DETAILED DESCRIPTION

Overview

Delivered in 2022, M/Y FAST ONE pairs Lamborghini-inspired aesthetics with the thrilling performance of a high-speed luxury yacht, bringing automotive exhilaration to the water. Twin MAN V12 engines, each producing 2,000 HP, drive her to speeds of up to 60 knots, while a lightweight carbon-fibre construction enhances agility, responsiveness and precision handling. Ride comfort and control are further refined by a Seakeeper 6 and an advanced manoeuvring system, ensuring composed performance in a variety of conditions. Carefully looked after by a full-time Captain, FAST ONE is commercially registered and benefits from an established charter history; engines and generator have been serviced in line with manufacturer recommendations and a complete maintenance history is available upon request. The yacht is offered with two Lamborghini Seabob FS5 Limited Edition units included.

Performance and handling

Designed to deliver adrenaline-fuelled performance with effortless control, the yacht features selectable driving modes—Docking, Cruise and Performance—together with an Eco Mode to optimise fuel efficiency. State-of-the-art Advanced Dynamic Control paired with a Hyper Manoeuvring System provides exquisitely precise, immediate responses, while an upgraded joystick manoeuvring system alongside an upgraded bow thruster makes tight-quarters handling instinctive. At speed, the Seakeeper 6 gyroscopic stabiliser elevates onboard comfort and stability, and the comprehensive Mooring Pack ensures arrivals and departures are both swift and seamless.

Onboard comfort & experience

Designed for refined day cruising and elegant entertaining, the yacht pampers guests with a dedicated air-conditioning unit for the helm station alongside a full, vessel-wide air-conditioning system, while mood and atmosphere are carefully curated by full RGB ambient lighting. Entertainment is seamless with a 43-inch retractable cockpit television complemented by an additional cockpit TV on an up/down configuration, and practical luxury continues with electrically adjustable cockpit tables, a fully equipped exterior cockpit bar with an integrated sink, complete exterior cushions, underwater lighting, full protection glass, an aft awning, and a comprehensive set of covers and protective equipment.

Technology, navigation & entertainment

A carefully integrated ensemble of navigation and entertainment technologies transforms every voyage into a refined experience, beginning with a premium navigation package that instills confidence at the helm. Guests are offered a generous 15.6-inch passenger touchscreen interface, paired with a dedicated passenger monitor and control system for intuitive interaction, while integrated performance displays mounted on the hardtop present essential data at a glance. A comprehensive CCTV and camera monitoring network enhances situational awareness throughout the vessel, and intuitive home automation systems make managing onboard comfort effortless. Immersive audio is provided by a premium Hi-Fi sound system, and visual entertainment is available across three onboard TVs for uninterrupted leisure.

Design & Lamborghini specification

FAST ONE presents a Lamborghini-inspired specification, realised through the

Ad Personam program and dressed in a metallic paint that sculpts and plays across its lines. Signature Edition 63 graphics affirm its exclusive lineage, while the Carbon Light Package supplies a carbon-look hardtop and core carbon elements, further enriched by additional bespoke carbon features. The cockpit and cabins are fitted with Lamborghini-branded upholstery and custom interior detailing, with personalised embroidery carried through the soft furnishings for a tailored finish. Practical yet luxurious travel items — including a custom backpack, coordinated duffle travel bags and fender covers with custom socks — are complemented by premium linen and curated accessories, creating a harmonised aesthetic from deck to stowage. The yacht is laid out as a double cabin configuration, blending striking design with daily usability.

Galley & domestic equipment

Conceived to make extended day cruising supremely comfortable and effortless to entertain aboard, the galley is comprehensively fitted with premium Miele appliances — a Miele dishwasher, a Miele oven and a Miele glass-ceramic cooktop — with an additional stove to broaden culinary possibilities. Cold storage is generous, featuring two freezers and an integrated ice maker to deliver perfectly chilled refreshments, while a dedicated coffee machine and a practical sink streamline service. The arrangement is completed by further domestic equipment and bespoke galley solutions, all crafted to support refined onboard living.

Technical & deck equipment

Twin Victron chargers ensure dependable onboard power management, paired with an elegant bathing platform that facilitates effortless boarding and relaxed waterside lounging. A carbon-look T Top provides refined shade and

protection, while underwater lights create atmospheric night illumination and enhance visibility around the hull. The comprehensive Mooring Pack streamlines berthing and departure, and a dedicated fender fitted with bespoke protective socks safeguards the hull at the dock. When not in use, tailored full covers protect every surface to keep the yacht immaculate.

Included in the sale

The sale of FAST ONE comes with two Lamborghini Seabob FS5 Limited Edition units, each exquisitely finished to mirror the yacht's hull colour and accompanied by their dedicated autonomous fast charging station for effortless, high speed recharging.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
