## OVERVIEW

---

This remarkable M75 model is a top contender in the luxury yacht arena. With careful enhancements and exceptional upkeep, this vessel has become even more enticing after a recent price revision.

Presenting an extensively upgraded original owner 75 Panacera, this yacht for sale features a newly added hydraulic lift complementing the original bridge davit. Following a thorough refit and yard period, she boasts state-of-the-art electronics and a breathtaking Awlcraft paint finish from the waterline upwards. Crafted for seamless cruising, she is equipped with redundant systems throughout, providing assurance on the open sea.

The dockside AC cooling tower enables the yacht's air conditioning to function without seawater while docked, boosting comfort and efficiency. With impeccable service history, Starlink connectivity, Yacht Controller, refreshed soft furnishings, and a new acrylic enclosure, this vessel is primed for contemporary luxury. Furthermore, nine solar panels on the hardtop, an inverter, enhanced ground tackle, and zero-speed stabilizers complete this extraordinary offering.

This yacht is expertly refined and poised to impress, making it a standout choice in yacht sales at the current boat location. Delve into the full description in the listing for more insights on this exceptional opportunity to acquire a yacht that truly represents elegance and performance.

# DETAILED DESCRIPTION

---

## Section name

---

The Hatteras M75 exemplifies the pinnacle of quality and artistry, seamlessly blending sophistication with style to redefine elegance in yachting. Crafted for open-air entertainment, its expansive flybridge provides a variety of seating and sunbathing areas, making it an ideal setting for gatherings beneath the sky. Within, the M75 captivates with an open-plan deckhouse salon and galley, encircled by panoramic windows that deliver stunning 360-degree vistas.

This yacht boasts a magnificent full-beam master suite, offering unparalleled comfort and luxury for the owner. Complementing this are a private VIP stateroom and designer-inspired twin staterooms, ensuring guests enjoy a lavish stay. Outfitted with an extensive selection of premium amenities, the M75 guarantees that each voyage is as comfortable as it is unforgettable. Additionally, the yacht provides opportunities for customization, enabling you to tailor it to your preferences and leave your personal mark.

## Overview

---

The Panacera 75 Motor Yacht, hull #1, exemplifies exceptional craftsmanship and design, crafted in collaboration with the Hatteras executive team for its current owner. Initially a flagship model for Hatteras's marketing, this vessel is now a rare and coveted blue water cruiser, known for its robust build.

Weighing about 50,000 pounds more than similar-sized yachts, it promises a smooth journey whether at high speeds or cruising leisurely for fuel efficiency.

This remarkable yacht is powered by Cat C-32A engines, each providing 1800 hp with 1,600 operational hours, maintained by Miley's Cat Diesel. The engines have primarily been operated at low speeds, reducing load and fuel usage. The

twin Onan 27.5 KW generators, with 4,400 original hours, have been recently overhauled as a precautionary measure, ensuring a dependable power supply. Throughout its ownership, the yacht has been carefully stored and maintained at the owner's residence. Recent enhancements over the past year include a complete electronics upgrade with a Ghost Tracking System Apparition Upgrade, three flush-mounted Seatronx 19" touchscreen displays at the helm, and a Garmin 8700 Black Box Chart Plotter integrated into all displays. The yacht is outfitted with a Garmin Fantom 126 Radar, Garmin Reactor 40 Autopilot, and a Garmin GSD-24 Depth Sounder, among other advanced systems. Communication and navigation are bolstered by two ICOM M605 VHF Marine Radios, a Garmin GXM54 XM Weather Antenna, and five Garmin GC14 Marine Cameras. The vessel also features a FLIR Marine Thermal Camera and an ACR RCL-100LED Search Light for enhanced safety and visibility.

Entertainment and connectivity are exceptional with a Flybridge SAAB 43" Sun Outdoor TV, JL Studio M3-770X exterior speakers, and a Starlink Marine Internet Satellite Antenna. The yacht includes an office-grade Unifi Security Gateway with three WiFi access points, ensuring seamless internet connectivity throughout. A dedicated iPad and charging dock have been added to control the A/V system, which can also be operated via a smartphone. The Sonos 7 Zone Audio Systems and Apple TV systems feed into the AV setup, providing a rich multimedia experience.

The yacht's water systems have been upgraded with a SeaXchanger Spot Zero XTC II Watermaker and an additional Spot Zero system for treating incoming water. Exterior enhancements include a new acrylic bridge enclosure with sun shades, new forward deck upholstery with canvas covers, and a custom removable aft bridge deck sun shade. The teak decking has been refinished, and the bridge and aft areas have been upgraded with new soft goods and teak club chairs.

Extensive exterior work has been completed, including a bottom job with

Interlux, prop speed application to running gear, and reconditioning of propellers and shafts. The exterior windows have been recaulked, and the waterline has been repainted with Awlcraft, with all hardware removed for a flawless finish. A new Delta stainless steel anchor has been added for secure mooring.

Interior upgrades include a hydraulic swim platform, new stateroom carpets, and replaced bed linens. The bridge now features a glass-front refrigerator and a Raritan ice machine. Additional vessel features include a dockside Dometic Spot Zero with new membranes, overhauled Onan generators, and a serviced heat exchanger on the hydraulic system. The yacht is equipped with a dockside AC Harborside Chiller System, a 1500 lb. davit, and aft bridge deck chocks. A custom-designed air-conditioned workroom with tool storage and a workbench, auxiliary freezer units, and a crew stateroom with a large head and shower enhance functionality and comfort.

The yacht is equipped with a Yacht Controller Mobile Docking System and a hands-free headset docking communication system. An inverter system dedicated to refrigerators, ice makers, and the A/V system, along with 12 rooftop solar panels, provides approximately 12 hours of power. Zero speed mooring and cruising stabilizers ensure a stable ride, while an extensive inventory of parts and tools, custom artwork by Steve Barton, and a tender towing bridle system for up to a 33' tender add to the vessel's appeal.

Redundant systems include a fuel transfer pump, hydraulic system raw water cooling pump, main AC raw water cooling pump, fresh water pump, battery charger/maintainer, and water maker raw water pump. Safety features are comprehensive, with a life raft, AED defibrillator, two flare kits, marine first aid, a bell, life ring, and EPIRB ensuring peace of mind on every voyage.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts.
