shaded venue for alfresco meals and leisurely afternoons, and a broad swim platform makes water access effortless, turning secluded anchorages into a personal beach club.

Propulsion is provided by twin Caterpillar inboard diesel engines, delivering dependable, smooth power and the longevity experienced yachtsmen require. With a substantial 900 gallon fuel capacity and 200 gallons of freshwater aboard, she is equally suited to weekend escapes or ambitious coastal and offshore passages—an authentic long range cruiser built for life at sea.

Every element reflects enduring quality and understated elegance: durable fiberglass finishes inside and out, meticulous joinery, and well concealed

storage throughout. Available now in the United States and ready for immediate inspection, this 64 foot vessel merges style, space, and seakeeping into a compelling package—luxury yacht, motor yacht, and bluewater cruiser in one. Clean trades welcome.

# DETAILED DESCRIPTION

---

## Description

---

Powered by twin Caterpillar C18 ACERT engines producing 1,150 hp each and renowned for their reliability and unmatched parts availability compared with foreign powerplants, this yacht pairs confident, long range performance with the ease of ownership every serious owner seeks. The graceful four stateroom, three head arrangement is complemented by dedicated crew quarters aft for two with a separate full head, delivering genuine livability for family, guests, and crew on extended passages. Inside, custom hardwood flooring flows through the main salon and galley/dinette while updated LED lighting creates a refined, energy efficient ambiance throughout. Upgraded Garmin electronics integrate seamlessly with full boat Fusion surround sound, and a Starlink High Performance dish keeps you connected well offshore. The Yacht Controller grants the freedom to operate engines and both bow and stern thrusters from anywhere aboard, adding finesse to already precise handling. On deck, refreshed teak highlights the cockpit and swim platform, underwater LED illumination and tri color dimmable LED cockpit lighting transform evenings at anchor, and the flybridge invites open air living beneath a Makefast hydraulic retractable bimini top cooled by dual flybridge air conditioning units and centered on a fully equipped wet bar with a Gaggenau two zone grill, a Vitrifrigo refrigerator drawer, and a sink. This yacht is impeccably appointed and will accept clean trades.

## Vessel details

---

In the main salon, custom U shaped seating conceals generous storage beneath the cushions and within the ottoman, set against custom hardwood flooring that runs throughout and anchors an interior of seamless

sophistication. A settee to port accompanies a drink refrigerator, liquor cabinet, and dedicated wine glass storage, while a bespoke surround sound audio system with subwoofer and a Marantz processor/amplifier with Bluetooth delivers cinematic immersion. A new custom high/low TV lift rises to reveal a fifty five inch Samsung QLED TV, and a cellular booster strengthens onboard connectivity for seamless entertainment and work afloat. The galley and dinette to port are curated for gourmet ease, featuring a refinished wood dinette table over a drawer for dish and drinkware, custom quartz counters, an induction stovetop with exhaust above, and a large full height refrigerator and freezer. Premium appliances include a Breville Combi Wave three in one that combines air fryer, convection oven, and microwave, a Miele dishwasher, and a Vitrifrigo ice maker. Fresh drinking water is assured by a reverse osmosis filtration system with UV sterilization and a dedicated dispenser faucet, eliminating the need to buy bottled water. A Franke sink with a new custom faucet, tailored shelving cabinets, and thoughtfully added electrical outlets complete a flawlessly equipped culinary space. At the lower helm, helm chairs with storage underneath face a Garmin GPSMAP 7612 XSV supported by two Garmin displays for heading and depth, with Garmin autopilot control and display, a compass, and trim tabs for fine tuning the ride. Communications and awareness are enhanced by a new Garmin VHF and Garmin AIS, while Caterpillar engine controls, bow and stern thruster controls, a rudder position indicator, and an exit door place confident command at hand. Comfort and convenience abound with cup holders, book storage, triple windshield wipers with freshwater wash, red night lighting, and a twelve volt charger port. The full beam master stateroom is a private sanctuary centered on a custom king sized mattress recently updated and set over storage drawers; to port a makeup vanity offers abundant drawer space and to starboard custom cabinetry with increased storage is topped by a daybed. Entertainment arrives via a forty inch LED flat screen TV with Bose surround sound speakers and subwoofer, while bookshelf storage flanks both sides of the bed. LED lighting,

expansive opening windows with superb visibility, and custom wood blinds complete the haven, with direct access to the ensuite master head where hardwood flooring frames a spacious shower, a Dometic toilet, and a white countertop with white sink and storage beneath. In the companionway, a storage cabinet beneath the stairwell includes an electrical outlet, and separate Bosch washer and dryer units simplify extended cruising. The starboard guest stateroom flexes from twin berths to a full bed at the touch of a button thanks to electrically sliding bases, paired with updated mattresses, reading lights, a large mirrored hanging locker, new LED lighting, and access to the ensuite bathroom/day head. To port, a custom storage area with a lighted cabinet, shelving, and drawers supports a twin bunk above with an updated mattress and easy access to the day head. The VIP stateroom features a queen island berth with an updated mattress and large storage drawers beneath, two dinette stools stowed neatly at the foot of the bed, and a large double mirrored hanging locker; overhead, a tempered glass porthole escape hatch with shade brings both safety and natural light, and its ensuite head echoes the master with hardwood flooring, a spacious shower, a Dometic toilet, and a white countertop with white sink and storage below. Out in the cockpit, an inviting U shaped lounge surrounds a custom refinished teak table, both protected by matching covers when not in use, and tri color dimmable LED lighting sets the mood after dark while custom matching cockpit covers, port and starboard mooring winches, and port and starboard storage lockers elevate both function and finish. Aft, the fully refurbished crew quarters feature updated wall and ceiling materials, new flooring and carpeting, air conditioned twin bunks with updated mattresses, improved storage, bedside lighting, and a full bathroom with a shower stall—ideal for discreet, comfortable crew operations. On deck, a hydraulic swim platform carries tender chocks and tie downs and is accented by LED underwater lights, with non skid surfaces running from the cockpit to the bow and updated teak on the cockpit, swim platform, and stairways. Twin Glendinning Cablemasters

manage shore power cords with ease, joined by a dockside freshwater connection and a hot/cold transom shower for post swim refreshment. The foredeck invites lounging on a re-designed bow cushion with dual multi-position incline mechanisms, while a custom tinted tempered glass escape hatch from the VIP suite illuminates the accommodation below. The Lewmar windlass anchor system is controllable from both helms and at the bow for fingertip anchoring, backed by an anchor with an all-chain anchor rode and two large anchor lockers with a freshwater washdown outlet that underscore offshore readiness. The flybridge is a private terrace at sea, shaded by a hydraulic Bimini top and serviced by a Gaggenau two-zone grill, Vitrifrigo refrigerator drawer, sink, and waste bin at the wet bar, where a large U-shaped seating area with storage beneath encircles a teak-finished table with cup holders and an aft-facing sunbed that hides additional storage; custom matching protective covers safeguard every surface. To starboard, bench-style seating for up to three people includes storage, and comfort is assured with two-zone flybridge air conditioning and a custom starboard dash console for A/C venting and stereo display/control. The upgraded flybridge stereo features an Apollo Fusion processor, three-zone top-of-the-line Fusion speakers, two-zone Fusion subwoofers, and JBL amplifiers for concert-grade sound underway or at anchor. At the upper helm, new Llebroc helm chairs with armrests face a new Garmin GPSMAP 8616 chart plotter installed in 2025, with a Fusion head unit to starboard and Fusion speakers tied into the Garmin 8616 for easy control from the helm and supported by SiriusXM and Bluetooth capability. Navigation and control are furthered by a Garmin GPS heading and depth display, Garmin autopilot control and display, Garmin radar, a rudder position indicator, bow and stern thruster controls, ACR searchlight control, windlass control, and a refrigerated cool box beside the helm chairs. In the engine room and lazarette, twin Caterpillar C18 ACERT engines produce 1,150 hp each, complemented by an Onan 17.5 kW generator, and a Seakeeper Gyro (inoperative) is in place for future service.

Dual Glendinning Cablemasters feed fifty amp shore power cords and connectors, and onboard systems benefit from an upsized raw water pump for A/C, a freshwater accumulator tank, and an upgraded freshwater pump with a backup pump. An electrical converter allows the boat to plug into and use electricity at any dock in the world, while an upgraded ventilation system with Delta T engine room exhaust fans keeps machinery cool. Serviceability is enhanced by a Reverso oil change system and a Garmin PS 51 FrontVu forward looking sonar for added awareness in tight or shallow approaches. Rounding out the package, a set of spare props, a prop puller, and a comprehensive spare parts inventory travel with the yacht—capable, quiet, and impeccably equipped from stem to stern.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
