OVERVIEW

The Falcon 80 is more than just a showcase of accessories, systems, and electronics—it's a testament to how a yacht approaching three decades can be equipped with the most advanced technology available today. This results in a lifestyle on board that competes with even the newest vessels on the market.

The extensive refit has transformed the yacht into a fully modernized, technologically advanced vessel, without compromising its waterline or performance.

Central to this transformation is Quick's state-of-the-art stabilization system—a comprehensive solution featuring both a gyroscope and stabilizing fins. Primarily designed to counteract roll, it also reduces pitch. For those familiar with the sea, the ability to test such a system is invaluable. Each yacht behaves uniquely, and sea conditions can vary widely—factors like wind, wake, hull shape below the waterline, and freeboard height all affect stabilization performance.

Using the Falcon 80 as a practical test platform allows for precise adjustments of these integrated systems in real-world conditions. This project was a collaborative endeavor, developed closely with the Navico Connect team. Onboard, the latest Simrad equipment has been installed, with its integration into all onboard systems meticulously engineered to provide the most seamless and efficient experience for those at the helm.

Explore yacht sales in the current boat location and consider this exceptional yacht for sale. If you're looking to buy a yacht, the Falcon 80 offers a unique blend of classic elegance and modern innovation.

DETAILED DESCRIPTION

Navigation equipment

This yacht is equipped with an impressive array of navigation equipment, ensuring a seamless and safe journey on the open waters. At the heart of its navigation system is the Autopilot Simrad, which provides precise and reliable steering control. Complementing this is the Chain Counter Quick, allowing for accurate anchor management. The traditional Compass is also present, offering a classic touch to the modern setup.

For those who enjoy sharing the helm, a Co-pilot seat is available, making navigation a collaborative experience. The Depth Sounder Simrad ensures you are always aware of the water depth beneath, while the Display Simrad offers clear and comprehensive data visualization. The yacht is also equipped with a Dynamic Positioning System, providing stability and control in various conditions.

The GPS Simrad and Plotter with GPS antenna work in tandem to deliver precise location tracking and route planning. For enhanced situational awareness, the Radar Simrad scans the surroundings, ensuring you are always informed of nearby vessels and obstacles. Communication is made easy with the VHF Radio Simrad, facilitating clear and reliable contact with other boats and maritime services.

The helm station is a technological marvel, featuring the Navico NSO EVO3S MFD 19" System Pack, which integrates all navigation functions into a user-friendly interface. Additionally, the yacht is equipped with a CCTV system, providing security and peace of mind. This comprehensive suite of navigation equipment ensures that every journey is not only safe but also enjoyable, making this yacht a perfect choice for seasoned sailors and newcomers alike.

Staging and technical

This yacht is a marvel of engineering and design, equipped with a comprehensive array of staging and technical features that ensure both performance and comfort. At its core, the yacht is powered by an impressive setup of 12 batteries, each delivering 12 volts, supported by a robust battery charger to keep everything running smoothly. Maneuverability is enhanced by the Quick Bow Thruster and Stern Thruster, providing precise control in tight spaces, while the bow and stern winches, along with the Electric Windlass Quick, make anchoring and docking effortless.

The yacht's exterior is adorned with courtesy lights and underwater lights, creating a stunning visual effect both above and below the waterline. The teak cockpit, deck, and side decks add a touch of elegance and durability, while the teak on the flybridge offers a luxurious space to relax and enjoy the view. The platform by Sanguineti, featuring an up/down system, and the Sanguineti gangway ensure easy access to and from the yacht.

Safety is paramount, with a Plytechno fire extinguishing system and a waste water purifier system ensuring a clean and secure environment. The yacht is also equipped with a water harbor connector system, making it easy to connect to shore utilities. Stability is guaranteed by four Quick Gyro stabilizers with fins, ensuring a smooth ride even in choppy waters.

Additional features include a third control station at the stern, providing flexibility in navigation, and a set of four intruders 1000 for added security. The yacht is fitted with fancoils for climate control, Venetian blinds for privacy, and a steering wheel crafted from aluminum with a 450mm diameter for precise handling. The anchor chain measures 14mm, ensuring secure anchorage, while the box fuse and battery charger keep the electrical systems in check. For added convenience, the yacht includes a descaling water treatment system, fenders with a Rure 24V pump, and N2 supports for setas on the

flybridge by Besenzoni. This yacht is a testament to superior craftsmanship and thoughtful design, offering an unparalleled experience on the water.

Domestic facilities onboard

The yacht's domestic facilities are designed to provide unparalleled comfort and convenience, ensuring a luxurious experience on the water. The air conditioning system maintains a perfect climate throughout the interior, allowing you to relax in comfort regardless of the weather outside. The interior is elegantly appointed with a wooden floor, adding a touch of warmth and sophistication to the living spaces.

Powering the onboard amenities is the Veco inverter, which ensures a stable and efficient energy supply. For added security and peace of mind, a PM Marina video camera is installed, allowing for monitoring of key areas on the yacht. The yacht is equipped with two warm water systems, each with a capacity of 100 liters, providing ample hot water for all your needs.

Additionally, the yacht features a watermaker, ensuring a continuous supply of fresh water, which is essential for extended voyages. These domestic facilities are thoughtfully integrated to enhance your onboard experience, making this yacht a perfect blend of luxury and practicality.

Security equipment

The yacht is equipped with essential security equipment to ensure the safety and peace of mind of everyone on board. A reliable fire extinguisher is readily accessible, providing a crucial first line of defense in the event of a fire.

Complementing this is the fireproof coating in the engine room, which is designed to prevent the spread of flames and protect vital components from heat damage. These safety measures are thoughtfully integrated into the yacht's design, underscoring a commitment to security and the well-being of all

passengers and crew.

Entertainment

The yacht's entertainment system is designed to provide an exceptional audio-visual experience, ensuring that every moment on board is filled with enjoyment and relaxation. At the heart of this system is the Hi-Fi Fusion, delivering crystal-clear sound quality that enhances any gathering or quiet evening. Complementing the audio experience are the Garmin speakers, strategically placed to provide immersive sound throughout the yacht.

For those who enjoy staying connected to the world, the satellite TV antenna ensures access to a wide range of channels, no matter where your journey takes you. This is paired with a high-quality TV, offering a perfect viewing experience for movies, shows, or live events. Together, these entertainment features create a luxurious and engaging environment, making every voyage a memorable one.

Kitchen and appliances

The yacht's kitchen is a culinary haven, equipped with state-of-the-art appliances that cater to every need, whether you're preparing a simple meal or hosting a gourmet dinner. At the center of this well-appointed kitchen is a ceramic hot plate, offering precise temperature control for all your cooking endeavors. The oven complements this, providing the perfect environment for baking and roasting.

For those who appreciate convenience, the kitchen includes a dishwasher, ensuring that cleanup is as effortless as the cooking process. The refrigerator and wine cooler are essential for keeping your ingredients fresh and your beverages perfectly chilled, ready to be enjoyed at any moment. An ice maker adds an extra touch of luxury, providing a steady supply of ice for drinks and

entertaining.

Additionally, the kitchen is equipped with a washer, making it easy to handle laundry needs during extended voyages. This comprehensive suite of appliances ensures that the yacht's kitchen is not only functional but also a delightful space to create and enjoy meals, enhancing the overall onboard experience.

Upholstery

The yacht's upholstery is designed to provide both comfort and style, enhancing the overall aesthetic and functionality of the vessel. At the bow, luxurious cushions invite you to relax and enjoy the view, offering a perfect spot for sunbathing or simply taking in the surroundings. The flybridge is similarly equipped with plush cushions, creating an inviting space for socializing or unwinding with a book.

In the cockpit, a cover provides protection from the elements, ensuring that the seating area remains pristine and ready for use at any time. The stern of the yacht is also fitted with comfortable cushions, making it an ideal location for enjoying the sea breeze or watching the sunset. This attention to detail in the yacht's upholstery not only adds to the comfort of the passengers but also elevates the overall onboard experience, making every journey a luxurious escape.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
