## OVERVIEW

---

This is the only Wajer 77 on the US market, delivered in 2025 and presented as an open motor yacht and express cruiser that combines Dutch craftsmanship with exhilarating performance. No Duty Paid. With a sculpted silhouette and expansive alfresco areas that flow seamlessly into a refined interior, she is crafted for effortless weekends yet versatile enough to serve as a luxurious dayboat or a high-speed superyacht chase tender. Triple Volvo Penta IPS 1200s, set off by a bespoke paint finish, propel her to a top speed of 37 knots and support a 400 NM range, while a three-cabin layout accommodates up to eight guests in comfort. At anchor, a hydraulic swim platform and Seakeeper 18 gyro-stabilization ensure stability and ease, and the tender garage houses two Seabobs, included. Navigation and systems are simplified by a fully integrated Garmin suite, and the Dutch-built aluminum construction by Wajer Yachts underscores lasting quality and meticulous attention to detail.

# DETAILED DESCRIPTION

---

## Exterior highlights

---

At the bow a graceful U-shaped lounge surrounds a central dining table, creating an elegant space for effortless entertaining, while the foredeck features a sunpad fitted with weatherproof cushions for indulgent sunbathing. The helm is appointed with four custom Wajer seats offering electric adjustment for personalized comfort. The cockpit transforms between lounge and dining configurations around a height-adjustable table, and the fully equipped aft wet bar—complete with grill, refrigerators, an icemaker and a TV lift—makes hosting onboard effortless. Aft, an inviting lounge with integrated sunbed seating extends the al fresco living area, with synthetic teak decking unifying all exterior surfaces. Practicality meets refinement with an optional integrated fender system operated by automated controls and a stern air connection for inflating water toys and accessories.

## Interior & comfort

---

The yacht's atmosphere is defined by a full-beam master suite that epitomizes gracious living, complete with an ensuite bathroom fitted with a rain shower, intimate lounge seating for quiet retreat and relaxation, and a comprehensive entertainment system for private enjoyment. A generous VIP/Junior Suite provides a tranquil sanctuary with a double bed, its own ensuite and a dedicated sound system, while the guest cabin offers flexible sleeping arrangements via a convertible French bed and an upper bunk. Practicality and independence are afforded by a dedicated captain's cabin with its own ensuite and bunk accommodations. Anchoring the interior, an open split-level galley and coffee bar cater to culinary enthusiasts, appointed with premium appliances and an underfloor freezer to ensure effortless provisioning and

service.

Every surface reflects considered luxury, from oak flooring and cabinetry to leather wall panels, Nova suede ceilings and bathrooms finished in natural stone. Outdoor comfort is equally refined: an optional aft deck sun awning system, supported by carbon poles, and an optional foredeck awning create inviting shaded areas for dining and lounging, while a full cockpit enclosure is available for confident weather protection. Exterior furniture covers are provided to protect furnishings and simplify storage.

## General

---

The plated hull and deck are crafted to exacting standards and reinforced by longitudinal centre and side girders, while an integrated system of transverse frames and web frames augments the structure; this combined transverse and longitudinal stiffening delivers exceptional strength and uncompromised structural integrity.

## Watertight bulkheads

---

The yacht is fitted with dedicated watertight bulkheads — notably a fore peak collision bulkhead and a forward engine room bulkhead — creating strong compartmentalization that significantly enhances structural integrity and affords owners added peace of mind when underway.

## Sanitary installation

---

The yacht's sanitary installation is centered on HDPE tanks seamlessly integrated into the hull and a sophisticated distribution network, supported by a 200 l boiler, a 140 l/h watermaker and a UV sterilizer to ensure pristine water quality. Rain-style showers adorn every bathroom within the luxury area, while

the swimming platform is fitted with a removable carbon-deck shower.

## Heating, ventilation, and air conditioning system

---

The yacht's integrated HVAC suite is precisely engineered to ensure exact climate control and elevated air quality throughout the vessel; it features a comprehensive air treatment and extraction system, fan coils and strip heaters in every cabin, a dedicated ventilation system serving all technical areas, a climate-controlled technical space, and spot cooling at the dashboard on both starboard and port sides (SB/PS). These components work together to deliver quiet, energy-efficient comfort while protecting the performance and extending the longevity of critical onboard systems.

## Anchor

---

A substantial galvanized-steel Delta anchor of 63 kg is supplied as standard, its self-launching design ensuring smooth, effortless deployment. Yachts specified to comply with MCA MGN280 are equipped with an additional loose kedge anchor to broaden holding options and meet the prescribed regulatory requirements.

## Disclaimer

---

Every effort has been made to present the particulars of this vessel in good faith; however, neither the accuracy of the information nor the present condition of the yacht can be guaranteed or warranted. Prospective purchasers are advised to instruct their brokers or independent surveyors to verify any details they wish to have confirmed. This vessel is offered subject to prior sale, alteration of price, or withdrawal from the market without notice.

## Options

---

Driven by the Volvo Penta IPS 1350 D13-1000 and equipped with the Volvo Penta Dynamic Positioning System for precise station keeping, this yacht pairs high-performance propulsion with refined external details—carbon-fiber-style exterior trim is set off by satin black PVD fittings. A hydraulic swimming platform transforms gracefully into a gangway, while ten semi-automatic inflatable fenders deploy to protect the vessel during docking. Comfort and composure underway are enhanced by a gyro stabilizer and a dedicated cooling system for the exterior Permateek decking, and continuous connectivity is provided by a Starlink installation mounted on the hardtop. Watersport capability is thorough, featuring two Seabob F5S units held in a charging cradle, a Williams Jet 325 tender stowed aft with an ejection system for swift launches, and two Awake electric surfboards. Alfresco living is complemented by an outdoor TV integrated into the wetbar, and precise close-quarters handling is made effortless with the Dockmate Remote Joystick.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
