## OVERVIEW

---

Presented in superb, near new condition, this 2023 Ferretti 780 has been under single ownership since delivery and has been used exclusively for private cruising, recording only 600 engine hours. Meticulously maintained to the manufacturer's service schedule with every routine completed on time, she remains immaculate both mechanically and in appearance. Finished to a comprehensive specification with a full complement of options, the yacht is fully turnkey and ready for immediate cruising. Combining timeless Italian craftsmanship with generous, luxurious living areas and confident performance, this planing flybridge yacht represents one of the most desirable Ferretti 780s currently available; early inspection is strongly recommended.

# DETAILED DESCRIPTION

## Specification - standard and optional extra

At 22.75 m overall with a 5.77 m beam and a gross tonnage of 67.25 GT, the yacht is registered under the flag of the United Kingdom (London); propulsion is provided by a pair of MAN V12 engines rated at 1550 HP / 1,140 kW each, currently recording 370 engine hours, while electrical generation is handled by an ONAN 19 kW generator with 1,750 hours. Manoeuvrability in tight quarters is assured by Sleipner bow and stern thrusters controlled via a Xenta system with four helm stations, and onboard comfort underway is enhanced by a Humphree 24V stabilization system together with Humphree trim tabs. Fresh water autonomy is supported by an Idromar watermaker producing 180 L/h and climate control is delivered through a Dometic chiller air conditioning installation. The navigation suite comprises two Simrad VHF units, a Simrad autopilot, one Simrad radar and five Simrad chart plotters, all monitored in concert with an MZ Electronic chain counter. Deck equipment for anchoring and mooring is robust, featuring two Lofrans windlasses (24V / 2300W) operating Ultra anchors of 60 kg and 45 kg on two 180 m, 12 mm anchor chains, with both starboard and port stern capstans to ensure precise handling alongside. Pumps and plumbing include a Gianneschi fresh water pump (24V / 220V), a Gianneschi fire pump (24V), a dedicated deck wash pump and an Ariston water heater. The galley and laundry are comprehensively specified with Miele washing machine and tumble dryer, Siemens dishwasher, Siemens oven and a Siemens glass ceramic electric hob served by an extractor hood, a flybridge grill, a Siemens double door refrigerator and freezer with ice maker, four Isotherm mini refrigerators and two Isotherm freezers. Guest entertainment and connectivity are provided by Samsung televisions in the saloon and master cabin, a Wi-Fi system and a Marantz audio setup, while the

electrical architecture comprises three Mastervolt battery chargers, two Mastervolt inverters and a Victron generator battery charger. Exterior relaxation is elevated by a double sunbed on the aft deck and ten carbon fibre poles that support flybridge bow and stern sunshades, further complemented by a windscreen sunshade and protective seat covers. Tankage is generous with capacities of 1,050 L for fresh water, 355 L for grey water, 355 L for black water and 5,140 L for fuel.

## Upgrades & extras

---

A series of recent enhancements has been carefully executed to heighten onboard luxury, connectivity and operational capability. The audio experience has been upgraded to a premium system with new speakers installed on the flybridge, bow and stern, while constant connectivity is assured by a new onboard Wi-Fi network supplemented by hardtop-mounted satellite internet. The freshwater installation has been overhauled with a Gianneschi 220 V pressure pump, an 8 L Agua Royal water purification unit, bespoke stainless steel watermaker trays and a stern freshwater quick-connect outlet. Anchoring and deck appointments have been strengthened with a matched set of 60 kg and 45 kg Ultra anchors coupled to twin 180 m anchor chains, and custom stainless steel fittings for the sunpad impart a refined, finished look on deck. Reliability and navigation clarity are guaranteed by all batteries being replaced under warranty in 2025, and the three Simrad lower-helm displays likewise replaced under warranty in 2025.

## Description and accommodation

---

This 2023 Ferretti Yachts 780 has been kept in pristine, near-new condition by a single private owner since new, logging just 600 engine hours and accompanied by a complete service history. Meticulously cared for from

delivery and tastefully specified, she combines Ferretti's hallmark Italian craftsmanship with assured performance, refined interiors and expansive outdoor living. Sunlit living areas flow from an expansive panoramic flybridge down to a hydraulic swim platform, while generous entertainment spaces and beautifully finished, naturally lit accommodations create an elegant setting for family cruising or hosting guests. Fully equipped and available for immediate delivery, this privately used example represents a rare opportunity to acquire one of the most immaculately presented Ferretti 780s on the market, delivering an uncompromising luxury yachting experience.

Guest accommodation is arranged for eight in four ensuite cabins, featuring a full beam owner's suite amidships, a forward VIP stateroom, a twin cabin convertible to a double and a further twin guest cabin. Crew are accommodated in two cabins for up to three, with separate access to ensure total guest privacy.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts.
