## OVERVIEW

---

ANGEL, a 2024 Azimut 78 Flybridge, is offered with low engine hours and single-owner private use, presenting an immaculately kept example of the celebrated 78 line. Carefully preserved and finished to the highest standard, she marries refined Italian design with cutting-edge systems and performance, a luxury flybridge motor yacht and cruising yacht that radiates sophistication and ease—perfect for tasteful escapes or refined entertaining afloat.

A carbon fiber superstructure reduces weight while increasing stiffness, and propulsion comes from triple Volvo IPS 1350s (1,000 hp each), propelling her to exhilarating top speeds of up to 33 knots and a steady cruise of 26 knots. Volvo's IPS joystick and pod-drive system grant razor-precise, confidence-inspiring handling, making this planing flybridge yacht as simple to maneuver in tight marinas as she is exciting on the open sea.

# DETAILED DESCRIPTION

---

## Introduction

---

2024 Azimut 78 Flybridge — “ANGEL”. Offered for sale with low engine hours and exclusively private use, ANGEL is a pristine example of the sought-after Azimut 78 Flybridge, fusing contemporary Italian styling with cutting-edge performance and technology. Built with a carbon fiber superstructure, she is powered by three Volvo IPS 1350 engines, each rated at 1,000 HP, reaching up to 33 knots and cruising comfortably at 26 knots, while Volvo’s IPS joystick system delivers smooth, precise handling and effortless close-quarters control. Inside, four luxurious en-suite guest cabins include a full-beam master, complemented by one crew cabin accommodating three crew members, an elegant salon with panoramic windows and designer furnishings, and a fully equipped galley featuring Miele appliances and a wine cooler. On deck and systems-wise, she benefits from a Seakeeper gyroscopic stabilizer, a hydraulic swim platform with tender lift, a hardtop with electric sunroof, a JL Audio premium sound system, teak decks throughout, tropical air-conditioning and a watermaker, plus third station cockpit controls. Twin 24 kW MASE generators ensure reliable power at anchor or underway. Tankage is generous, with fuel capacity of 5,000 L, fresh water at 1,100 L, and black and grey water tanks of 450 L each. Impeccably maintained and ready for immediate cruising, this Azimut 78 is located in Asia and available for private viewings by appointment, either in person or via live video.

## Standard and additional equipment overview

---

ANGEL’s navigation suite centers on a dual-screen Raymarine Axiom PRO installation with integrated GPS, chart plotter, radar, and autopilot, complemented by a Raymarine VHF with DSC and AIS for confident

communication and awareness. Command is intuitive through the Volvo IPS joystick with a digital engine management display, while third station cockpit controls expand operational flexibility. Precision low-speed maneuvering is further enhanced by a bow thruster with proportional control. Electrical architecture is engineered for autonomy and convenience, featuring a shore power connection with automatic battery chargers, twin 24 kW MASE generators, full LED lighting inside and out, touchscreen control panels for comprehensive system monitoring, and an inverter system with automatic battery switching. Mechanical systems are equally robust: three Volvo Penta D13 IPS 1350 engines, each rated at 1,000 HP, work in concert with a Seakeeper stabilizer for outstanding comfort underway and at anchor, supported by a tropical air-conditioning system and a high-capacity watermaker. A hydraulic swim platform with tender lift simplifies launch and retrieval, while electric trim tabs and dedicated engine room ventilation optimize running attitude and thermal management. The sound-insulated engine space underscores the yacht's refined acoustic comfort. The propulsion package is governed by Volvo's Electronic Vessel Control (EVC) with integrated diagnostics, delivering a top speed of 33 knots and a dependable cruising speed of 26 knots, backed by an automatic fire suppression system and a fully soundproofed engine room for safety and serenity. Lifestyle and deck amenities include teak decking across all exterior areas, a hardtop with electric sunroof for adaptable shade and breeze, a JL Audio premium sound system for immersive entertainment, and a galley fitted with Miele appliances and a wine cooler. For added confidence, the safety specification comprises an engine room fire suppression system FM200, manual fire extinguishers throughout, high-capacity bilge pumps with alarms, smoke and CO2 detectors in all major areas, a CE Category A certification safety gear package, and navigation and anchor lights compliant with international standards.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
