OVERVIEW

A study in Italian balance and capability, this 2001, 69-foot Ferretti-designed planing motor yacht brings together the celebrated sea-keeping of a Ferretti Yachts hull with the relaxed elegance of Mediterranean cruising. Built on a GRP/fiberglass planing platform and driven by dependable twin MAN inboard engines, she slips into a confident 28-knot cruise and can be urged to about 31 knots when the call of open water demands speed.

Her expansive 18-foot beam creates generous interior volume and a calm onboard presence, while a shallow draft of just over 5.6 feet allows access to Greece's sheltered coves and island anchorages with ease. The deck layout favors outdoor life: a welcoming cockpit for long alfresco meals, wide side decks for safe, easy movement, and clean, unbroken profiles that keep the sea and scenery as the constant focus.

Inside, the salon flows openly for casual entertaining and languid evenings at anchor, wrapped in a warm, inviting atmosphere. Accommodation is arranged for privacy and comfort, sleeping up to four guests and uniquely offering four well-appointed bathrooms for convenience on extended passages. Two dedicated crew cabins provide berths for up to four crew, enabling discreet, professional service to support every voyage.

Substantial fuel capacity—over 1,050 gallons—paired with a practical 264-gallon freshwater tank makes island-hopping both flexible and reassuring, whether slipping between Cycladic harbors or setting a swift course to a secluded bay. The Ferretti pedigree in the hull's design gives confident handling and composed tracking in open water, balancing agility with solid, predictable performance.

From the first pale streaks of Aegean dawn to starlit nights on deck, this yacht embodies a distinctly Mediterranean tempo—unpretentious, luxurious, and capable. For owners seeking a timeless 70-foot-class performance cruiser with

authentic Italian DNA, she presents a compelling mix of speed, comfort, and understated refinement.
