## OVERVIEW

---

The Predator 75 is an arresting, performance-oriented luxury motor yacht that embodies Sunseeker's distinctive magnetism. Its sinuous profile, expansive alfresco lounging areas, and refined interior spaces blend exhilaration with poise; conceived for owners who relish brisk passages and seamless entertaining, the Predator 75 delivers range, polish, and the timeless character of a sport yacht in an express cruiser guise.

# DETAILED DESCRIPTION

---

## Factory installed options

---

Specified with an extensive suite of factory-installed options, this yacht begins with an additional AC 110V double socket integrated into the cockpit wet bar and an aft docking station featuring a second Aventics—Marex OS 3D joystick, complemented by the MAN Aventics—Marex OS 3D joystick docking system and Auto Troll for transmissions to enable precise slow-speed manoeuvring. Comfort is elevated by down-filled interior scatter cushions, a Bosch Integrated Slimline dishwasher, a carbon fibre ensign staff with stainless steel head and socket, and chrome heated towel rails measuring 700 x 400 mm in both the Master and Forward toilet compartments. The crew cabin is equipped with a 24-inch high-definition television paired with a Fusion Apollo radio offering Bluetooth and AirPlay functionality and Fusion ceiling stereo speakers. An entertainment inverter with seamless transfer allows the boat's entertainment system to run from the DC batteries, while a Performance AV Package with a Sonos audio zone system enriches the onboard soundscape; a 33-bottle wine cooler and a 50-litre mini bar refrigerator fitted into the port-side saloon storage unit keep refreshments perfectly conditioned. On deck, the foredeck seating group benefits from a manually operated stainless-steel framework canopy with a canvas cover, a pair of retractable cleats for the tender on the port and starboard corners of the platform simplifies handling, stern docking lights assist after dark, underwater lighting comprises Lumishore LED units, four in total, and the pulpit is split to form port and starboard gates for convenient side access. Navigation and situational awareness are enhanced by a Garmin 16-inch GPSmap 8616 chartplotter with GSD-24 sonar hub and Airmar B744V bronze transducer, together with CCTV comprising three cameras, including stern docking and engine monitoring coverage, plus an Iris

S460 Marine High Definition stainless-steel dome 3MP IP wide-angle docking camera with built-in infrared LEDs that engage automatically via a day/night filter to illuminate up to 10 meters at night and in low light. The radar scanner and associated radar chair equipment minus the horn are sprayed Jet Black—the scanner itself finished in LSA Jet Black—with no warranty on the radar scanner. At anchor and underway, Sleipner Vector Fin Stabilisers deliver assured poise. Ground tackle includes a Lewmar 50 kg Delta galvanised anchor matched to 90 metres of 12 mm galvanised chain. Glazing receives a medium tinted film to the side windows, hardtop, and sliding doors; the hull band to the waterline is moulded in Shadow Gray instead of the standard white; interior fabrics are upgraded; hard surfaces are specified as an upgrade; and interior wood is Band One, with a choice of Nordic Oak, Sand Oak, or Balanced Walnut, all finished in a satin lacquer. Practical detailing includes key locks for the cabin doors of the Forward VIP Cabin, Master Stateroom, Master walk-in wardrobe, Port Mid Cabin, and Starboard Guest Cabin, a port-side saloon outboard storage unit in lieu of the settee, wood flooring in the lower lobby, on the step to the master cabin, and in the forward lobby up to the forward cabin door, and two single beds with an electrically operated slider to create an occasional double. Systems are enhanced by an oil-change system serving engines, gearboxes, and generators, preparation for a future water maker with seacock and outlets blanked off together with freshwater feed to tank and power supply provision, a Splendide washer/dryer in the crew quarters, and the aforementioned pair of retractable cleats for the tender on the platform corners. For added indulgence, Heirlooms bed linen is supplied as a complete set comprising a quilted mattress protector, fitted bottom sheet, flat top sheet, Oxford and housewife pillowcases, duvet covers, and European goose down duvets and pillows, crafted in 300-thread-count Egyptian cotton. Propulsion is delivered by twin MAN V12 1900 engines (two x 1900 PS). A USA Platinum package is included to align the specification with the needs of that market.

## Disclaimer

---
