DETAILED DESCRIPTION

Description

KINGSHIP is a 2023 Absolute Yachts NAVETTA 64, a 64 ft LOA motor yacht that delivers the volume and comfort of a much larger vessel while showcasing the craftsmanship and innovation of Italian design, presenting expansive living spaces, abundant natural light, and a thoughtfully engineered layout.

The salon features rich wood finishes, sophisticated neutral tones, generous seating, and panoramic windows that foster a seamless connection to the water. An open galley and inviting dining area on the main deck make the yacht equally suited for entertaining guests or extended time aboard. Outdoor living encompasses an expansive flybridge with multiple entertaining areas and a versatile aft beach club with outdoor lounging spaces that bring you closer to the water. Below deck, luxurious accommodations, generous headroom, and meticulous attention to detail continue the vessel's refined aesthetic.

This yacht is equipped with twin Volvo Penta D13 IPS1350 diesel engines with approximately 425 hours and Volvo Penta IPS joystick maneuvering. A Seakeeper 16 gyroscopic stabilizer is installed with approximately 1,150 hours, and Seakeeper service was completed in March 2026; a recent main engine service was also performed in March 2026. Electrical and systems equipment include dual Onan generators (primary approximately 607 hours, secondary approximately 473 hours), a 60 GPH watermaker with Spot Zero purification system, and an ElectroSea seawater system. The Dometic air conditioning was upgraded in November 2025. Additional features include a carbon fiber boarding ladder valued at $45,000 and four aft-facing transom underwater lights.

For buyers seeking a late-model luxury motor yacht with remarkable interior

volume, refined Italian styling, and premium cruising amenities, KINGSHIP presents an exceptional opportunity. Shestakov Yacht Sales is the listing broker.

Factory Installed Options

The 2023 Absolute Yachts NAVETTA 64 KINGSHIP is equipped with dual raised wheelhouse 19" displays and two 19" displays at the flybridge helm in a full display configuration, a 5G data connection fitted with two SIMs, and anchoring gear featuring a 60 kg (132 lbs) Ultra stainless steel anchor with a non-foul chain bar, twister and safety lock. Interior appointments include an armchair in the salon in light sand-coloured leather and a furniture kit, with the salon also benefiting from a luxury pack that includes a dining table with a ceramic surface and a round coffee table with an Atlas ceramic surface for the sofa area. Bathroom countertops (three) are in Calacatta marble in lieu of Corian, and the bow master cabin bathroom includes a heated towel rack. Bedding comprises bed covers and pillows for the master cabin and mid-ship cabins (two doubles and two singles), plus a bed cover and pillow for the crew cabin, and a second bed in the crew cabin.

Audio and entertainment options comprise an audio premium package, an upgraded radio stereo in the salon with four loudspeakers and a subwoofer, a radio stereo with two loudspeakers and an optical digital input in the bow master cabin, a TV lift electrical mechanism in the salon, and a refrigerated bottle holder in a cabinet beside the main deck dining table. A set of crockery, cutlery, cups and glasses personalized with the Absolute logo for six people is provided in dedicated housing. Safes are installed in the bow master cabin and the VIP cabin toward the aft.

Galley and service equipment include a dishwasher in the galley, a wine cooler (24V) in the lower deck companionway, a separate washing machine and tumble dryer (60 Hz) with a service drawer in the crew cabin, and a built-in

inflator/deflator located at the entrance to the crew cabin. Storage features include a storage unit with mirror in the lower deck companionway and additional dedicated housing for tableware.

Deck and exterior fittings include a bow dinette extensible table with a stone-effect laminate surface and aluminium leg, a cover and backrest for the sunpad; a height-adjustable cockpit table with a stone-effect laminate surface and aluminium leg, foldable wings, non-dismountable, with adjustable position and cover; TF Terrace atmosphere modules with covers (with or without storage base) for the cockpit and for the flybridge aft area; two chairs with teak structures and covers for the flybridge dining table; and a removable stainless steel handle for the swim ladder. Side access doors are fitted on both side walkways. Covers kit for the wet bar and sofas on the flybridge and covers for various items are included, and a tilting manual window in the crew cabin toward the aft has an open window sensor.

A fiberglass hard top is fitted with a photovoltaic solar panel system and integrated energy production monitoring within the on-board domotics; the hard top ceiling is made of microfiber-coated panels with dimmable lights. The flybridge features damping seat bases for driving seats (max. weight 120 kg/265 lbs), an extra driving seat with damping leg and cover, a flybridge wet bar with Corian countertop, sink with folding mixer tap, storage compartment, fridge, setup for an additional mooring station and cover, hand spray showers on the flybridge and bow area, and a cockpit wet bar with a Corian countertop. An electrical awning for the cockpit with lighting and an integrated privacy shade, and manual privacy sunshades at the sides in the cockpit (two) are fitted. Manual gathered curtains are fitted in the salon instead of venetian blinds, and woven Roman blinds replace venetian blinds in the VIP cabin and central cabin. Flyscreens are fitted for lower deck portholes.

Hull and platform equipment include a white hull, a hydraulic platform with a lifting capacity of 600 kg (1,323 lbs) that incorporates automatic access stairs

integrated into the platform, and a hydraulic watertight door for direct access to the engine room from the crew cabin. Cablemasters (two - 50 A - 60 Hz) with remote control and shore power adapter are installed, along with watertight sockets (120 V - 60 Hz) in the cockpit and flybridge aft area.

Navigation, safety and systems features encompass an electronic/navigation “Safety” package, Garmin Surround View system, radar with solid state technology, an electrical searching light with double control at the main deck and flybridge dashboards, smartphone wireless chargers on the main deck and flybridge dashboards (two), a lighting kit, multi-color RGBW underwater lights (eight) with a display for intensity and shade adjustment, and a greywater tank with a three-way valve for the bypass. Deck cleaning with fresh water and quay connection is provided in a compartment with a door.

Stabilization and maneuvering equipment include a Seakeeper 18 gyroscopic stabilizer with integrated ConnectBox, bow thruster with progressive action brushless motor and dedicated automatic fire extinguishing system, stern thruster with progressive action brushless motor and dedicated automatic fire extinguishing system, Volvo Assisted Docking, Volvo Interceptor Active, Volvo Joystick Driving interface with autopilot, speed variation and crash stop, and Volvo Penta engines 2×D13-IPS1350 (2×735 kW).

Additional fittings and conveniences are a third mooring station in the cockpit on the starboard side, setup for an additional mooring station at the cockpit wet bar, a cockpit third mooring station on starboard, TF terrace atmosphere modules with covers, an electrical searching light, hand spray showers on bow and flybridge, a radar with solid state technology, Garmin Surround View, a gyroscopic stabilizer Seakeeper 18 with ConnectBox, watertight sockets, and various storage and decorative enhancements including wall finishes behind headboards in marble-effect ceramic for the bow master cabin and a geometric pattern fabric for the VIP cabin.
