DETAILED DESCRIPTION

Astondoa 66 Flybridge

The Astondoa 66 Flybridge is an extraordinary yacht that seamlessly blends opulence, high performance, and cutting-edge design. Capable of cruising at 26 knots and reaching a top speed of 31 knots, this vessel is driven by two powerful MAN V8-1200 engines, each producing 1200 horsepower. These diesel inboard engines ensure both robust power and fuel efficiency.

Spanning 66 feet in length, the yacht features a beam of 19.42 feet and a maximum draft of 4.67 feet. It is equipped with a fresh water tank of 264 gallons and a fuel tank holding 951 gallons, offering an extensive range for long-distance travel.

The yacht's accommodations are crafted for luxury and comfort, with four guest cabins and three guest heads. The main deck includes a beautifully appointed salon, galley, and helm station. The hull is finished in a distinctive white Astondoa color, enhancing its aesthetic appeal.

The Astondoa 66 Flybridge is fitted with a 22.5 kW generator and an electric bow thruster for effortless navigation. Safety and performance are further enhanced by hydraulic trim tabs, a searchlight, and an automatic fire suppression system in the engine room. The electrical system is tailored to USA standards, operating at 120/240V AC 60 Hz.

For added practicality, the yacht includes an engine-driven emergency bilge pump and a tender lift platform with a 400 kg capacity. The exterior is elegantly finished with teak flooring in the cockpit, side decks, and bathing platform, complemented by a teak table in the aft cockpit. GRP tables adorn the flybridge and bow area, while an electric awning in the cockpit provides shade and comfort.

Inside, the yacht is equally stunning, featuring a wooden floor in the saloon

and carpeted staterooms. The fully equipped galley includes a fridge/freezer, an additional fridge on the port side, an oven/microwave, and a ceramic stovetop. Tecma toilets and Venetian blinds add to the luxurious feel.

Entertainment options are plentiful, with a Yamaha sound system in the main deck salon, a Fusion sound system with JL speakers in the aft cockpit, and a 55" LED TV in the owner's cabin. The salon boasts a 50" LED TV with a Hi-Lo system, and additional TVs are available in the guest cabins, VIP cabin, and crew quarters.

The yacht's navigation and electronics are top-notch, featuring a Raymarine/Garmin radar antenna and autopilot, VHF 2 station, and extra multidisplay screens at the flybridge and main helm. Three integrated video cameras offer views of the aft cockpit, flybridge, and engine room.

The exterior design combines style and functionality, with a concealed gangway featuring automatic handrails, a hard top flybridge with LED lighting, and a Fusion audio system with JL speakers. The flybridge and upper cabin are painted metallic, along with the navigation system, for a sleek appearance.

Additional amenities include a custom flybridge grill, extra fridge and freezer in the galley, a wine cellar, washer and dryer, and dimmers for LED lights in the salon and aft cockpit. The yacht is also equipped with a Seakeeper N9 Gyro for stability, underwater lights, and a Glendenning system.

The Astondoa 66 Flybridge is a triumph of design and engineering, delivering unmatched luxury and performance for the discerning yacht aficionado.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.
