## OVERVIEW

---

-PRELIMINARY LISTING — NEW PHOTOGRAPHY COMING SOON-

A refined synthesis of contemporary style and purposeful capability, this 2019, 76-foot motor yacht greets every horizon with assured grace and a commanding 21-foot beam. Crafted in the United States with hand finished fiberglass/GRP construction, she marries the robustness expected of a bluewater build with the refined sensibility of a bespoke floating residence. Inside, Marty Lowe's interior design infuses the spaces with natural light, understated lines, and tactile materials, shaping a calm, contemporary sanctuary tailored for extended cruising and effortless entertaining.

Beneath her decks, twin Volvo Penta diesels propelling the hull yield a composed, efficient passage, sustaining a comfortable cruise at approximately 18 knots and capable of topping 22 knots when you press on. A capacious 1,149-gallon fuel capacity coupled with a 370-gallon freshwater tank equips her for longer legs at sea, pairing practical range with the nimble responsiveness of a performance motor yacht. Whether threading along a glittering coastline or venturing well beyond the harbor, she embodies both Luxury Motor Yacht and Bluewater Cruiser in balanced measure.

On deck, the generous beam translates to expansive, flowing living areas that move naturally from the aft social zone through the salon to flexible forward lounging. Panoramic glazing, curated surfaces, and carefully considered lighting create an atmosphere that suits every moment—sunlit brunches, twilight cocktails, and quiet late-night conversations each feel cinematic. The flybridge invites breezy respite, the cockpit lends itself to alfresco dining, and the serene main salon offers an intimate retreat, all curated to foster a sense of calm and sophistication.

Practicality is woven through the aesthetic: GRP decks for durability, intuitive systems for straightforward management, and well-planned service access

that simplifies ownership and enhances dependability. The result is a yacht that rewards both the act of voyaging and the pleasure of hosting, where meticulous craftsmanship meets everyday comfort.

Located and presented in the United States, this 2019 76' Flybridge Yacht, Cruising Yacht, and Performance Motor Yacht presents a compelling opportunity to step aboard a meticulously prepared, multi-faceted vessel poised to inspire the journeys ahead.

# DETAILED DESCRIPTION

---

## Construction

---

Built by Sanlorenzo and launched in 2019, this yacht has been thoughtfully renewed with refits in 2024 and 2025, marrying modern systems and cosmetic freshness with the original pedigree of Italian craftsmanship. Interiors by Marty Lowe blend contemporary elegance with purposeful comfort, creating serene salon and cabin environments that elevate life aboard. A robust GRP hull crowned by teak decks delivers enduring strength, a quiet, composed ride and the timeless warmth of natural wood underfoot, while the refits ensure systems and finishes present like new for years of confident cruising.

## Dimensions

---

At seventy-six feet length overall and an expansive twenty-one feet eight inches beam, she offers generous living space and a confident presence on the water, while a shallow five feet five inches draft opens the door to secluded anchorages and easy access to coastal harbors. Her volume is measured at 115 GRT, translating to a remarkably capacious platform for her size and enabling flexible interior layouts and storage.

## Capacities

---

Long range autonomy is assured by a fuel capacity of 1149 Gallons and a fresh water capacity of 370 Gallons, supported by on board watermakers producing sixty gph so extended cruises and remote anchorages remain well within reach. She settles into a comfortable rhythm at eighteen point zero knots cruising speed and can surge to a maximum of twenty two point zero knots when desired, offering a balanced mix of efficiency and performance.

## Machinery

---

Power is delivered by twin Volvo Penta D13C2-A MP engines rated at 800 HP each, showing two hundred ten hours as of January 1, 2026, and coupled to IPS drives for efficient, responsive handling and reduced vibration. Comfort underway is enhanced by Mitsubishi stabilizers while a Sidepower bow thruster simplifies close quarters maneuvering, making docking and tight turns effortless. Shipboard electrical needs are met by two Kohler 24kW generators with 3570 and 3211 hours respectively, climate control is provided by two Condria 60000 btu units, and navigation and situational awareness are anchored by an all Raymarine electronics suite that integrates helm systems for confident passagemaking.

## Galley & laundry equipment

---

The yacht's culinary hub is outfitted to professional standards, featuring a Miele range and Miele oven for precise cooking, a Kenyon grill for alfresco flavor, a GE microwave for quick convenience, Subzero refrigeration paired with a Subzero freezer to maintain provisions in prime condition, and a Miele dishwasher to keep service seamless from prep to plating. This fit-out supports both casual family cruising and formal entertaining with ease.

## Tenders & toys

---

For effortless exploration and spirited fun on the water, the yacht is supplied with one Williams Jet 325 tender and one Seabob, making swift transfers and playful adventures between anchorages a natural part of every day aboard and extending the vessel's capability for both watersports and practical shore access.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
