OVERVIEW

The all-new Galeon 680 FLY joins the marque's fourth-generation lineup, introducing a collection of innovations that elevate luxury motor yachting. Constructed around a lightweight architecture that employs carbon fibre, this elegantly muscular flybridge cruiser promises poised performance and nimble handling while delivering unexpectedly generous interior volume and a bright, inviting atmosphere finished to a highly configurable, upscale standard. The main salon enhances the connection to the elements with four powered panoramic windows, a wide cockpit door, an opening sunroof and a skipper's side exit, creating a seamless indoor-outdoor flow that unites guests with sea and sky. Combining a time-honoured hull form with Galeon's new Floating Design interior and additional refinements, the 680 FLY presents an artisan's composition of soft curves and layered textures where matte and high gloss woods echo the movement of the waves. Boasting the largest flybridge in its class, the yacht features a Smart Layout complete with a full bar and ample lounging to accommodate roughly a dozen guests, while the foredeck may be specified either with versatile powered sofas and convertible tables or as a traditional sun deck centred on an oversized settee. The Galeon 680 Flybridge therefore marries timeless elegance with contemporary thinking, embodying fine craftsmanship and effortless cruising comfort.
