OVERVIEW

Presented in immaculate, near-new condition and showing exceptionally low engine hours, this finely equipped Princess S66 represents a rare opportunity to step aboard a turnkey sportbridge motor yacht where elegance, performance and meticulous specification are perfectly balanced. Viewings are welcomed at any time.

Power comes from a pair of MAN V12 engines each producing 1,400 hp, propelling the yacht to a confident cruising speed of 32 km/h and a top speed of 38 km/h, while a practical range of approximately 400 miles makes extended coastal passages and island-hopping escapes both effortless and exhilarating. The vessel blends the brisk character of an express cruiser with the comfortable refinement of a performance flybridge yacht.

Accommodations sleep up to eight guests in four tranquil cabins, supported by three beautifully appointed heads to ensure privacy and convenience for family and friends. The starboard cabin converts electrically into a double, and the crew quarters have been enhanced with a second berth plus a separate WC, shower and washbasin. Climate comfort is assured throughout by reversible air conditioning serving the saloon, staterooms, crew spaces and heads, while heated towel rails in the forward and mid bathrooms add a boutique hotel level of warmth and luxury.

Handling is reassuringly simple thanks to joystick control allied to variable speed bow and stern thrusters with a hold lateral function, and a third helm station in the cockpit with full engine and windlass controls provides intuitive command close to the action. Stability both underway and at rest is significantly improved by a Seakeeper NG9 gyroscopic stabilizer. Practical refinements include an electric windlass, two electric aft mooring winches, a hydraulic bathing platform, a remote controlled hydraulic passerelle, an electric sliding sunroof and an electric aft sunshade. The

charcoal grey electro hydraulic bimini features integrated ambient lighting, and decks are richly laid in teak from side decks to foredeck. Interiors are finished in Satin Silver Oak cabinetry, complemented by two versatile loose poufs that can be used in the saloon, dinette or cockpit.

Navigation and entertainment are comprehensively modern: four upgraded Raymarine Axiom XL16 multifunction displays work with a Raymarine Class B AIS transponder for confident passage making, while the Yacht Controller Maximo MAN CAN (2023) with joystick, Side Power gateway and fixed charging cradle delivers fingertip control. A 32" HD LED TV with Fusion MS RA670 Bluetooth and DVD serves the forward cabin, and a Satellite TV6 antenna and dome keep you connected on the move.

Electrical and systems upgrades include an ONAN 19 kW generator replacing the standard 13.5 kW unit, AGM batteries for enhanced reliability and an AC PRO COMPACT watermaker producing 300 L per hour. The Allure Pack enriches the exterior with underwater lights aft and along the sides, soft ambient lighting, Oyster console paint, an exterior bar, a sculpted cockpit backrest, teak step risers and Design Studio upholstery. Ground tackle is strengthened with an extra 20 m of chain for a total of 80 m.

Completing this ready to cruise package is a Williams 325 tender (2022) with approximately 100 hours. Full maintenance history is available on request.

DETAILED DESCRIPTION

Princess S66

Powered by twin MAN V12 engines delivering 1400 horsepower each, the Princess S66 surges to a confident cruising speed of 32 km/h and a top hull speed of 38 km/h, inviting exhilarating passages and effortless long days at sea. With a substantial range of 400 miles she is primed for extended escapes, while accommodation thoughtfully arranged for up to eight guests in four cabins, complemented by three heads, ensures a balance of conviviality and privacy. Intelligent technology elevates every moment aboard, from joystick control for effortless close quarters handling to an electric windlass that makes anchoring swift and simple, together framing a yachting experience of pure luxury and performance.

Her specification has been curated for discerning owners, with the ONAN generator upgraded to 19 kW and the starboard guest cabin converting electrically to a double to offer flexible sleeping arrangements; the crew space gains a second berth with its own separate WC, shower and washbasin for true independence. Variable speed bow and stern thrusters with a hold lateral function, a third helm station in the cockpit with engine and windlass controls, and the latest generation Yacht Controller Maximo MAN CAN (2023) with joystick, Side Power gateway and fixed charging cradle deliver precise, confidence inspiring control. The helm benefits from an upgrade to four Raymarine AXIOM XL16 multifunction displays supported by a Raymarine Class B AIS transponder, while a Seakeeper NG9 gyroscopic stabilizer underpins remarkable poise at sea and at anchor.

Long range autonomy is assured by batteries upgraded to AGM type and an AC PRO COMPACT watermaker producing 300 L/hour, and life on board remains perfectly temperate thanks to reverse cycle air conditioning

throughout the saloon, all cabins, the crew quarters and the heads. Connectivity and entertainment are enhanced by a Satellite TV6 antenna and dome, and outdoor living is beautifully appointed with a charcoal grey bimini top with integrated ambient lighting and electro hydraulic operation, an electric sliding sunroof and electric aft sunshade, a hydraulic swimming platform and a remote controlled hydraulic passerelle, plus two electric aft mooring winches; anchoring is optimised with an additional 20 m of chain for a total of 80 m. Entertainment and comfort details abound, from heated towel rails in the forward and mid bathrooms and a 32" high definition LED TV with Fusion MS RA670 Bluetooth and DVD player in the forward cabin, to two loose poufs that move effortlessly between saloon, dinette and cockpit.

The interior cabinetry is finished in satin "silver oak," while the decks are richly sheathed in teak across the side decks, foredeck and walkways, and the Allure Pack adds aft and side underwater lights, further ambient lighting, Oyster paint on the console, an exterior bar, an elegant cockpit backrest, teak step risers and bespoke Design Studio upholstery to complete a sumptuous, turnkey package. Completing the picture, a Williams 325 tender (2022) with 100 hours is included, ready to extend the possibilities of every cruise.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
