OVERVIEW

Completed in Turkey for the 2027 season, this 71-foot motor catamaran combines the presence and refinement of a high-end motor yacht with the expansive stability and living space inherent to a twin-hull platform. An impressive 32-foot beam creates villa-like interior volumes, generous exterior decks and exceptional calm when at anchor, while the all aluminum hull and deck convey structural strength, precision workmanship and a timeless, lightweight elegance prized in aluminum construction. Propulsion comes from twin Volvo Penta engines, which provide efficient, assured performance with minimal vibration, responsive handling and confident control in confined spaces. With in excess of 4,200 gallons of fuel and more than 1,050 gallons of freshwater aboard, she is specified for long-range passages and extended periods of independent cruising. Inside, a sweeping main salon filled with natural light through extensive glazing unites lounge, dining and an open-plan galley, each flowing effortlessly aft to a capacious cockpit designed for refined entertaining. Forward, broad walkways give access to sunlit terraces, and above an elevated sky lounge affords panoramic vistas for leisurely afternoons and starlit evenings. The accommodation layout emphasizes privacy and tranquility, featuring roomy staterooms with en-suite baths distributed throughout both hulls, abundant storage for long-haul comfort and a calm, contemporary palette ready for personal customization. Practical details are married to refined finish throughout, from the durable aluminum decking underfoot to systems engineered for reliability, efficiency and quiet operation. Delivered new in 2027 and lying in Turkey, this exceptional motor catamaran presents a rare opportunity to own ocean-capable stability, efficient twin-hull seakeeping and superyacht-quality living within a 71-foot envelope, powered by trusted Volvo Penta performance and offering an elegant, forward-looking platform for uncompromised adventurous cruising.

DETAILED DESCRIPTION

BC 70

The Bering BC70 presents a refined take on the cruising catamaran, pairing a 21.9 metre (70') all aluminum hull with genuine ocean going capability, expansive interior volume and a contemporary design language. Her generous 10 metre beam and 86 ton displacement provide exceptional stability and a level of comfort suited to long passages. Propelled by twin Volvo Penta engines of 625 HP apiece, she reaches a top speed of 13 knots while offering a transoceanic range in excess of 3,000 nautical miles when sailed at an economical 8 knot pace.

A raised foredeck permits a true full beam Master Stateroom that occupies the vessel's entire 10 metre width, bathing the space in light from broad side windows and appointed with a king size berth, a comfortable lounge, a walk in wardrobe and a sumptuous ensuite featuring double vanities. The layout further includes a generous VIP suite with its own walk in dressing area and versatile guest cabins that can be arranged as a double or twin singles, each with dedicated ensuite heads. The main deck is anchored by a luminous salon surrounded by large glazing and outfitted with an inviting L shaped sofa and a dining lounge, while an open plan galley with a breakfast bar completes the social heart of the yacht. Accommodating crew discreetly on the port aft lower deck, the vessel provides a two person cabin, a separate crew mess and laundry facilities that remain practical yet separate from guest areas. A shallow draft enables close in mooring in secluded bays, and the generous roof area is perfect for high efficiency solar panel integration to sustain extended periods away from harbour infrastructure.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
