# OVERVIEW

M/Y EM-ES II stands alone as the only Ferretti 750 HT of her generation currently available on the European market, a rare Flybridge Motor Yacht that marries dynamic performance with refined elegance. Recently the beneficiary of an extensive upgrade program, she presents in superb condition and answers the throttle with composed authority, reaching a spirited 26 knots propelled by her twin MTU engines. Her planing hull, retractable hardtop and the unmistakable, flowing Ferretti profile ensure every arrival is an event, her lines distinguishing her at any anchorage or in any marina.

Her interior accommodates eight guests in four ensuite cabins, led by a serene full-beam Master and a generous VIP with an expandable bed, complemented by two well-appointed Twins—one on the starboard side convertible from twin berths to a king-size as required. Practical versatility continues at the helm, where a table converts into an additional berth, while two crew cabins sleeping three crew provide discreet, efficient service. Life aboard is conceived for languid comfort: the main salon is bathed in natural light and invites unhurried conviviality; the cockpit and foredeck offer ample spaces for lounging and alfresco dining; and the flybridge, complete with retractable hardtop, a new carbon dashboard and updated bridge and flybridge displays, affirms her credentials as a true Flybridge Cruiser.

Delivered turn-key to a new connoisseur, EM-ES II is comprehensively outfitted for comfort and seakeeping, featuring ARG zero-speed stabilizers together with bow and stern thrusters and an array of recent technical enhancements.

Between 2023 and 2025 she received a complete replacement of the steering system and a full anti-osmosis treatment of the hull down to the gelcoat, followed by seven coats of primer and three sprayed antifouling coats. The stern thruster underwent a thorough overhaul; 220V and 24V pumps were serviced; the water-maker was overhauled with new desalination membranes;

and her generators were maintained in accordance with Onan's standards. Windlasses were fully refitted and fitted with certified anchor swivels, hull porthole seals were renewed, generator enclosures gained upgraded insulation and the crew cabin flooring was replaced.

Electrical resilience was strengthened with new generator and engine batteries, new bow thruster batteries and a new generator battery charger. Navigation and safety were upgraded with a new AIS system and a new EPIRB. Practical comforts on deck and in the galley were refreshed with a new Delonghi refrigerator, a new ice maker and a new crew refrigerator. The result is a refined Performance Motor Yacht with enduring Ferretti pedigree: EM-ES II embodies the prestige and lasting value sought by experienced owners—an elegant, fast and beautifully balanced Flybridge Sports Cruiser, ready to cast off at a moment's notice.

# SPECIFICATIONS

## Basic Information
