# OVERVIEW

---

## Lamborghini Tecnomar 63

Delivered March 2026, this exhaustively specified commission stands as the most singular example ever realized, its bespoke exterior graduating from a metallic, deep purple stern into a soft, pastel bow. A theatrical homage to Italian craftsmanship and blistering performance, the 65'5" luxury motor yacht was crafted by The Italian Sea Group for owners who demand speed, couture aesthetics, and emotional impact without surrendering comfort. Conceived in collaboration with Centro Stile Lamborghini, its taut, predatory silhouette conveys true superyacht authority within a compact, adrenaline-charged sport yacht and express cruiser form, equally competent as a high-performance powerboat, open yacht, or superyacht chase tender.

This hull occupies the pinnacle of the series, distinguished by an expansive roster of factory options and bespoke "Variation to Contract" enhancements that elevate it far beyond the standard offering. Measuring 19.98 m overall with a 17.85 m waterline, a generous 5.42 m beam, and a shallow 1.3 m draft, she delivers exceptional stability and interior volume while retaining a low, assertive stance. Lightweight construction keeps displacement to 27 tons (lightship), marrying advanced naval engineering by The Italian Sea Group with CE Certification Module B for assured performance at speed and at anchor. Location: La Spezia, Italy.

Propulsion comes from twin MAN V12 2000 diesels producing 1,471 kW apiece (2,942 kW total), paired with steering surface drives, adjustable trim and twin flaps for razor-sharp control. The sophisticated Easy Set optimization suite continuously manages trim and interceptors, keeping the yacht level, efficient and composed as she charges toward a blistering 60-knot maximum at half load. A comfortable 40-knot cruise at 80 percent MCR makes rapid passages effortless, while the high-performance hull is tuned for fast coastal runs in

true performance yacht fashion. Hotel systems are supported by a 12.5 kW generator for refined living underway or at anchor.

Equipped for independence, she carries a Schenker Zen 100 watermaker and substantial tankage—3,500 liters of fuel, 600 liters of fresh water, plus 250 liters each for grey and black water—enabling extended dayboat or weekend cruising without compromise. To preserve the unique finish, the upperworks are fully wrapped in professional PPF (Paint Protection Film), shielding the bespoke livery from UV, salt and abrasion so the one-off palette remains immaculate.

Lifestyle and comfort receive the same obsessive attention to detail. A Hi-Fi Premium audio suite features professional KARRAY components (KV25 II and KK52 I) with powerful KU210 subwoofers for arena-grade clarity, complemented by JL Audio marine speakers forward to create an immersive soundstage from cockpit to bow. The helm is specially configured with a third co-pilot seat so three can share the full 60-knot experience abreast. Exterior relaxation is elevated by 150 meters of custom-color leather fashioned for outdoor cushions, producing a signature visual and tactile language, while bespoke bow gates refine forward access and safety on deck.

Delivered turnkey, the “Lamborghini Life” accessory pack completes the ownership experience with double sets of designer bed sheets and quilts bearing the marque’s hexagonal stitching, a full premium galley inventory including Kartell glassware, Mario Luca Giusti serving pieces and Matfer chef’s knives, and a collector-grade scale model of the yacht housed in its own custom crate. Every element speaks to a curated, high-luxury lifestyle from berth to open water.

Accommodation for up to 12 guests makes this high-performance motor yacht ideal for family voyages and elegant entertaining. A dedicated crew cabin (1/1+1 with an additional berth) allows discreet, professional operation and preserves guest privacy. With a range of 240 nautical miles at cruising speed,

the Tecnomar 63 rewards owners who prize velocity, style and the singular thrill of arriving first.

In every detail—from the one of a kind deep purple to pastel livery and elite audio fitment to Easy Set stabilization and surface drive aggression—this Lamborghini inspired sport yacht fuses raw performance drama with refined open yacht luxury. Built in 2026 with delivery in March and developed by Centro Stile Lamborghini alongside R&D from The Italian Sea Group, she is a bold statement: an expressive, high velocity express cruiser and superyacht chase tender that wears her Italian heritage with pride and turns the sea into a private runway.
