OVERVIEW

The Navetta 70 gracefully blends contemporary refinement with genuine passagemaking capability. Its streamlined modern lines, glass bulwark panels and a renewed terrace-style aft cockpit create an impression of airy openness while projecting calm authority and elegant balance. This luxury flybridge motor yacht carries a silhouette that feels both timeless and distinctly current. Her flybridge has been rethought to be expansive, harmoniously proportioned and astutely laid out, and the yacht as a whole is enlivened by oversized glazing and transparent side walkways that flood the interior with daylight and frame uninterrupted sea vistas. A true flybridge yacht conceived for easy entertaining and untroubled cruising.

Within, the interior choreography emphasizes fluid movement and composed comfort: generous headroom, pale woods warmed by bronzed accents and space-saving sliding doors encourage effortless circulation and foster an intimate yet luxurious atmosphere appropriate to a premium motor yacht. Below decks the accommodation is voluminous and carefully planned, with separate private crew quarters for discretion. The lower deck remains open and connected while clearly zoned, making it ideal for long-range cruising, family passages and extended voyages aboard a long-range cruiser.

Driven by twin Volvo Penta D13-IPS1350 engines, she offers a refined balance of poised performance and economical long-distance capability—a sophisticated semi-displacement cruising yacht at ease whether coastal hopping or venturing into bluewater adventures.
