## OVERVIEW

---

Presented as a fully appointed 20.77m luxury motor yacht, she marries refined contemporary lines with expansive living areas and confident, reliable performance. Powered by twin Volvo Penta D13-800 diesel units, she sustains a comfortable cruise of 18 knots and can push to a top speed of approximately 23 knots. Accommodation is laid out across four cabins and is supported by a high-spec navigation suite and comprehensive air conditioning throughout the vessel; electrical needs are covered by a 24 kW Kohler generator alongside a 13 kW Fisher Panda unit. With generous fuel and fresh water reserves, she offers an ideal platform for relaxed cruising and extended periods aboard.

# DETAILED DESCRIPTION

---

## Detailed Aquitalia 68

---

This 20.77-meter motor yacht is conceived for extended cruising and sumptuous living at sea, marrying spirited performance with refined comfort and efficient engineering. Twin VOLVO D13-800 diesels provide assured propulsion, yielding a comfortable cruising speed of 18 knots and a top speed of 23 knots, while the FRP (Fiberglass Reinforced Plastic) hull delivers longevity, reduced maintenance demands and excellent seakeeping. The yacht's 6.1-meter beam and 19.75-meter hull length create expansive interior and exterior volumes arranged for practical luxury, and a displacement of approximately 40 tons contributes to a stable ride; a shallow 1-meter draft further broadens access to coastal anchorages and marinas. Designed for true long-range capability, the fuel capacity of 4500 liters and 900 liters of fresh water support extended passages, and separate 300-liter black water and 300-liter sewage tanks ensure responsible waste management and onboard hygiene. Electrical autonomy and comfort are maintained by a 24 kW Kohler and a 10 kW Fisher Panda generator working with a multi-system battery bank that supplies the engines, navigation systems, household amenities and anchor operations, while onboard monitoring includes clear fuel level indicators, engine-room fire suppression and automatic bilge pumps to enhance safety and operational dependability. Climate comfort is provided year-round by a fully integrated air-conditioning system serving every cabin and living area, with both cooling and heating zoned to individual spaces and high-capacity climate control assuring a pleasant environment in the main saloon and at the helm. Navigation and command are comprehensive and user-friendly, with radar displays installed at both the flybridge and main helm, autopilot, VHF communications, a satellite antenna and high-accuracy compass

equipment to deliver precise handling whether cruising coastal waters or venturing offshore. The result is a vessel that balances performance, safety and sophisticated onboard living—ideal for private ownership, long voyages and Mediterranean-style life aboard.

## Engine

---

Two Volvo Penta D13 engines form the yacht's propulsion core, each rated at 800 hp with 700 hours logged, delivering assured performance, impeccably smooth acceleration and a level of refined efficiency that elevates every passage.

## Machinery

---

Designed to provide dependable and economical passagemaking, the mechanical package is anchored by twin generators—a 24 kW Kohler alongside a 10 kW Fisher Panda—offering generous, redundant electrical capacity for life aboard. Long-range independence is supported by a Denmar watermaker rated at 300 L/h, while a comprehensive air-conditioning installation keeps the interior climate consistently comfortable. Electrical distribution and charging are overseen by a Victron Energy battery charger paired with a Victron Energy inverter, ensuring smooth, uninterrupted power whether the yacht is underway or at anchor.

## Inside equipment

---

Crafted to ensure life aboard is effortlessly refined, the interior includes an LG washing machine for convenient, efficient laundry, a full-size oven paired with a separate cooker to meet every culinary demand, and a refrigerator that keeps provisions perfectly chilled throughout your voyage.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
