DETAILED DESCRIPTION

Forward & Aft Decks

The forward and aft decks of this yacht exemplify luxury and practicality, boasting FRP side and foredecks that combine durability with style. Robust stainless steel handrails with 1 ¼" stanchions ensure safety and elegance, while the FRP cap rail adds a sophisticated touch. The forward deck features a sunpad with drink holders, storage lockers, and pop-up LED lighting, creating an ideal relaxation spot. Forward seating, paired with a Corian table, offers a welcoming area for social gatherings. A custom bow sunshade, supported by stainless steel fittings and poles, provides ample shade over the seating area. For entertainment, the forward deck is fitted with two JL Audio speakers and an amplifier, delivering high-quality sound. Anchoring is simplified with a Maxwell VWC3500C vertical hydraulic anchor winch, a 300' Acco anchor chain, and a 70kg stainless steel anchor. The manual fresh and sea water anchor chain washdown system ensures easy upkeep. Stainless steel portholes with screens and frameless tinted Low-E tempered glass windows enhance the yacht's sleek look.

The aft deck is equally remarkable, featuring a wired remote control with an outlet for managing engines and thrusters. Side boarding gates on both port and starboard sides provide easy access. The teak aft deck, swim platform, and stair steps exude elegance, while the dinette aft seating with a sliding teak high gloss table offers a perfect dining area. An extended 18" flybridge deck with a manual roll-down screen adds versatility to the yacht.

The main salon is accessible through a stainless steel manual foldable sliding door, and a manual fold-down 43" TV with a hydraulic damper provides entertainment options. The aft deck is equipped with JL Audio speakers and a marine system, ensuring a premium audio experience. Comfortable stairs with

stainless steel handrails lead from the aft deck to the boat deck, and a watertight door offers access to the crew quarters and engine room.

The swim platform is a center of activity, featuring a built-in hot/cold water shower and a hydraulic Hi/Lo teak swim platform with a 1500lb load capacity. Eight heavy-duty stainless steel cleats, including two on the corners of the swim step with fairlead and rollers, ensure secure mooring. The transom is adorned with four blue underwater lights, creating a stunning visual effect, and the LED boat name on the stern adds a personalized touch. A manual stainless steel swim ladder completes the array of features, making the forward and aft decks a perfect blend of luxury and functionality.

Skylounge & Boatdeck

The skylounge and boatdeck of this yacht seamlessly combine opulence and practicality, crafted to elevate your cruising adventures. The integrated instrument panel features a comprehensive array of engine gauges, a compass, and the C-Zone System, which keeps track of vital systems like fuel and water levels, generators, navigation lights, bilge, sump pumps, and engine room blowers. This setup ensures you maintain full control and oversight of the yacht's operations. The helm is equipped with two STIDD helm chairs, offering both comfort and elegance for the captain and co-pilot.

Inside the skylounge, a day head adds convenience, while a U-shaped sofa paired with a custom convertible hi/lo satin table creates a welcoming area for relaxation and socializing. Entertainment is easily accessible with a manual fold-down 43" TV that lowers from the ceiling, featuring a hydraulic damper for smooth operation. Below the TV, half-height cabinets contain a fridge and icemaker, keeping refreshments readily available. A skylight on top of the skylounge allows natural light and fresh air to flow in, while the 60" stainless steel manual sliding glass panel windows provide sweeping views and a connection to the sea breeze.

Entry to the boat deck is through a stainless steel sliding door, leading to an FRP boat deck that is both robust and stylish. The custom U-shaped bar on the boat deck, complete with two barstools, a sink, and a 24" BBQ, is ideal for entertaining guests. A large sliding window to the bar enhances the open-air ambiance. For extra storage, a GE 7.0 cu chest freezer is neatly tucked within an FRP cabinet. The Steelhead ES1500 davit, with a 1500lb capacity, facilitates easy handling of tenders and water toys.

Safety and aesthetics are prioritized, with stainless steel removable rails encircling the flybridge boat deck. The FRP radar arch and up lights for the mast contribute to the yacht's sleek silhouette, while the custom grey paint dome adds a contemporary flair. This skylounge and boatdeck are meticulously designed to deliver an unmatched yachting experience, blending comfort, style, and functionality in every aspect.

Engine & Propulsion Details

The yacht's engine and propulsion system are crafted to offer outstanding performance and dependability. Central to this system are twin CAT C-18A engines, each delivering 1150 horsepower, ensuring robust and efficient cruising. These engines are complemented by two Onan generators, each with a 29kW capacity, and a 3kW inverter, supplying ample power for all onboard systems.

The propulsion setup includes stainless steel Aqua Tech #22 HS shafts and high-performance four-blade propellers, guaranteeing smooth and efficient navigation through the water. Main and intermediate bronze struts with backing plates add extra support and stability. An emergency steering device enhances safety, while the stainless steel rudder with zinc plates ensures precise control.

Equipped with Zipwake trim tabs with indicators, the yacht's stability and performance are significantly enhanced. The Hypro electronic command

steering system, complete with a backup pump, provides responsive and reliable handling. TIDES rudder and shaft seals offer additional protection and longevity.

For improved comfort and stability, the yacht features a Humphree stabilizer system, supported by two 100A chargers and eight 400A/6V service batteries. Side Power SH320/300 bow and stern thrusters, each with 23.3 horsepower, deliver superior maneuverability and docking ease.

The shore power system is robust, featuring a 100amp 75' cable master with a 50Amp receptacle at the stern, supported by 15KVA and 25KVA transformers. The engine exhaust system includes mufflers, and the generator benefits from an FRP water/exhaust separator. Stainless steel covers protect the engine exhaust pipes, and TRIDENT hoses are used for the exhaust system.

Sound and heat insulation materials are installed in the bulkheads and ceiling, ensuring a quiet and comfortable atmosphere. Stainless steel overhead grab rails on each side of the engine enhance safety and convenience. The engine compartment is equipped with both AC and DC blowers, and LED backlights illuminate the fuel sight gauge and fuel filters for easy monitoring. An air compressor is also included, adding to the comprehensive suite of features that make this yacht's engine and propulsion system both advanced and reliable.

Mechanical Systems

The yacht's mechanical systems are expertly crafted to guarantee peak performance and dependability. It boasts 1,200-gallon aluminum fuel tanks, equipped with sight gauges and self-closing control valves for secure and efficient fuel management. Each engine is safeguarded by dual Racor 75/1000 MA fuel filters and water separators, while the generator is fitted with a Racor 500MA fuel filter, ensuring a clean fuel supply and prolonged engine life.

An oil change pump system is installed for the engines, gears, and generator, simplifying maintenance and ensuring smooth operation. The Marine Air chilled water air conditioning system offers climate control for the salon and each cabin, providing comfort in any weather. Stainless steel water tanks and a high-capacity AC freshwater pressure pump, supported by a backup DC pump, ensure a consistent water supply.

The yacht is equipped with a Dometic SeaXchange and Spot Zero XZII 1800/2000Z water maker and purifier, providing fresh, purified water on demand. A freshwater charcoal filter in the main supply line further improves water quality. The freshwater system is built with marine-grade lines and color-coded piping for easy identification and maintenance.

A 30-gallon hot water heater and a hot water circulation pump ensure a continuous supply of hot water throughout the yacht. A freshwater hose is available for filling the engine and generator expansion tanks, while freshwater and seawater washdown faucets are conveniently located on the aft deck and flybridge.

Waste management is efficiently handled by a 120-gallon holding tank with a macerator pump and a Y-valve for dockside pump-out. Sump pump systems effectively manage overboard drains, and electric Rule bilge pumps, along with a manual bilge pump in the engine room, ensure efficient bilge management. A bilge exhaust ventilation fan maintains air quality and safety.

Safety is a top priority, with a Sea-Fire automatic/manual fire extinguisher system for the engine room, complete with a control panel at the helm station. An automatic fire damper system offers additional protection, ensuring peace of mind for everyone on board. These comprehensive mechanical systems are designed to provide a seamless and secure yachting experience.

Electrical Systems

The yacht's electrical systems are crafted to deliver flawless functionality and contemporary convenience, ensuring a comfortable and efficient experience on board. The entire vessel, both inside and out, is illuminated by a state-of-the-art LED lighting system, providing energy efficiency and a refined atmosphere. The Termodinamica air conditioning system, paired with the EX707 panel, guarantees optimal climate control throughout the yacht.

For added flexibility, dimmer switches are installed in the salon and skylounge, allowing you to adjust the lighting to match any mood or occasion. The yacht features a robust shore power system with both 100 amp and 50 amp connections, supported by 40 amp transformers to ensure a steady power supply.

Battery management is expertly handled by two 80A VICTRON SKYLLA-I battery chargers, one dedicated to the engine and generator start-up batteries and the other for service batteries, each equipped with a control panel for easy monitoring. The yacht is powered by four 210A AGM batteries for engine and generator start-up, along with an additional four 210A AGM batteries for the ship's service power. A 24-volt DC monitoring system oversees the electrical systems, ensuring smooth operation.

Safety is paramount, with GFI protection installed for all AC outlets in exterior areas, heads, the galley, and the engine room. The main electric panel is comprehensive, featuring both AC and DC circuit breakers for complete control. Italian VIMAR switches are used for lighting and receptacles, adding a touch of sophistication to the yacht's interior.

An electrolysis bonding system is in place to protect the yacht's metal components from corrosion. For improved visibility during docking, two stern docking lights are installed. The yacht is equipped with a KVH HD7 SAT system and five receivers, offering high-definition satellite television without the need

for a dummy dome. Additionally, a cellular router system with 5G Wi-Fi ensures you remain connected while on board, providing the latest in communication technology. These electrical systems are meticulously designed to enhance your yachting experience with reliability and elegance.

Interior Décor & Equipment

The yacht's interior décor and equipment are meticulously crafted to deliver unmatched luxury and comfort. Guest accommodations are thoughtfully arranged, featuring a full-beam master stateroom, a forward VIP cabin, and an additional guest cabin, each with ensuite facilities to ensure privacy and convenience. The crew is also well-provided for, with a dedicated bunk area complete with a head and shower.

The yacht showcases a bespoke luxury interior package that enhances the ambiance with exquisite soft furnishings, décor, and lighting. Entertaining is elevated with a complete set of glassware for eight, including wine, champagne, martini, double rock, and burgundy glasses, ensuring every occasion is catered to in style.

The primary wood used throughout the yacht is walnut with a satin finish, beautifully complemented by Mosia wood flooring, creating a warm and inviting atmosphere. All staterooms are fitted with luxurious Fabrica carpets, adding to the comfort and elegance of the living spaces. In the galley and all stateroom heads, Cambria quartz countertops and flooring provide a touch of sophistication and durability.

Practicality is not overlooked, with a stacked Electrolux washer and dryer conveniently located in the foyer hallway, making laundry tasks effortless. High-quality push buttons for cabinet doors add a touch of modernity and ease of use, ensuring that every detail of the yacht's interior is both functional and aesthetically pleasing. This yacht's interior décor and equipment are meticulously curated to offer a seamless blend of luxury, comfort, and

practicality.

Salon

The salon of this yacht seamlessly combines elegance with modern comfort, crafted to be both welcoming and practical. The area is graced with exquisite wood flooring that exudes warmth and sophistication. An L-shaped sofa, paired with a chic coffee table and a designer rug, is positioned to starboard, forming a cozy and stylish seating nook. On the port side, two loose chairs with an end table offer additional seating, ideal for unwinding or entertaining guests.

A custom wet bar elevates the salon's allure, featuring a sink, icemaker, and generous glassware storage, along with a bar top that conveniently serves the aft deck, making it perfect for hosting gatherings. The salon is fitted with upgraded electric blinds for both port and starboard windows, allowing for effortless control over natural light and privacy.

Entertainment is a key focus in the salon's design, with a 50" Frame TV offering a cinematic viewing experience. The Sonos entertainment system, Apple TV, and Direct TV provide a broad array of entertainment choices, catering to all tastes and making the salon a central hub for relaxation and enjoyment. This thoughtfully designed space merges luxury with functionality, offering an ideal retreat on the water.

Galley/Dinette

The galley and dinette area of this yacht are crafted with an emphasis on both elegance and practicality, creating a space that is as functional as it is stylish. The galley boasts a stunning Cambria quartz floor, offering a durable and sophisticated surface that is easy to care for. Extending from the galley into the dinette, the wood flooring adds warmth and a seamless flow to the area.

Outfitted with top-tier appliances, the galley includes a panel-ready Miele refrigerator and icemaker, ensuring your food and drinks are perfectly chilled. Cooking becomes a delight with the Jenn-Air cooktop and oven, providing precision and dependability for all your culinary pursuits. A GE trash compactor and garbage disposal enhance convenience, making clean-up a breeze.

For wine lovers, the Summit wine cooler offers the ideal conditions to store your collection, while the panel-ready Bosch dishwasher ensures all your dishware is impeccably clean with minimal effort. The "U" shaped kitchen dinette creates a cozy and welcoming space for meals, fostering conversation and connection.

At the center of the galley is a versatile island, equipped with a stainless steel sink and faucet, providing ample room for food preparation and serving. This thoughtfully designed galley and dinette area blend luxury with functionality, making it a perfect setting for both casual dining and entertaining on the water.

Master Stateroom

The master stateroom of this yacht is a haven of opulence and relaxation, crafted to offer a serene escape on the water. At its heart lies a king-size bed, featuring a hotel-inspired mattress and headboard, ensuring a peaceful night's rest. The stateroom includes his and her walk-in closets, both carpeted for extra comfort, providing generous space for clothing storage.

To starboard, a vanity with a chair offers a dedicated area for personal grooming and preparation, adding a touch of sophistication to the room. The expansive ensuite head is a standout feature, equipped with dual sinks, a luxurious rain shower, and a toilet, all designed to deliver the utmost in convenience and elegance.

Additional full-height storage ensures that all personal items can be neatly organized and easily accessed. For entertainment, a 43" Samsung TV is installed, paired with a Sonos Beam sound system, delivering high-quality audio and visual experiences. Direct TV is also available, offering a broad selection of viewing options to cater to all tastes.

This master stateroom is meticulously crafted to blend luxury, functionality, and comfort, making it an ideal private retreat on the yacht.

VIP Stateroom

The VIP stateroom on this yacht is a lavish sanctuary crafted to provide guests with unparalleled comfort and sophistication. At its center lies a queen-size bed, featuring an upgraded hotel-inspired mattress and headboard, ensuring a restful and refreshing sleep. The stateroom includes dual hanging lockers, offering generous space for clothing and personal items, allowing guests to keep their belongings organized and within easy reach.

The en suite head is a highlight, featuring an upgraded granite sink, a luxurious rain shower, and a toilet, all designed to offer a spa-like experience. This private bathroom ensures that guests have everything they need for comfort and convenience.

For entertainment, the stateroom is equipped with a 42" Samsung TV, paired with a Sonos Beam sound system, delivering high-quality audio and visual experiences. Direct TV is also available, providing a wide range of viewing options to cater to all tastes.

This VIP stateroom is meticulously designed to blend luxury, functionality, and comfort, making it an ideal retreat for guests seeking a premium yachting experience.

Guest Stateroom

The guest stateroom on this yacht is carefully crafted to provide both flexibility and comfort for its visitors. It includes two single berths, each fitted with foam mattresses and headboards, ensuring a peaceful night's sleep. The berths feature an optional sliding function, allowing them to be easily transformed into a double bed if needed, offering versatility to meet various guest requirements.

A hanging locker provides generous storage space for clothing and personal items, helping guests keep their belongings tidy and organized. The en suite head is tastefully designed with an upgraded granite sink, stylish shower walls, and a toilet, offering a private and comfortable bathroom experience.

For entertainment, the stateroom is equipped with a 24" Samsung TV and a Sonos Beam sound system, delivering high-quality audio and visual experiences. Direct TV is also available, providing a wide range of viewing options to cater to all tastes.

This guest stateroom seamlessly blends practicality with luxury, ensuring that guests enjoy a comfortable and pleasant stay on board.

Crew Quarters

The crew quarters on this yacht are meticulously crafted to offer both comfort and practicality for the crew. The custom-designed cabin includes two single berths, providing a cozy and private area for rest. In the crew galley, a GE microwave and a Vitrifrigo fridge ensure that essential kitchen facilities are readily available, making meal preparation both convenient and efficient.

The quarters are fitted with an electric toilet, sink, and shower, offering all necessary amenities for personal care and hygiene. Two USB reading lights in the cabin add extra convenience, allowing crew members to read or use

devices with ease.

Access to the crew quarters is through a watertight door on the transom, ensuring safety and security. An emergency seat on the aft deck with a ladder provides an additional entry or exit point if required. A hanging locker offers generous storage space for clothing and personal items, helping to keep the living area tidy and organized.

To maintain a comfortable environment, the crew quarters are equipped with an air conditioning unit, ensuring a pleasant temperature regardless of the weather outside. These well-equipped crew quarters are designed to meet the crew's needs, allowing them to perform their duties efficiently while enjoying a comfortable living space.

Navigation

The yacht's navigation system is outfitted with cutting-edge Garmin technology, providing precise and dependable guidance on the water. At the helm, the Garmin GPSMAP 9222 navigation system stands out, featuring three 22-inch screens that deliver clear and comprehensive navigational data. This advanced setup is enhanced by the Garmin open array GMR 1234 xHD3 radar, offering exceptional range and accuracy for detecting other vessels and obstacles.

For automated steering, the yacht is equipped with a Garmin Autopilot, allowing for effortless course adjustments and maintaining a steady heading. The Garmin AIS 800 and GPS improve situational awareness by providing real-time information on nearby vessels, while the dual Garmin VHF radios and card reader ensure robust communication capabilities.

The navigation suite also includes a Garmin black box sounder, delivering detailed sonar readings for safe navigation in various water conditions. The Garmin GMI 20 digital multi-display offers versatile data presentation, allowing

the captain to monitor essential information at a glance.

Safety and security are further enhanced with Garmin marine cameras strategically placed in the engine room and on the aft deck, providing visual monitoring of critical areas. The C-Zone Monitoring System integrates seamlessly with the navigation equipment, offering comprehensive oversight of the yacht's systems and ensuring optimal performance.

This sophisticated navigation setup combines cutting-edge technology with user-friendly interfaces, making it an indispensable tool for any yachting adventure.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
