# OVERVIEW

---

WOW, what an extraordinary Motor Yacht!

Welcome aboard "Octopi," our magnificent 1997 Lazzara 76 Enclosed Sky Lounge, showcasing a Grand Salon and a Country Kitchen Motor Yacht layout. Lazzara has long been a pioneer in the yacht industry, celebrated for providing outstanding yacht value, a smooth, dry ride, and the feel of a much larger vessel with superyacht features in a 76-foot motor yacht. This gem is expertly managed by a husband-and-wife team.

"Octopi" comfortably hosts 11 guests across 7 beds with 6 bathrooms, making her perfect for chartering. The Country Kitchen features a gourmet-style modern galley, a breakfast bar, and a sophisticated dining table. The enclosed bridge deck, along with a generous sundeck equipped with tender storage and dual tender davits for port and starboard loading, completes this luxurious package.

Don't miss the opportunity to own this magnificent 76' Lazzara, as it's priced for a quick sale.

New to the market and free from storm damage, this yacht is a treasure.

Five-stateroom layout with numerous updates and enhancements, including new carpet (2023).

Accommodates 11 guests, 6 bathrooms, featuring a main deck "Day Head."

Country "Gourmet" Kitchen design.

Grand Salon with a separate Bar area.

Six new smart TVs (2023), Starlink SAT, Ship WiFi, new salon furniture, and window valances (2024).

Four new air-conditioning units (2023/2024).

Fresh bottom paint and PropSpeed (2024), new batteries (2023).

New 8-person liferaft (2023).

New ElectroSea AC cooling water system (2024).

Up-to-date engine services and records.

Immaculate, easily accessible engine room and clean bilges.

Bridge P&S hydraulic tender davits, P&S hydraulic jet ski trunks.

"Octopi" underwent a Lazzara factory refit in 2014, receiving new Trac stabilizers, headliners, wall panels, carpet, appliances, an ISIS monitoring system, and a Lazzara Sea Check with comprehensive upgrades.

In 2024, "Octopi" had a complete MTU engine service (twin MTU 12V 183, 1,150hp engines).

"Octopi" is meticulously maintained by an engineer and stands as a remarkable example of one of the finest Lazzara Yachts ever available—the Grand Salon, Enclosed 76, with twin stern separate jet ski garages and a hydraulic tender swim platform. This setup is perfect for enjoying the water. This Sky Lounge Motor Yacht has been kept to the highest standards by her owners. Her layout is designed to offer comfortable accommodations for eight or more, with separate private quarters for the crew forward.

## Accommodations

---

This unique 76' Lazzara Euro Transom Motor Yacht from the Grand Salon Series is a true embodiment of elegance and radiance, distinguishing itself from its counterparts. Designed to host up to 11 guests, it includes a convertible sofa in the pilothouse, providing ample sleeping options. The layout is meticulously designed, featuring two forward staterooms with ensuite bathrooms and a full-sized office complete with a laundry center, conveniently situated beneath the Country Kitchen galley. Moving aft from the day head and galley, a lighted spiral staircase in the forward salon leads to three additional spacious guest staterooms. The highlight is the impressive centerline full-beam master suite, which boasts a luxurious master bathroom with a Jacuzzi, a spacious walk-in closet, and an extra laundry center in the foyer. This custom factory layout enhances the experience with a larger-than-standard VIP Queen guest stateroom to port, featuring a walk-around berth athwartship, and a roomy twin-berth stateroom to starboard, each with its own SAT TV entertainment center.

The custom full-beam main Grand Salon is a marvel of light and space, featuring a built-in leather sofa complemented by matching Lazy Boy chairs and a side stand that holds all the remotes, along with a smaller matching sofa to starboard. The ambiance is elevated by white gloss cabinetry, burl wood accents, coral stone tops, marble head flooring, NuTeak galley flooring, and gold accents. The yacht is bathed in excellent natural lighting across all on-deck areas, and its wide beam creates a sense of grandeur. The elegant custom white burl top full-sized bar, with four stools forward to port in the salon, is perfect for entertaining. This bar is equipped with a gold-plated sink, a high-output ice maker, and new drawer-style fridges and a wine chiller to

starboard. The port and starboard leather sofas and matching Lazy Boys create a relaxing salon environment, complete with a large SAT TV and an entertainment center controlled by a Crestron remote. An all-glass stainless bulkhead aft contributes to the yacht's light and airy atmosphere.

The expansive aft deck is crafted for leisure, featuring a single table with chairs, Nuteak decking, a custom Bluewater wood table, a BBQ, and steps leading to a spacious swim platform with removable railings. This 76' yacht includes the optional dual hydraulic wave runner garages port and starboard, enhancing its appeal. The entire yacht is adorned with walnut burl accents on Lazzara white cabinetry, coral stone countertops, and hardwood flooring forward. All heads are finished with Mocha marble flooring. Below deck, a larger port-side VIP optional guest stateroom offers a full walk-around queen bed, unlike its sister ships, and a large single-berth guest stateroom to starboard. The elegant master stateroom spans the full beam of the yacht. The two cabins located forward of the galley provide accommodations for four additional guests or crew, complete with an office/study/laundry area, hardwood flooring, and a newer headliner.

The updated gourmet galley is a modern "Country Kitchen" style, featuring a large settee, and has been refreshed in 2014/2015 and again in 2023. It includes a convenient day head and new hardwood flooring, with side deck doors port and starboard and a full staircase leading to the enclosed Sky Lounge. Another set of stairs forward of the galley leads to the office and two additional staterooms, also featuring hardwood flooring, a newer headliner, and newer wall panels.

## Aft deck

---

Stepping onto the aft deck of "Octopi" is a truly delightful experience, thanks to a range of custom enhancements that boost its charm. The varnished table with accompanying chairs and NuTeak decking set the stage for a welcoming

environment perfect for dining and relaxation. On the port side, a custom cabinet is fitted with a large stainless steel BBQ and refrigerator, significantly enhancing the deck's functionality. The area is further improved by digital docking cameras on both port and starboard, offering excellent visibility and simplifying maneuvering. Blue LED lights add a sophisticated touch, while stainless steel boarding gates on each side ensure safe access. A convenient 5-step ladder provides quick access to the boat deck. The new-generation Aqualuma tri-color underwater lights turn the aft deck into a magical venue for alfresco dining under the stars.

The lower platform grants direct entry to the engine room and is adorned with NuTeak tread for both durability and style. This magnificent 76' Lazzara also features optional hydraulic wave runner garages on both port and starboard, offering extra storage and convenience. The expansive hydraulic swim platform doubles as a beach area and a tender platform, making it a versatile and enjoyable space for all onboard activities.

## Galley

---

As you proceed forward, you enter the Country Kitchen galley, a space that seamlessly blends practicality with elegance, highlighted by hardwood floors and a series of recent enhancements. At the very front, a spacious L-shaped settee invites you to enjoy alfresco dining, newly upholstered in 2023 with fabric inspired by Tommy Bahama, infusing a hint of tropical sophistication. To starboard, discreetly positioned under the flybridge stairs, is a convenient day head—a rare luxury on a 76' yacht.

On the port side, the expansive U-shaped galley area features updated Corian countertops and overhead cabinets, offering plenty of room for culinary activities. In front of the galley counter, two bar stools provide a relaxed seating option. This galley comfortably seats up to seven people for casual dining or offers a welcoming spot for guests coming in from the sun lounge for

a quick snack. Full-sized stairs lead to the enclosed pilothouse, and the galley is equipped with port and starboard side deck pilothouse doors, ensuring easy access. The Lazzara is designed with easily accessible electrical panels located forward to port, and large panoramic front windows with shades provide excellent visibility from this area while underway.

Beyond the galley dinette area, stairs lead to a spacious built-in lower office and ship's station, a laundry area, and two additional staterooms. One of these staterooms could serve as a captain's quarters or provide extra accommodation for guests. The vessel features a total of five staterooms, including the crew quarters. This entire forward area is enhanced with newer hardwood flooring, contributing to the yacht's modern and sophisticated charm.

## **Pilothouse and sky lounge - upper deck and tender sun deck**

---

The Pilothouse and Sky Lounge, accessible from the galley on the starboard side, provide a commanding view with a central helm offering superb 360-degree visibility. This area is outfitted with two power-assisted helm chairs, and the electronics console is conveniently positioned just ahead of the wheel. The Sky Lounge is elegantly designed, featuring a captain's teak desk and a pop-up LCD TV to starboard. An L-shaped sofa with a cocktail table and additional counter space forward to port, which includes a U-line refrigerator, enhances the space. The large couch can be electrically extended and retracted, offering an extra berth when needed. This area has been completely updated with a sleek black leather sofa, new earth-toned wall panels and carpet, and a newer headliner, creating a modern and welcoming atmosphere. A spacious sundeck is accessible aft through a large stainless steel sliding door, featuring a Miele grill and a seating area with fold-up chairs for relaxation and entertainment. Built-in hydraulic davits on both port and starboard sides make

launching a tender easy, adding to the yacht's versatility. Additional amenities include a freshwater wash-down hose and LCD blue lighting, enhancing the deck's functionality and ambiance. Convenient ladder access leads directly to the lower aft deck and swim platform, while a custom stainless steel ladder provides easy servicing of equipment on top of the Sky Lounge. This combination of features makes the Pilothouse and Sky Lounge a perfect blend of luxury and practicality.

## Electronics & navigation equipment

---

The yacht boasts an extensive array of electronics and navigation systems, ensuring a smooth and secure voyage on the water. Central to this setup is the ISIS 700B, installed in 2014, which provides internet-based system monitoring and is paired with an LCD monitor for real-time updates. A digital 7-camera closed-circuit TV system, fully integrated with the internet, enhances security and monitoring capabilities.

Precision in navigation is achieved with the Garmin GPS Plotter from 2013, complemented by an HP Pavilion equipped with Maptech Navigator and Nobeltech software. The Weather Worx and Nobeltech Nav systems are linked with the autopilot, ensuring smooth and accurate course plotting. For backup, the yacht is equipped with a Northstar 952X GPS and a Furuno GP-32 GPS, along with a Furuno RD-30 depth sounder and a Furuno FCV-582 color video sounder for detailed underwater imaging.

Communication is facilitated by an Icom IC-M502 VHF with a remote mic, and a hailer is available for clear announcements. The Furuno NX-500 Navtex and Robertson AP 300X autohelm further enhance navigational capabilities. The Simrad 72-mile radar and Mathers 585 engine controls ensure precise control and situational awareness. A Datamarine compass provides reliable directional guidance, and the side windows can slide open for improved ventilation or easier docking in favorable weather.

The yacht also features an Auto Pilot GHP reactor, Radar GMR626, Windage GND10, and GPS 19X, all contributing to a cutting-edge navigation experience. Garmin displays, including the GPSMAP8622, GPSMAP8617, GPS8617, and GPSMAP 740, offer clear and detailed visual information. A card reader for the bridge card and VHS systems, including VHS315 and VHS215, are also part of the setup.

Additional electronics include MATHERS micro commander engine controls, a Fusion MS-UD750 for entertainment, a Ritchie compass for traditional navigation, and ABT-TRAC digital stabilizers for a smooth ride. This comprehensive suite of electronics and navigation equipment ensures that the yacht is well-equipped for any journey, offering both luxury and reliability.

## **Luxury master ensuite stateroom**

---

Descending from the starboard salon via an illuminated circular staircase, you arrive in a welcoming foyer that leads to three staterooms, a washer and dryer, a pantry, and a spacious hanging closet ideal for storing rain gear, jackets, and more. This entire area was meticulously refurbished at Lazzara in 2014, ensuring a contemporary and luxurious ambiance.

As you move aft, you encounter the impressive full-beam master stateroom, featuring a centrally positioned king-sized bed with elegant nightstands and a mirrored headboard. The room is tastefully adorned with walnut burl and glossy white cabinets, accented with gold highlights. To starboard, a very large walk-in closet provides ample storage, complemented by a full wardrobe with open counter space. Another matching wardrobe is located forward to port. A convenient and stylish curved sofa is situated to the port side of the master bed, offering a cozy seating area.

Forward to port, the master head is both spacious and impressive, featuring double sinks, mocha marble counters, marble floors, and a generous Jacuzzi/shower with a glass enclosure accented in gold. The entertainment

center, elegantly housed in a burlwood cabinet, is located forward on the centerline, serving as a focal point for relaxation and entertainment. Each stateroom is equipped with its own SAT TV and stereo system, ensuring personalized entertainment options.

This master stateroom rivals those found on much larger yachts, offering a level of luxury and comfort that is truly exceptional. Forward of the master, through the foyer, are two additional guest staterooms located to port and starboard, providing further accommodation options for guests.

## **Vip queen port ensuite guest stateroom**

---

As you proceed through the foyer atrium to the port side, you enter the VIP guest cabin, which features a walk-around queen bed that is more spacious than those typically found on other Lazzara yachts of this size. Unlike the standard layout that places a double berth against the hull, this cabin offers a more generous walk-around queen bed, complete with adjacent nightstands. A large cedar-lined mirrored hanging locker is situated aft, providing ample storage for clothing and personal items. Along the interior bulkhead, a full-length cabinet houses a built-in entertainment center overhead, a phone, and generous drawer storage. The clever use of burlwood accents is evident throughout all staterooms and doors, adding a touch of elegance and sophistication.

The guest head is equally impressive, featuring mocha marble floors and a molded Corian counter. A large sink and a spacious Corian stall shower provide comfort and convenience, while a toilet and adequate storage space are available both overhead in a cabinet and beneath the counter. This VIP stateroom offers a luxurious and comfortable retreat for guests, ensuring their stay is as enjoyable as possible.

## Starboard single guest stateroom

---

Positioned forward of the stairs in the foyer, on the starboard side, you'll find a utility locker and the second, more compact guest stateroom. Initially designed with over-under berths, the top bunk has been removed to create a more open single-berth cabin. This change enhances the space, offering a comfortable area with built-in cabinets and an entertainment system on the interior bulkhead. A hanging locker to starboard provides extra storage for personal belongings and clothing.

If needed, the upper berth can be easily re-installed to accommodate two guests, making this stateroom adaptable for various requirements. The guest head is tastefully designed with mocha marble floors and a molded Corian counter. It includes a large sink, a spacious Corian stall shower, and a toilet, along with generous storage space both overhead in a cabinet and beneath the counter. This starboard single guest stateroom provides a cozy and functional retreat, ensuring guests have everything necessary for a comfortable stay.

## Guest stateroom-forward

---

Located just forward to starboard of the office desk, the fourth stateroom provides a warm and practical space for guests. It features upper and lower berths, ensuring comfortable sleeping arrangements. A full-size hanging locker offers generous storage for clothing and personal belongings, while an entertainment center provides guests with leisure options during their stay. The ensuite head is thoughtfully designed with a stall shower, offering both convenience and privacy.

This stateroom has been recently refreshed with brand-new wall panels, hardwood flooring, and a new headliner, enhancing its contemporary and welcoming ambiance. The forward guest stateroom seamlessly blends

practicality with comfort, making it an ideal retreat for guests seeking a peaceful and enjoyable experience on board.

## Guest stateroom

---

Situated fully forward of the office in the bow, the fifth stateroom provides a comfortable and well-equipped space for guests. It features a double berth, strategically offset to starboard, creating a cozy sleeping arrangement. The room is adorned with hardwood flooring, adding a touch of sophistication to the ambiance. The ensuite head is fitted with a stall shower and boasts a mocha marble floor, ensuring a luxurious experience.

To port, a hanging locker offers ample storage for clothing, complemented by additional drawer and locker space beneath the bunk and to the port side. An entertainment center is also included, providing guests with leisure options during their stay. An overhead hatch grants access to the foredeck, allowing natural light to flood the room and offering a connection to the outdoors.

This fifth stateroom is versatile and, if desired, could serve as an ideal captain's quarters, making it a practical choice for accommodating crew. The blend of comfort, functionality, and style ensures that this guest stateroom meets the needs of any guest or crew member seeking a restful retreat on board.

## Office/study

---

Descending from the Country Kitchen, offset to port, the companionway stairs lead down to the forward sleeping quarters and the office. At the base of the companionway, you are welcomed by a well-equipped office area, featuring a built-in L-shaped desk and bookshelves to starboard, offering plenty of space for work or study. To port, a convenient laundry center enhances the functionality of this area. The spacious forward section is complemented by newer hardwood flooring, making it an ideal spot for crew relaxation or for

guests who need to work while on vacation.

The office is outfitted with Starlink satellite phone and internet connections, ensuring comprehensive communication capabilities for both office tasks and internet access. This setup allows for seamless connectivity, whether for business or leisure. Just forward and to starboard of the office, two additional guest staterooms are situated, providing further accommodation options. The office/study area blends practicality with comfort, making it a versatile and valuable addition to the yacht's amenities.

## Engine/mechanical equipment

---

The yacht is driven by twin MTU 1100 hp diesel engines, specifically the Model 12V 183TE, which are of Mercedes military grade, guaranteeing strong performance and dependability. In 2014, a thorough Lazzara Sea Check was performed, offering complete factory service on all systems to ensure peak functionality. The yacht is fitted with eight Cruise Air conditioning units, with four of these units newly installed in 2023/2024, ensuring a pleasant climate throughout the vessel.

For anchoring, the yacht is equipped with a Maxwell windlass, providing efficient and reliable operation. The Sea Recovery SRC 600AC water maker is onboard, delivering a continuous supply of fresh water, which is crucial for long voyages. Maneuverability is enhanced by a bow thruster, allowing for precise control in tight docking situations. Stability at sea is maintained by TRAC stabilizers, which were factory replaced in 2014, ensuring a smooth and comfortable ride even in challenging conditions.

This combination of advanced engine and mechanical equipment ensures that the yacht offers outstanding performance, comfort, and reliability, making it ideal for both leisurely cruises and more demanding journeys.

## Electrical system

---

The yacht's electrical system is crafted to deliver consistent and efficient power throughout the vessel. It includes a 240/120 volt single 100 amp AC system, ensuring that all onboard appliances and systems function seamlessly.

Complementing this setup is a 24/12 volt DC system, offering additional power options for various equipment and systems.

Power generation is managed by two Onan 20 KW generators, each with around 3800 hours of operation, guaranteeing a reliable and continuous power supply for all electrical needs. The yacht is also fitted with a Glendenning Cablemaster CM-8, which comes with a 100-foot cable, allowing for easy connection to shore power on both port and starboard sides.

This comprehensive electrical system ensures that the yacht is fully equipped to meet the demands of modern yachting, providing both comfort and convenience for everyone on board.

## Audio and visual equipment

---

The yacht features an extensive audio and visual system crafted to elevate the onboard entertainment experience. Each stateroom is equipped with its own entertainment setup, including SAT TV and stereo, ensuring personalized enjoyment for every guest. In the salon, a 47" Smart HD TV serves as the central hub for viewing pleasure, while the galley is fitted with a 13" Smart HD TV for added convenience.

The Sky Lounge is adorned with a 36" Smart HD TV, creating an ideal environment for relaxation and entertainment. The master stateroom includes a 26" Smart HD TV, offering a private viewing experience. Both the port and starboard guest cabins, along with the crew and captain's quarters, are equipped with 13" Smart TVs, ensuring entertainment is accessible throughout the yacht.

Additionally, the yacht is fitted with a Starlink SAT System, providing dependable satellite connectivity for seamless communication and entertainment. The audio experience is further enhanced by Bose speakers installed in all areas, delivering superior sound quality. In the salon, an HD/DVD receiver adds to the array of entertainment options available to guests.

This cutting-edge audio and visual equipment ensures that everyone on board can enjoy a premium entertainment experience, whether unwinding in a stateroom or socializing in the common areas.

## Safety and fire protection

---

The yacht is outfitted with an extensive safety and fire protection system to ensure the well-being of everyone on board. A Life Raft, designed to accommodate 8 people and newly installed in 2023, ensures essential emergency preparedness. The Isis Monitor System 700B, featuring remote monitoring capabilities via the internet, provides real-time oversight of all critical systems, enhancing both safety and security.

For emergency signaling, the yacht is equipped with an SOS 406 EPIRB, ensuring that assistance can be summoned swiftly in the event of an emergency. A Lifesling is also available, offering an effective means of rescuing individuals from the water. The Fireboy Fire Extinguishing system is installed to automatically address any fire incidents, complemented by portable fire extinguishers strategically placed throughout the yacht for additional protection.

An escape hatch forward offers a quick and safe exit route if needed. The complete Lazzara alarm system, integrated through the Isis 700B, provides comprehensive monitoring of all systems, ensuring that any issues are promptly detected and addressed.

This robust safety and fire protection setup ensures peace of mind for all guests and crew, allowing them to enjoy their time on the yacht with confidence.

## Laundry room

---

This Lazzara yacht features two fully equipped laundry areas, providing convenience and efficiency for both guests and crew. The first laundry facility is located in the lower foyer, just below the salon, and is reserved for the owner and guests. This arrangement ensures easy access and use, allowing personal laundry needs to be addressed with ease and privacy.

The second laundry area is positioned in the forward office section, making it perfect for crew and galley laundry tasks. This strategic location enables the crew to handle laundry duties efficiently without interfering with guest activities. The dual laundry facilities on this yacht underscore its thoughtful design and dedication to offering a seamless and comfortable experience for everyone on board.

## Disclaimer

---

The Company offers the details of this vessel with sincere intent, aiming to provide precise and dependable information. However, it cannot assure or guarantee the accuracy of this information or the condition of the vessel.
