OVERVIEW

Delivered in 2023, UNREEL presents a rare opportunity to own a virtually new yacht in immaculate condition, perfectly suited for cruising the U.S. East Coast or the crystalline waters of the Bahamas. As the 19th hull in her line, UNREEL carries with her a proven pedigree—her performance, heritage, and desirability are well established.

With a shallow draft of just 5 feet, she is ideal for island-hopping and accessing secluded anchorages. Specified for the American market, the yacht runs on U.S. 60-cycle electrical systems for seamless integration and easy operation ashore.

Accommodating six guests across three elegantly finished cabins located on the lower deck, the accommodation plan comprises a generous full-beam master suite, a VIP double and a guest twin, each fitted with private ensuite facilities. The main deck unfolds into a refined saloon lounge with a sheltered aft dining area, while comfortable sun pads grace both the stern and the bow. Interior appointments are sumptuous yet contemporary: parquet flooring underfoot, supple leather sofas, brushed nickel detailing, and leather-topped surfaces throughout.

UNREEL is equipped with advanced onboard systems, including an integrated navigation suite and an intuitive control interface, complemented by steer-by-wire helm technology and propulsion systems featuring the latest automation for responsive handling and efficient operation.

A Pershing 7X, she carries the distinction of having won 'Best Exterior Design' in the 64–80 ft category at the World Yacht Trophy Awards, her striking lines penned by Fulvio De Simoni and emphasized by a metallic charcoal hull that turns heads wherever she calls. Built from GRP and carbon fiber with weight-saving construction techniques, UNREEL is engineered for speed and efficiency and delivers an exhilarating top speed of 50 knots.

Key Features:

Exceptional top speed of 50 knots, positioning UNREEL among the fastest yachts in her class.

Sleek, contemporary Italian design by Fulvio De Simoni.

Best-priced and most recent model available in the 70' Pershing range.

U.S. duty paid, turn-key and ready for immediate use.

Explore yacht sales in the current boat location and seize the opportunity to acquire a vessel that flawlessly combines luxury and performance.

DETAILED DESCRIPTION

Machinery

This yacht is commanded by two robust MAN V12 engines, each producing an impressive 1,800 horsepower, delivering a blend of effortless power and refined smoothness that makes every cruise — from relaxed coastal runs to adventurous passages — a confident pleasure; both the port and starboard engines show a mere 290 hours of operation, a clear indication of light use and meticulous maintenance, while gearboxes specified for surface drive operation further optimize propulsion efficiency and responsiveness, together promising a reliable, exhilarating and highly capable experience on the water.

Generators & auxiliary systems

A dependable onboard generator, with just 360 hours of service recorded as of October 2023, underpins extended autonomy and comfort, while the Victron Phoenix 24/3000 120 USA inverter delivers seamless, high-quality power conversion to meet the yacht's electrical demands, together forming a resilient auxiliary electrical system that keeps systems running smoothly and reliably for uninterrupted enjoyment at sea.

Ancillary equipment

Maneuvering and onboard comfort are significantly enhanced by a thoughtful suite of ancillary equipment: an electric stern thruster offers precise, effortless control during close-quarters handling and docking, dual Seakeeper NG6 stabilizers dramatically reduce roll for exceptional comfort underway or at anchor, and a Racor fuel, oil and water separator ensures the purity of fuel and the long-term reliability of propulsion systems — together these systems

elevate both safety and enjoyment under way.

Safety & security equipment

Safety and peace of mind are assured by a comprehensive alarms and monitoring package that includes an aft camera for stern visibility and additional cameras tactically positioned in the galley, salon, cockpit and engine room to provide thorough onboard surveillance; the integrated GOST tracking system enables real-time location monitoring for added security, and a remote yacht controller system offers convenient, precise command of critical functions, collectively forming a robust protective framework for comfortable and secure cruising.

Communication equipment

Connectivity at sea is elevated by the state-of-the-art Starlink Marine System, offering seamless, high-speed internet access even offshore, while the integrated VPN ensures secure and private communications for both personal and professional needs, so guests and crew remain reliably connected wherever the voyage leads.

Navigation equipment

Navigation is centered on a full Simrad suite enhanced with an upgraded 19-inch display, offering markedly greater chart detail and situational awareness compared with the standard 12-inch configuration; complementary Simrad AIS provides real-time vessel tracking for safer routing, and a FLIR 364C sound imaging camera adds superior thermal imaging capability for confident navigation in low light or reduced visibility, together delivering an advanced, reliable navigation platform.

Deck equipment

Practical enhancements on deck include additional cleats fitted to both the port and starboard sides, increasing flexibility and security when mooring in a variety of berthing situations and reflecting careful attention to detail that makes handling and day-to-day use noticeably more convenient.

Audio / visual entertainment

Onboard entertainment is designed to satisfy every preference, with a 65-inch TV in the main salon paired with an Apple TV CAD system that is also installed in the master cabin for seamless streaming, a 49-inch display in the lounge, a further 65-inch screen in the owner's cabin and a 24-inch TV in the guest cabin, each accompanied by Apple TV for effortless content access; a Sony PS5 in the salon provides high-end gaming, hardwired wireless access points ensure strong, consistent connectivity throughout, and a premium audio upgrade with an aftermarket-enhanced amplifier delivers rich, immersive sound for an elevated onboard entertainment experience.

Galley & domestic equipment

The galley is comprehensively equipped for effortless provisioning and service, featuring a full-sized refrigerator, oven, stove and microwave, supplemented by a Raritan USA ice-maker for constant chilled refreshment; the galley worktop has been upgraded beyond the standard finish for enhanced durability and aesthetics, a US-sourced washer/dryer provides onboard laundry convenience, and an additional refrigerator in the cockpit increases chilled storage capacity, together creating a domestic environment aboard that rivals the comforts of home.

Tenders & watersport equipment

The yacht carries a Williams 325 Jet Tender, a versatile and performance-oriented craft designed for effortless launching and dry docking, providing nimble, reliable transport for shore excursions and watersports and extending the vessel's capability for exploration and active enjoyment on the water.

Accommodation

The lower deck is devoted to refined accommodations accessed via the staircase from the main salon, where the master cabin offers a sumptuous double bed and a convenient mini fridge, its en-suite appointed with a bidet, a shower featuring a Corian shower plate and elegant parquet flooring for an elevated sense of luxury; the VIP cabin also provides a double bed with an en-suite shower finished with Corian flooring, the guest en-suite supplies additional shower facilities, and the crew quarters include a captain's cabin with a single bed and built-in storage plus an en-suite shower, while upgraded cabin carpeting throughout enhances the onboard ambiance and comfort for every guest.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
