AZIMUT S7 MY 2024 — FACTORY DIRECT LISTING

ON DISPLAY AT FORT LAUDERDALE INTERNATIONAL BOAT SHOW 2025

PIER 66 — DOCK C

OCTOBER 29 – NOVEMBER 2, 2025

Imagined to lead the sport yacht category, the S7 redefines what a performance motor yacht can be by fusing forward thinking technology with sumptuous comfort. Agile and precise, she offers a hushed, refined ride with exceptional efficiency; her advanced engineering sets a new standard for reduced fuel consumption and restrained acoustics. The main deck is conceived as a continuous living plane from salon to cockpit, allowing life aboard to move effortlessly between interior sanctuary and open sea—fluid, expansive, and serene. An eco sport philosophy runs through the design: extensive carbon fiber construction, a triple VOLVO PENTA IPS pod drive setup, and a finely tuned planing hull work in concert to produce high performance while cutting fuel use and emissions by roughly 20–30% compared with conventional shaft drives, all the while keeping noise low and cruising behavior crisp and assured.

Her lithe, athletic silhouette proclaims express cruiser DNA, accentuated by a sweeping band of glazing that travels the length of the superstructure and by sculpted cut out bulwarks that usher daylight into the interior. The carbon enhanced superstructure increases internal volume and headroom without compromising stability, delivering the composed balance expected of a luxury motor yacht. Within, the lounge is cool and contemporary, bathed in light from broad side windows. Yachtique's interior language pairs modern geometry with a refined matte neutral palette—inviting yet sophisticated—where lyrical tactile finishes and uncluttered circulation reinforce continuity and echo the model's sporty temperament.

The S7 answers the demands of today's progressive owners—those who prize pace, safety, and signature style while remaining attentive to sustainability—whether for weekend escapes, coastal voyages, or making an unmistakable impression as a premium sport yacht and express performance cruiser.

# DETAILED DESCRIPTION

---

## Description

---

Azimut S7 MY 2024 — a factory listing that will be exhibited at the Fort Lauderdale International Boat Show 2025 at Pier 66, Dock C, from October 29 to November 2, 2025 — is shaped by an ambitious technological calling to be the most forward facing sport yacht in her category, a paradigm of peak performance and luxurious leisure that marries razor agility and precision with the lowest fuel consumption possible for her class and an unusually quiet allure; the main deck creates a fluid continuum between indoor and outdoor zones so guests can instinctively savor their time and space at sea in complete and harmonious freedom, while an eco sporty nature expressed through extensive use of carbon fiber, a triple VOLVO IPS engine configuration and a high efficiency hull encapsulates the brand's revolutionary eco sport philosophy, delivering maximum performance with a fuel consumption and emissions reduction of between twenty percent and thirty percent compared to traditional propulsion systems, all while ensuring maximum silence and a sharp, dynamic cruise; her sporty character is underlined by a sleek profile and the arched line of extensive glazing that runs seamlessly along the superstructure to flood the interiors with natural light, and the carbon fiber enhanced superstructure unlocks more generous volumes while maintaining excellent performance and stability; inside, the lounge is cool, modern and beautifully organized, bathed in light from large side windows and realized through Yachtique's original design concepts that translate a deep knowledge of life at sea into a dynamic and distinctive interior scheme where a neutral palette of matte finished colors feels cozy and chic against sleek contemporary furnishings, surfaces and spaces are composed to minimize obstacles and enhance continuity, expressing the series' sporty DNA

throughout, and the S7 appears as the dream boat for contemporary owners who are dynamic and sporty, who love cruising in grand style and absolute safety and who also keep a close eye on sustainability.

## Packages

---

The Advance package elevates life on board with a cockpit table crowned by a carbon finishing top and a decor upgrade that refines every surface while practical enhancements such as electric mooring winches in the cockpit, extra conduits for future integrations and a hauling launching system for the tender bring tangible convenience; entertaining becomes effortless thanks to an icemaker integrated into the cockpit furniture and an upgrade to Miele appliances for the oven and cooktop, while a washer and a dryer in two separate units add home from home comfort, and predisposition for a watermaker preserves long range autonomy as a clear priority.

## Main system

---

Confidence at sea comes standard with an additional motorized shore power cord reel that complements the primary motorized shore power cord reel, a cockpit docking station for fingertip control and the Seakeeper 18 stabilizer that quells roll both at rest and underway; a proportional bow thruster adds precise low speed authority and the watermaker delivers 34 gal/h (130 l/h) to extend your independence far from shore.

## Exterior

---

The exterior specification is curated for sun chasing days and luminous nights with additional waterproof sockets placing power exactly where you need it — one outlet in the cockpit and one on the flybridge — and an aft fly sofa paired

with a carbon finished table in Batyline fabric beneath an automatic flybridge bimini and an automatic cockpit awning; a dedicated co-pilot seat crowns the fly helm, a flagpole flies your colors, and bespoke flybridge furniture integrates a barbecue, refrigerator and icemaker to make hosting effortless, while a hauling-launching system for the jetski and two hidden lights under the bow bench simplify operations and set a subtle mood; the Lighting Luxury Package for exterior combines with manoeuvring lights on the bow, painted antennas and accessories on the radar arch and two high-gloss black painted domes — with the caveat that painting may reduce or alter the performance of the products involved and that limits on paint options may apply, for example metallic paints are not allowed and tints that limit heating are preferred — and a painted boot stripe complements the painted hull as spreader lights on the aft fly extend the day; on the foredeck sunbathing cushions in Batyline fabric with a foldable backrest and table invite lingering beside a stainless steel anchor, and after dark underwater lights — three on the transom and one on each side — create a halo while upgraded external cushions in Batyline fabric replace the standard simil leather and a watertight hand control for the anchor winch adds confidence at the push of a button.

## Interior

---

Life inside is tailored with purposeful detail: in the crew cabin additional hanging cabinets provide valuable stowage while expressly excluding the standard foldable bed, an additional socket — one in the salon — keeps devices charged and a co-pilot seat at the main helm shares the view; a domotic lighting system in the salon sets the mood at a touch, the galley gleams with a Quartzite Statuario countertop and the Lighting Luxury Package for interior (salon and master cabin; details available on dealer web lounge) elevates ambience throughout; in the master head additional storage is available although not when the bidet is specified, and the master cabin itself

gains a roller blind plus a decorable fabric curtain in lieu of the standard Venetian curtain, a safe for peace of mind and a single drawer furniture piece with a settee in place of the standard double settee; daily rituals are refined with a complete set of cooking pans, a set of linens for all guest spaces (crew cabin excluded) plus a separate set of linens for the crew cabin and a set of towels for one person embroidered with the Azimut logo, while underfoot a wooden floor in the salon and helm area with Dove oak finishing continues down the stairs to the lower deck and into the lower lobby where the same Dove oak finishing provides a warm, contemporary flow.

## Appliances

---

Everyday luxury is effortless with an additional refrigerator under the stairs on the lower deck, a cockpit barbecue for open air dining and a dedicated refrigerator serving the cockpit furniture below the stairs to the flybridge deck, while a salon winecooler keeps vintages at the perfect temperature and ready for any occasion.

## Electronics

---

Navigation and awareness are heightened by Garmin AIS with the Garmin Platinum Package and three Garmin videocameras that keep a watchful eye around the yacht, while the video, TV and hi fi suite centers on a hi low TV system in the salon and one empty dome stands ready for future equipment; for peace of mind an additional set of zincs is included among the spare parts.

## Extras

---

Long range autonomy and immersive entertainment come together with a second spare generator MARINE MASE 24.6K (24 kW, 60 Hz) installed and a JL

Classic Sound System with remote control for each zone that places two speakers on the bow, four on the fly, four in the cockpit, two in the salon and one subwoofer, while the TV system extends from the salon — one 55" LG LED TV, one Bose subwoofer and one Bose interior diffuser — to the master cabin with one 43" LG LED TV, one Bose subwoofer and one Bose interior diffuser; a custom freezer concealed inside the cockpit sofa adds hidden capacity, BESANA SNOW 19 carpet in the cabins sets a soft contemporary tone, the hull, gunwale and lateral handrails are custom painted in GRIGIO SAVOIA echoed by a painted ceiling in the cockpit in the same GRIGIO SAVOIA and the master cabin is finished with a custom Roman shade curtain.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
