## 2014 Azimut 64 Flybridge

---

TARKAN, a 2014 Azimut 64 Flybridge, is the rare union of Italian poise and purposeful performance, conceived for owners who want the thrill of a fast cruise with the serenity of a refined retreat. Built to U.S. specifications and finished to an exacting standard, she offers a three-stateroom layout plus crew and every amenity for effortless day boating or extended passages. Her twin Caterpillar C18 engines deliver a combined 2300 horsepower for an easy 25-knot cruising speed and a confident 30-knot top end, with approximately 1100 hours, while a Kohler 23 kW generator with about 1750 hours quietly powers hotel loads at anchor. A hydraulic swim platform, satellite TV, an audiophile-grade JL Audio system, twin Raymarine MFD touchscreens, universal teak chocks, and new carpet throughout underscore a yacht continuously curated for comfort, capability, and style.

The flybridge is expansive and beautifully social, with cushioned seating and sun lounge areas gathered around a large dining table and flanked by drink holders for relaxed entertaining. A well-appointed wet bar carries a sink, a Kenyon electric grill, a Vitrifrigo icemaker, and a Waeco refrigerator, while a Samsung flat-screen removable TV, stereo speakers, a Raymarine camera, protective covers for the equipment, a teak deck, and overhead LED lighting complete the space. A sleek hardtop with a retractable sunroof brings sunlight or shade at the touch of a button, and the upper helm is fully equipped for confident command: ZF throttle controls, an intuitive Xenta joystick with bow and stern thrusters, an Azimut trim tab control, a Quick chain counter for the windlass, a Fusion stereo control head, searchlight control, engine gauges, mechanical system switches, a Sea-Fire gauge and switch, a 12V plugin, and Raymarine electronics including large touchscreen units for plotter, radar, and

sounder, supported by VHF, AIS, autopilot, and camera views from the flybridge, aft deck, and engine room.

On the main level, the aft deck sets the tone for relaxed alfresco living with a generous seating area around a dining table laid over elegant teak decking. Overhead speakers, LED lighting, a Fusion stereo control, and a Raymarine camera enrich the experience, while port and starboard boarding access and doors make movement effortless. From here, there is easy access to the flybridge, the bow, and to and from the hydraulic swim platform via port and starboard boarding doors; the platform itself also provides direct entry to the engine room and the crew quarters. Practical touches include plentiful storage compartments, Quick mooring windlasses on both port and starboard, large cleats, a hot-and-cold shower, two fifty-amp shore power cords with Glendinning Cablemaster automatic shore cord retractors, and a seamless flow into the main salon through full sliding doors.

Forward, the foredeck invites sun-drenched lounging on a broad sun pad fitted with drink holders and handrails. Teak side decks and a nonskid foredeck ensure secure footing, while mesh removable covers for the windshield and side windows protect the glazing. Substantial cleats and chafe guards, a Lewmar Delta anchor, Quick windlass controls with a chain washer, and a large-storage anchor locker deliver tidy anchoring and mooring operations. Inside, the main deck salon is open, light, and carefully styled for both casual conversation and formal evenings. A U-shaped settee with storage and a sleeper pullout faces a stylish cocktail table with custom décor accents, while additional seating with storage underneath expands the conversation area. A Samsung pop-up television pairs with Bose surround speakers to create a cinematic escape, and LED direct and accent lighting set the mood as curtains soften the light over the windows and aft doors. A dedicated refrigerator adds convenience, Condaria personal climate control ensures tailored comfort, and a handrail at the stairs adds safe elegance. The adjacent galley is a gourmet's

stage, its stunning marble countertops framing a Miele induction stovetop and a Miele household microwave/convection oven. A Gessi faucet serves dual Franke sinks, while one Isotherm refrigerator unit and a Vitrifrigo freezer unit hold provisions. Smart storage abounds with overhead lockers and drawers featuring dedicated plate and crystal organization, complemented by an automatic opening window forward of the galley and Neff ventilation above the stovetop. The dinette is styled for both easy breakfasts and candlelit dinners, maintaining the salon's seamless indoor-outdoor flow through the full sliding opening salon door.

The lower helm is an expertly designed command center blending intuitive ergonomics with cutting-edge instrumentation. The Azimut vessel status display, Xenta joystick for bow and stern thrusters, Quick chain counter for anchoring, temperature and RPM gauges, key ignitions with start-stop controls, ZF throttle controls, a Jabsco searchlight, Azimut trim tab controls, a Sea-Fire gauge, a 12V plug, an AC vent, and over-helm lighting are arranged for clear, calm decision-making. The Raymarine electronics package includes two large touchscreen units for plotter, radar, and sounder, along with VHF, AIS, autopilot, and selectable camera views from the flybridge, aft deck, and engine room.

A graceful companionway lined with a stainless steel handrail, carpeted steps, and a padded bolster leads below, where a Miele separate washer and dryer share the landing, and doors open to all staterooms and to the day head. The full-beam master suite is a private haven, framed by large hull port windows to port and starboard with blinds, a raised king-size berth, reading lights, LED direct and accent lighting, and a large Samsung flat-screen TV with Bose surround sound. A vanity and desk with seating and storage underneath create a serene work-and-beauty corner, while a hanging locker with a full-length mirror on the inside of the door and compartmental storage keeps wardrobes in perfect order. A safe and a Condaria personal climate AC controller add further refinement, and a private ensuite head elevates daily

rituals.

Forward, the VIP stateroom rests on centerline with a raised queen berth and storage beneath, flanked by hanging lockers to port and starboard and topped by additional overhead storage. A Samsung flat-screen TV and Samsung DVD player pair with reading lights, a padded headboard with wood accent, hull port lights with blinds, LED direct and accent lighting, and a Condaria personal climate AC controller. Access to a fully ensuite head keeps the space serene and self-contained. The twin guest stateroom features side-by-side berths with storage beneath, a padded wraparound headboard with wood accent, a large hanging locker with a full-length mirror on the inside of the door, LED direct and accent lighting, opening port lights with screen covers and blinds, reading lights, an LG flat-screen TV, a Samsung DVD player, a Condaria personal climate AC controller, and access to the starboard guest head.

All three heads are beautifully appointed. The master bathroom carries a Tecma head, storage cabinets, a mirrored vanity, a large walk-in shower with both overhead and wand discharge and seating inside, a floating-style sink, a dedicated soap dispenser holder, an opening port light with screen and blinds, towel hangers, and an exhaust fan blower. The VIP head is fully ensuite for guest privacy and features a Tecma head, a storage cabinet and drawer, a mirrored vanity, a large walk-in shower, floating-style sinks, a dedicated soap dispenser holder, an opening port light with a blind, towel hangers, and an exhaust fan blower. The day head/guest head echoes this premium specification with a Tecma head, storage, a mirrored vanity, a shower, a floating-style sink, a dedicated soap dispenser holder, an opening port light with a blind, towel hangers, and an exhaust fan blower.

Crew accommodations are accessed from the swim platform and include a single berth, a port light, a Tecma head, and reading lights—simple, practical, and private. In the machinery spaces, engineering is equally thoughtful: Twin Disc gears with ZF controls deliver smooth shifts and throttle response; the

Kohler 23 kW generator provides robust, quiet power; and an engine room camera feeds directly to the Raymarine plotters. A Quick 80-amp, 24-volt charger is mounted on the after bulkhead where all engine-room breakers are also easily accessed, and all strainers line the centerline of the bilge for service simplicity. Fuel is polished by twin Racor 751000 FHX fuel/water separators on each C18, with an additional Racor for the generator, while a Dometic chiller AC system keeps the entire yacht cool and composed. From her teak-detailed decks and mooring muscle to her indulgent interior finishes and comprehensive navigational suite, TARKAN stands as a 64-foot Azimut whose elegance is matched only by her capability.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
