OVERVIEW

Step aboard ELENA, the 2024 Astondoa 66 Flybridge, and immerse yourself in a higher echelon of yachting refinement where every voyage is crafted to impress. Equally inviting to seasoned skippers and those new to ownership, this flybridge motor yacht instills confidence and delivers memorable cruises with effortless poise. Meticulously appointed with premium systems, she features Volvo Penta IPS1350 propulsion, twin 24 kW Kohler generators, upgraded Garmin helm displays and Seakeeper gyro stabilization to ensure superb performance and comfort. The interior palette couples supple Italian leather with refined hardwood soles with stone accents, while bespoke soft goods throughout and tasteful underwater illumination complete the atmosphere of understated luxury. Fully outfitted, commissioned, and turnkey ready, ELENA awaits to be enjoyed without delay.

DETAILED DESCRIPTION

2024 Astondoa 66 Flybridge

The 2024 Astondoa 66 Flybridge ELENA arrives fully specified and brimming with upscale appointments from bow to stern, offering a turnkey yachting experience that balances spirited performance with refined comfort. Twin MAN 1200 engines deliver the propulsion, backed by an Onan generator and Seakeeper stabilization for a composed ride, while an array of Garmin navigation displays ensures confident passage planning. Stepping aboard reveals sumptuous Italian leathers, upgraded hardwood flooring and rich stone surfaces, offset by thoughtfully selected soft goods and underwater lighting that together create an immediate sense of elegance.

Conceived for relaxed cruising and gracious entertaining, the interior accommodates four sumptuous staterooms and three full heads, plus a dedicated crew cabin configured to sleep two. Exceptional joinery and bespoke furnishings define the spaces: smoked oak cabinetry, Madagascar ebony custom pieces, a signature LED lit stairway wall that links the salon and lower staterooms, white leather headboards, expansive mirrored accents and carefully chosen stone upgrades throughout. The flybridge is arranged for alfresco living with open air dining and a double grill, while the galley is enhanced with an additional fridge/freezer and a wine cellar ready for celebratory gatherings.

At the command stations, ergonomics and technology have been married with a custom console featuring twenty two inch Garmin screens. Maneuvering is intuitive and precise thanks to Side Power bow and stern thrusters with variable speed control, a Volvo joystick and DPS, complemented by a Yacht Controller with three stations, AIS and Starlink connectivity. Communications and situational awareness are comprehensive with two Garmin VHF radios at

the helm and two on the bridge, wireless lay flat phone charging and chain counters at both stations, plus the Garmin Surround View Camera System and advanced color FLIR for heightened safety.

Systems and utility equipment have been specified for reliability and long range autonomy: engine hours are 215 and generator hours read 270 port and 268 starboard, with two full size generators providing robust shipwide power. An Electro Sea strainer system and two water makers producing 80 gallons per hour ensure consistent water quality and supply, while an upgraded 120,000 BTU A/C system with custom helm vents maintains comfort in any climate. Bridge amenities include a hot and cold shower and a sunshade for the loungers, and illumination for evening passages is enhanced by eight RGB underwater lights and custom outdoor blue lighting.

Onboard entertainment and catering cater to elevated tastes, anchored by a custom JL Audio system with stage amplifiers driving thirty five speakers and subwoofers throughout interior and exterior living areas. Culinary provisions include two BBQ grills, a full size Miele refrigerator, a Miele dishwasher and a full size Miele washer and dryer, alongside two sets of two drawer Vitrifrigo freezer/fridges—one in the salon and one in the crew cabin—and the supplemental galley fridge/freezer. The crew cabin has been intelligently modified to offer two beds for greater flexibility.

Practical protection and finishing details preserve the yacht's condition and aesthetic: PPF covers all interior and exterior tables as well as the brow and bridge helm, while port and starboard aft shades, boarding stairs and a custom chrome anchor add convenience and style. For added assurance, the package includes a transferable five year Volvo extended warranty and an extended warranty on the Seakeeper, and the engines, pods, generators and Seakeeper were fully serviced in 2026.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.
