OVERVIEW

This exquisite 1982 65-foot Hatteras long-range cruiser is equipped with twin Detroit Diesel 671 naturally aspirated engines, meticulously serviced in July 2022. It boasts two recently installed (2018) Northern Lights 20kw generators, with 1500 hours on the starboard and 700 hours on the port side. The helm features newly replaced gauges for enhanced navigation.

The elegant galley is outfitted with a Whirlpool refrigerator, a four-burner stove, a microwave, an oven, dual sinks, and a coffee maker, making it perfect for culinary adventures at sea. Additional highlights include a water maker, stabilizers, and a windlass with 300 feet of chain. The last haulout was completed in 2017, ensuring the yacht's excellent condition.

Comfort is paramount with seven new Cruisair air conditioning units installed throughout. At the helm, you'll find a VHF radio, depth finder, video sounder, Track Vision satellite receiver, autopilot, bow thruster, and a Garmin 541s GPS for seamless navigation. The yacht's fuel capacity is an impressive 3000 gallons, with a fuel consumption rate of one gallon per mile, a draft of 5'5", and a water capacity of 1200 gallons, supported by a new aluminum water tank.

This stunning vessel is registered in Florida, USA, and is currently available for yacht sales in the current boat location. If you're looking to buy a yacht that combines luxury and performance, this Hatteras cruiser is an exceptional choice.
