OVERVIEW

Presenting the exceptional 2022 Sunseeker Predator 65, LORENA — a high-performance motor yacht standing apart for its refinement and capability. Cherished from the outset by an exacting owner and overseen day-to-day by a devoted full-time captain, LORENA has enjoyed meticulous upkeep, continuous enhancements, and the attentive service befitting a luxury express cruiser.

With more than \$250,000 invested in electronics, A/V, and premium audio, she ranks among the most comprehensively outfitted Predator 65s afloat, boasting audiophile-grade sound, upgraded navigation suites, and sophisticated onboard technology worthy of an elite sport yacht. Driven by twin Volvo IPS 1350s, LORENA offers effortless efficiency and exhilarating performance with top speeds of up to 35 knots. Handling is intuitive thanks to a pod-drive joystick, bow and stern thrusters, a Dynamic Positioning System (DPS), and the comfort of a Seakeeper stabilization system, ensuring confident maneuvering and serene onboard stability whether underway or at anchor.

The Predator 65 fuses pulse-quickening performance with Sunseeker's unmistakable styling — sleek, assertive, and designed for both extended coastal passages and elegant day outings. An open hardtop express imbued with superyacht DNA, LORENA is the consummate performance motor yacht / express cruiser / sport yacht for those who prize speed, composure, and impeccably finished luxury.

DETAILED DESCRIPTION

Highlights & upgrades

LORENA distinguishes herself with over \$250,000 invested in electronics, audio/visual, and systems, elevating every moment on board with thoughtful integration and premium components. She carries two brand new sets of extra propellers with PROP SPEED, one set per pod, an approximately \$40,000 value, and mounts two high end FLIR M364 dual payload cameras positioned forward and aft on a custom mast with a combined value of \$75,000+. A custom carbon fiber dashboard anchors the helm with dual joystick FLIR controls, an additional Garmin 743 display, and complete electronics integration, complemented by the Garmin Fantom 254 radar. The upgraded Garmin network adds IP cameras in the salon, owner's cabin, cockpit, and engine room, while the Ghost Marine Alarm System delivers full surveillance, motion sensors, and remote monitoring. Sound is transformed by an upgraded audio system featuring sixteen JL Audio M6 speakers across bow, stern, and salon, driven by high output amplifiers, and entertainment is locked in with KVH UHD7 SAT TV with DirecTV, Sirius XM, and full A/V network integration. Confidence and presence come from the factory dual compressed air horn system, a commercial spotlight, and an enhanced exterior lighting package that includes exterior RGB color changing LED lighting and four Lumishore Dual Color underwater lights. Interior indulgences include a wine cooler and upgraded finishes, while the ground tackle is upgraded to a fast set 88 lb Delta anchor with an SS mirror finish, a \$17,000 upgrade. Capability continues with an additional Garmin network port expander, a massive tender garage and beach club with a hydraulic swim platform, a custom bracket on the swim platform to hold a full sized Jetski, and custom metal work in the garage to accommodate two full sized Sea Bobs. Topside, the largest in class

carbon fiber sunroof opens the sky, and precise control is at hand with bow and stern thrusters, DPS, and a Seakeeper stabilization system. The private owner's suite benefits from dedicated hallway access, the custom mast is engineered to carry multi cameras, DPS, and all electronics, and docking finesse is elevated by an aft docking station with a second IPS joystick. Shade is provided by a Carbon Fibre four pole sun awning, the crew enjoys a dedicated cabin with air conditioning (6,000 BTU), and navigation confidence is rounded out by the Navigation Upgrade Package. Every system and feature on LORENA has been designed and maintained to the highest standard, combining luxury with performance and cutting edge technology.

Recent services (all documented in logbooks)

Meticulous care keeps LORENA operating at peak readiness, with full engine service completed 02/2025, POD service completed 02/2025, and fresh bottom paint applied 03/2025 to protect performance and efficiency. Reliability is further ensured by generator service in 09/2025 and the installation of twelve brand new premium marine batteries in 08/2025, a \$10,000 investment, along with engine batteries replaced in 05/2024. Ride quality and comfort are safeguarded with Seakeeper serviced 03/2024, and climate resilience is enhanced with five of nine A/C units upgraded to titanium for superior durability and efficiency. This vessel has been continually maintained by a professional captain, ensuring all systems are in optimal condition and all work is documented in the logbooks.
