OVERVIEW

MCP Yachts MY 76

In the realm of yacht sales, the MCP Yachts MY 76 stands out with its expansive design, offering a saloon and flybridge that rival those found on vessels exceeding 90 feet. This motor yacht, available for purchase in the current boat location, combines classic aesthetics with cutting-edge transoceanic capabilities.

Crafted entirely from Dutch-imported aluminum, the hull ensures exceptional strength, lightness, and longevity, surpassing traditional fiberglass. The yacht's double-bottomed oil tanks enhance resilience, autonomy, and stability, making it ideal for exploring remote waters. Hydraulic stabilizers with dynamic "FINS" provide unparalleled comfort, reducing lateral sway by up to 98%.

The Classic 76 is powered by dual Caterpillar engines ranging from 600 to 1015HP, with alternative options available. These engines are acoustically insulated, ensuring a serene voyage. Additionally, a vibration and noise absorption system guarantees silent cruising.

For seamless marina maneuvers, the yacht is equipped with hydraulic bow and stern thrusters. Safety is paramount, with electronic navigation displays and computerized monitoring systems. The lower deck features a teak-covered diving platform and a watertight door leading to the diving compartment. The master suite offers panoramic sea views, while the bow houses a guest laundry, two en-suite cabins with bunk beds, and a VIP suite.

The main deck boasts a spacious central saloon adjacent to the aft deck. Access the bow deck and solarium via the side control door, where ample storage accommodates bicycles, fenders, and essential equipment for global adventures. Aft, find an SR 15 dinghy with a 60 HP engine, space for a jetski, or sunbathing chairs. This yacht for sale offers vast space, impressive autonomy, low fuel consumption, advanced technology, and exquisite detailing.
