## OVERVIEW

---

2022 Pershing 7X is a high-performance motor yacht that blends striking design with dynamic seagoing capability for owners who want more than a standard sport yacht, offering a direct helm connection wrapped in unmistakable style and presence. Constructed in carbon fiber, her lightweight structure yields exceptional responsiveness and agility, enabling a heart-racing top speed of 50 knots. Propelled by twin MAN V12 engines rated at 1800 MHP each, she delivers immediate, commanding acceleration the moment the throttles are advanced. Trades are considered and in-house financing is available, with US duty paid.

# DETAILED DESCRIPTION

---

## Description

---

The 2022 Pershing 7X is a consummate expression of pace, poise and driver-centric excitement, presented U.S. duty paid. Built largely in carbon fiber, she is exceptionally light and highly responsive, accelerating with authority to a top speed of up to 50 knots thanks to twin MAN V12 1800 MHP engines that deliver immediate, confidence-inspiring thrust the instant the throttles are opened. Conceived by Fulvio De Simoni, her profile is taut and assertive, while refreshed hull and superstructure finishes lend a contemporary, eye-catching presence that distinguishes her in any marina. Inside, the ambiance is defined by generous volume, refined comfort and abundant natural light: panoramic salon windows, expansive hull-side glazing and a retractable glass sunroof create an uninterrupted visual link with the sea. The luminous, modern interior transitions effortlessly between spirited passages and leisurely anchorages, and the accommodation layout—three cabins with three en-suites plus dedicated crew quarters—provides privacy and seamless hospitality for owners and guests. A large aft swim platform further enhances life afloat, simplifying boarding, swimming and tender handling. Systems aboard are tailored to elevate every voyage: a Dynamic Positioning System affords precise control and hands-off station keeping even in testing conditions, complemented by a bow thruster for assured close-quarters maneuvering. Two Seakeeper #6 gyrostabilizers markedly improve comfort under way and at rest, while a 21.5 kW generator and a Tropical Air Conditioning System ensure reliable power and a perfectly tempered environment. A Williams 325 Jettender extends the yacht's versatility for shore runs and spontaneous exploration. The Pershing 7X is ultimately as much about feeling and design as it is about velocity—a driving sensation that

remains fresh with every outing—and trades are welcomed with in-house financing available.

## Electronics & navigation

---

Every voyage is conducted with absolute assurance thanks to a seamlessly integrated electronics suite that combines radar, chartplotter, GPS, and echo sounder with a comprehensive monitoring system, all presented on a pair of 12-inch multifunction touch displays. The autopilot is built into the navigation architecture for effortless course keeping, while a bow thruster operated via an intuitive joystick turns close-quarters maneuvering into a simple, precise affair. Electronic engine throttles and trim controls deliver pinpoint responsiveness, and a dedicated engine-room camera streams live imagery to the helm display for instant visual oversight. Technical reliability is reinforced by the onboard OBD diagnostic system, communications are handled by a dependable VHF radio, and offshore high-speed connectivity is provided by the Starlink marine internet system.

## Cockpit & aft deck

---

A teak cockpit table mounted on a fixed support becomes the focal point of the area, creating a sophisticated gathering space. The aft seating area presents a generous sofa with integrated storage lockers for practical concealment of gear, while streamlined fiberglass cockpit cabinets incorporate a sink supplied with fresh water to simplify onboard entertaining. LED ceiling lighting softly illuminates the cockpit with a welcoming glow, and four waterproof speakers—each fitted with independent volume control—allow bespoke audio settings. The whole composition is finished in crisp white vinyl upholstery, delivering a pristine, modern appearance.

## Aft sunbathing area & garage

---

A generously proportioned aft sunpad, upholstered in immaculate white vinyl, invites unhurried relaxation, its edge framed by polished stainless-steel handrails that offer reassuring security. A discreet access hatch opens directly into the garage, where a hydraulically operated hatch rises with effortless precision to reveal a neatly arranged bay, softly lit by integrated LED lighting and fitted with a convenient freshwater outlet.

## Swim platform

---

A teak-clad hydraulic swim platform unfolds to serve as an elegant, multifunctional waterside terrace, complemented by a hydraulic hideaway swim ladder fitted with an integrated alarm system to ensure safe, effortless boarding. Movement is secured by stainless steel gates on both port and starboard, and an external mixer shower supplies hot-and-cold rinses for comfort after a swim. Shoreside services are handled through a 100A shore power connection and a dedicated shore water inlet system, while discreet courtesy lighting washes the steps and platform in a refined evening glow.

## Side decks

---

Recessed LED floor lighting outlines the side decks, creating an elegant nocturnal pathway, while mirror-polished stainless-steel handrails with integrated safety attachment points deliver a sure, reassuring grip when the yacht is underway. Amidships, two stainless-steel mooring cleats provide dependable berthing security, and clearly positioned deck fills for fuel, water and waste combine practicality with refined detailing. Pershing's illuminated signature logos adorn both flanks to proclaim the pedigree, and a heavy-duty steel rub rail provides protective reinforcement to the hull during dockside

maneuvers.

## Bow area

---

On the foredeck an expansive bow sunpad upholstered in resilient vinyl beckons for leisurely lounging, with integrated storage compartments discreetly located beneath to keep essentials close at hand. Beside it, a GRP chaise lounge provides an additional retreat for relaxation, while subtle LED illumination and strategically positioned cup holders maintain comfort as daylight gives way to evening. Practicality is preserved with two dedicated life raft storage lockers, and side access doors fitted with a secure locking system ensure confident, seamless movement around the deck.

## Bow mooring station

---

A powerful 2700W windlass, operated from a waterproof control, is matched to a 50kg Bruce galvanized anchor and 75m of 12mm galvanized chain, all routed neatly through a purpose-built bow anchor fitting that features an integrated chain wash system to ensure smooth, dependable deployment and retrieval. A freshwater washdown and foredeck shower simplify rinsing gear and ground tackle, while the antiskid deck surface guarantees confident footing in any condition. Two stainless steel bow cleats deliver rock solid mooring, and subtle courtesy LED lighting provides clear, refined illumination for safe operation well into the night.

## Helm station

---

Assume command from a helm where cutting edge systems are paired with artisanal finishes; carbon look dashboard panels introduce a contemporary edge, while a finely crafted leather steering wheel and sumptuous Poltrona

Frau leather seats for both pilot and co-pilot ensure an exceptional tactile experience. At the center of the console, dual twelve-inch multifunction navigation displays provide crisp situational awareness, supported by an integrated autopilot and alarm system and a comprehensive engine data and diagnostics readout for full operational oversight. Precision handling is effortless thanks to joystick controls for the bow thruster and trim tabs, and comfort and visibility are enhanced by an electrically operated sliding glass roof, power side windows to port and starboard, and a tempered glass windshield equipped with wipers and washers.

## Salon

---

Expansive panoramic side windows flood the salon with natural light, while an aft sliding glass door in black aluminum creates an effortless connection to the deck beyond. A versatile folding dining table with high/low adjustment converts smoothly from relaxed day seating to a refined dinner arrangement, accompanied by a tailored fabric sofa with integrated storage drawers and a forward chaise lounge that invites lingering comfort. Audio enjoyment is delivered through a Hi-Fi system with subwoofer and four speakers, and the mood is refined by discreet LED ceiling lighting over parquet flooring that runs continuously throughout the salon. Convenience is managed via an electric soft-touch control system, and onboard climate is precisely maintained by a digitally controlled air conditioning system.

## Galley

---

A refined culinary space crafted for life at sea, the galley features a four-burner ceramic glass cooktop paired with an electric oven and an efficient extractor hood, all laid out beneath seamless Corian countertops. A polished stainless steel sink fitted with a mixer faucet sits alongside generous refrigeration and

storage cabinets, while a dishwasher with ten place settings ensures service is effortless. Discreet LED lighting tucked under the cabinetry enhances both task visibility and atmosphere, and an opening stainless steel porthole admits invigorating sea breezes to complete this elegant onboard kitchen.

## Master suite

---

The full-beam master cabin is an elegant sanctuary, anchored by a spacious double bed topped with a leather headboard and flanked by integrated storage and wardrobes. A discreet vanity and a sophisticated TV entertainment system enhance both morning routines and moments of repose, while two large side windows bathe the cabin in natural light. An onboard safe provides secure storage for valuables, and evening comfort is assured by individual reading lights alongside soft ambient LED illumination. The private en-suite bathroom completes the suite with high-end finishes for a truly indulgent experience.

## Master ensuite

---

Conceived as a private sanctuary, the master ensuite is finished in elegant marble-style surfaces and fitted with contemporary conveniences that elevate everyday living. A double washbasin set into a vanity with integrated storage offers abundant space for preparation and organization, while a Corian shower framed by a glass enclosure provides a polished, wellness-inspired retreat. Comfort is assured by an electric toilet with bidet function and warm, heated towel rails, and the space is softly illuminated by LED lighting and a thoughtfully positioned mirror that enhance both clarity and atmosphere. Opening portholes complete the suite by welcoming refreshing sea breezes and natural daylight.

## VIP suite

---

Meticulously designed for leisurely comfort, the VIP suite features a generous double bed with convenient storage beneath and a fully private en-suite bathroom. Subtle LED ambient lighting together with individual reading lamps create an intimate atmosphere, while a spacious wardrobe with mirrored doors provides refined and plentiful dressing storage. Opening portholes welcome natural daylight and gentle sea breezes, and a highly efficient air conditioning system maintains an ideal climate throughout the suite.

## Guest suite

---

Designed with refined comfort and versatility in mind, the guest suite presents twin single beds that can be converted to suit different sleeping arrangements, with practical storage neatly integrated beneath the berths. A private en-suite bathroom adds a layer of convenience, while subtle LED ambient lighting together with dedicated reading lamps creates both atmosphere and precise task illumination. Personal effects are kept orderly in a wardrobe and mirrored storage, and the air conditioning system maintains a consistently comfortable temperature throughout the space.

## VIP / guest ensuites

---

Finished to the highest standards, the VIP and guest ensuites marry functional design with refined aesthetics; electric toilets provide effortless operation, while Corian sinks and countertops introduce a durable, elegant surface. Glass shower enclosures elevate the bathing routine, and carefully positioned LED lighting delivers efficient, welcoming illumination. Mirrors and storage cabinets are thoughtfully laid out to maximize space and usability, and premium fixtures throughout reinforce the suites' sophisticated atmosphere.

## Captain's cabin

---

Created for the professional at the helm, the captain's cabin is an elegant private retreat centered on a single berth with integrated storage. A private en-suite bathroom and a high-efficiency air conditioning system provide discreet, personalized climate control, while a dedicated wardrobe and generous storage compartments keep uniforms and essentials impeccably organized. Contemporary LED lighting fills the space with bright, energy-conscious illumination, ensuring effortless comfort both day and night.

## Engine room

---

At the yacht's core, twin MAN V12 1800 MHP engines mated to a surface drive propulsion system deliver thrilling performance with refined efficiency, all installed within a fully insulated, soundproof engine room that preserves onboard serenity. Precision handling is provided by hydraulic steering and trim systems, while dedicated hydraulic circuits operate the platform, garage and gangway for effortless deployment. Dependable onboard power and guest comforts are supported by two generators rated at 21.5 kW, and a full suite of engine monitoring cameras affords complete oversight of every parameter. Thoughtful service features, including a freshwater outlet and dedicated service access, simplify maintenance and day-to-day operation, combining power, convenience and quiet in one meticulously engineered space.

## Propulsion & performance

---

Designed to deliver thrilling performance without sacrificing composure, the yacht is propelled by twin surface-drive systems with trim control that transform engine output into immediate acceleration and commanding speed. A robust hydraulic steering system offers refined feedback and assured

handling, while hydraulic trim tabs permit precise adjustment of the running attitude to maximize efficiency and onboard comfort as sea conditions shift. Close-quarters handling is made effortless by a 250 Kgf bow thruster, providing decisive lateral authority in marinas and confined passages. Beneath these systems, a high-performance hull form has been engineered to harmonize rapid transit with resolute stability, ensuring a poised and secure ride at all times.

## Electrical system

---

The yacht's electrical system is crafted for dependable performance and effortless operation, built around two lithium service batteries and a set of engine-start batteries arranged in a 4+4 configuration, with a separate battery bank dedicated to the generator. Shore power is supplied via a 100 amp inlet that feeds a 25 kVA isolation transformer, delivering clean, protected power throughout the vessel. Advanced battery chargers intelligently manage charging for both the engines and the service circuits, while a 120 volt AC distribution network provides outlets throughout the yacht. Central oversight and control are consolidated at the main electrical panel in the engine room.

## Equipment and safety gear

---

Equipped to inspire confidence on every passage, this yacht comes complete with mooring lines and fenders, twelve life jackets and two life rafts for six persons, while a floating buoy fitted with safety hooks and a telescopic boat hook allow swift recovery and precise berthing. A compact weather station—incorporating a clock, barometer and thermometer—provides immediate condition readouts, and a comprehensive emergency and safety equipment package offers additional reassurance. For convenient consultation, the full onboard manual is provided in digital form on an iPad.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
