## OVERVIEW

---

Please be aware that this listing outlines a model specification for a new construction and not an actual yacht available for purchase. For further details on this model and build options, please reach out to us.

The Horizon V68 is a masterpiece of yacht design, seamlessly blending expansive superyacht features into a size perfect for owner operation. Crafted in partnership with the esteemed designer Jonathan Quinn Barnett, this yacht boasts generous living spaces, broad side decks, and a spacious interior, all within a 19'5" beam. The design maximizes natural light through large windows on the main deck and in the cabins. Buyers can choose between a three or four stateroom layout, with optional crew quarters at the rear, and various configurations for the three decks, including both open and enclosed bridge options. The V68's distinctive plumb bow, a hallmark of Stimson Yachts' hull design, extends the waterline and minimizes drag at lower speeds, while the wider hull beam enhances stability. Perfect for first-time or seasoned yacht buyers, families, and owner/operators, the Horizon V68 offers the elegance and safety of a superyacht, along with robust construction and customization options, all within a compact 70-foot frame. Explore yacht sales in the current boat location and consider this exceptional yacht for sale.
