DETAILED DESCRIPTION

Accommodations

This luxurious yacht offers exquisite accommodations designed to provide comfort and privacy for all guests on board. It features three beautifully appointed guest cabins, each with its own unique charm and en-suite facilities. The master stateroom is a full-beam amidships sanctuary, offering ample space and privacy, complete with its own en-suite facilities for the ultimate in luxury. The VIP cabin, located in the forward position, also boasts en-suite amenities, ensuring a comfortable and private retreat for guests. Additionally, the guest cabin on the port side is equipped with twin beds and en-suite facilities, making it perfect for accommodating additional guests with ease. For the crew, the yacht provides well-thought-out quarters that can accommodate up to two crew members. These quarters include a bunk and a head, ensuring that the crew can perform their duties efficiently while also having a comfortable space to rest. This thoughtful design ensures that both guests and crew can enjoy their time on board with all the necessary amenities at their disposal.

Machinery

The yacht is powered by a robust and efficient machinery setup, featuring two MTU 12 V 2000 M93 engines. These engines are designed with a 12-cylinder V configuration, providing a powerful output of 1823 mhp (1340 kW) each. Operating at 2450 rpm, they ensure optimal performance and reliability. The engines have been meticulously maintained and have logged 1,150 hours of operation, reflecting their excellent condition and readiness for continued use. Complementing the engines is the ASD 14L Arneson Surface Drive

transmission system, which enhances the yacht's performance by providing superior handling and speed capabilities. This combination of advanced engineering and precision craftsmanship ensures that the yacht delivers an exceptional cruising experience, characterized by power, efficiency, and smooth operation.

Generators & auxiliary systems

The yacht is equipped with a comprehensive set of generators and auxiliary systems to ensure seamless operation and comfort on board. It features a Kohler 27 EFOZD generator, which has been reliably serving with 7,000 hours of operation, alongside a FISCHER PANDA generator with a significantly lower usage of 800 hours. These generators provide a combined power output of 20 kW and 10.2 kW, respectively, operating at a voltage of 230 V in a single-phase configuration and a frequency of 50 Hz.

To support the electrical systems, the yacht is fitted with two battery chargers. One charger operates at 180 Ah with a 12 V output, while the other provides 100 Ah at 12 V. This setup ensures that all electrical needs are met efficiently, maintaining the yacht's systems in optimal condition and providing a reliable power supply for all onboard amenities.

Ancillary equipment

The yacht is equipped with a comprehensive array of ancillary equipment designed to enhance safety, convenience, and maneuverability. It features a total of five bilge pumps strategically located throughout the vessel: two in the engine room, one in the owner's corridor, another in the owner's bathroom, and one in the crew cabin. This setup ensures efficient water management and safety across all key areas of the yacht.

In addition to the bilge pumps, the yacht is fitted with a sea water pump and a

fresh water maker, providing essential resources for extended voyages and ensuring a continuous supply of fresh water on board. For enhanced maneuverability, the yacht is equipped with both a bow thruster and a stern thruster, allowing for precise control and ease of handling in various docking and navigation scenarios. This combination of equipment ensures that the yacht is well-prepared for a wide range of maritime conditions, offering both comfort and peace of mind to its occupants.

Safety and security equipment

The yacht is equipped with essential safety and security equipment to ensure the well-being of all on board. It includes an Emergency Position Indicating Radio Beacon (EPIRB), which is crucial for alerting rescue services in the event of an emergency at sea. Additionally, the yacht is stocked with lifejackets, providing personal flotation devices for all passengers and crew, ensuring safety in case of an unexpected situation.

Furthermore, the yacht is equipped with a liferaft, offering a reliable means of evacuation if necessary. This comprehensive safety setup is designed to provide peace of mind, allowing everyone on board to enjoy their time at sea with confidence, knowing that all necessary precautions have been taken to ensure their safety.

Communication equipment

The yacht is equipped with essential communication equipment to ensure reliable connectivity and safety at sea. It features a VHF radio, a critical tool for maintaining communication with other vessels and maritime authorities. This radio system is vital for coordinating navigation, receiving weather updates, and ensuring swift communication in case of emergencies. The presence of a VHF radio on board underscores the yacht's commitment to safety and

operational efficiency, providing peace of mind to all who embark on its journeys.

Navigation equipment

The yacht is outfitted with advanced Furuno navigation equipment, ensuring precise and reliable guidance on the open seas. This sophisticated system includes a GPS for accurate positioning, a chartplotter for detailed mapping and route planning, and a radar for detecting other vessels and obstacles, even in low visibility conditions. Together, these tools provide comprehensive navigational support, enhancing safety and efficiency during voyages. The integration of Furuno's cutting-edge technology underscores the yacht's commitment to delivering a superior maritime experience, allowing for confident and informed navigation in all conditions.

Deck equipment

The yacht boasts an impressive array of deck equipment designed to enhance both relaxation and functionality. On the aft deck, you'll find a double sun bed perfectly positioned above the aft garage, providing a luxurious spot for sunbathing. Adjacent to this is a large L-shaped lounge to starboard, complete with a teak table, ideal for alfresco dining or enjoying a sunset cocktail. A barbecue station adds to the outdoor entertainment options, making it perfect for hosting gatherings.

In the cockpit area, comfort is paramount with plush cockpit cushions, a convenient cockpit shower, and a teak cockpit table, all set against the backdrop of a beautifully crafted teak cockpit. Moving to the foredeck, a spacious anchor locker with a molded step ensures easy access and efficient anchor management.

The yacht's garage is versatile, capable of housing a tender or a jet ski,

providing additional recreational opportunities. A hydraulic gangway offers easy boarding, while the teak sidedecks add a touch of elegance and ensure safe passage around the yacht. This comprehensive deck setup is designed to offer the ultimate in luxury and convenience, making every moment on board a pleasure.

Audio / visual entertainment

The yacht is equipped with a state-of-the-art audio and visual entertainment system, ensuring that every moment on board is filled with enjoyment and relaxation. At the heart of this setup is the Deunon sound system, which delivers crystal-clear audio quality, allowing you to enjoy your favorite music with exceptional clarity and depth. Whether you're hosting a lively gathering or enjoying a quiet evening, the sound system provides the perfect auditory backdrop.

Complementing the audio experience are Samsung TVs, strategically placed throughout the yacht to offer high-definition viewing pleasure. These TVs ensure that you can enjoy movies, shows, or any visual content with stunning picture quality, making every viewing experience immersive and engaging. Together, the Deunon sound system and Samsung TVs create a comprehensive entertainment environment, enhancing the luxury and comfort of your time on board.

Galley & domestic equipment

The yacht is equipped with a fully functional galley and domestic equipment, ensuring that all culinary and household needs are met with ease and efficiency. At the heart of the galley is a spacious refrigerator, providing ample storage for fresh ingredients and beverages, essential for extended voyages. Complementing this is a high-quality oven, perfect for preparing gourmet

meals, and a microwave oven, offering quick and convenient cooking options for those on the go.

In addition to the cooking appliances, the yacht also features a washing machine, ensuring that laundry can be managed effortlessly during your time on board. This comprehensive setup of galley and domestic equipment is designed to provide all the comforts of home, allowing you to enjoy a seamless and luxurious experience while at sea.

Tender and watersport equipment

The yacht is equipped with an impressive array of tender and watersport equipment, ensuring endless fun and adventure on the water. Central to this setup is a 3.20-meter Williams tender, providing a reliable and efficient means of transport to and from the yacht, as well as the perfect vessel for exploring nearby coves and beaches. For those seeking a bit more excitement, the yacht includes a banana boat designed for four people, offering thrilling rides and unforgettable experiences for family and friends.

Additionally, the yacht is equipped with two paddleboards, allowing guests to enjoy a more tranquil and leisurely exploration of the surrounding waters. Whether you're in the mood for high-energy water sports or a peaceful paddle, this comprehensive selection of equipment ensures that every preference is catered to, enhancing the overall enjoyment of your time at sea.

November 2023-2024 maintenance

The yacht has undergone an extensive maintenance program for the 2023-2024 period, ensuring it remains in peak condition for the upcoming season. A complete painting refresh has been carried out, revitalizing the yacht's exterior. The electrical systems have been meticulously maintained and repaired, ensuring all components function flawlessly. The hydraulic system

has received comprehensive attention, including pipe replacements, tank maintenance, and oil fillings, to guarantee optimal performance.

The Arneson system has been thoroughly serviced, with complete maintenance and oil changes performed. The rudder pump has also been maintained and repaired, ensuring precise steering capabilities. The main engines have undergone oil changes and maintenance, keeping them in top operational condition. Both the fuel and wastewater tanks have been opened and thoroughly cleaned, with all odor filters inside the boat replaced to maintain a fresh onboard environment.

Additionally, the tender has received a full refit, as has the passarella, ensuring both are in excellent working order. The foreside windlass was removed for maintenance and repair, ensuring reliable anchoring operations. The only remaining tasks are the repair of the non-working water maker and rudder indicator, which are scheduled to be completed this winter. This comprehensive maintenance program underscores the yacht's commitment to excellence and readiness for the season ahead.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts.
