OVERVIEW

Built in 2025 and stretching 77 feet, this Sunseeker designed motor yacht marries dynamic capability with a serene, contemporary aesthetic. With a generous 19 foot beam, her proportions create an uncommon balance of interior volume and sleek profile, while an advanced fiberglass composite hull and planing underbody promise assured behavior underway and composed stability at rest. A shallow draft of roughly 5.6–6.6 feet invites exploration of hidden coves along the Turkish Riviera and beyond, making secluded anchorages readily accessible.

Propulsion comes from twin MAN inboard diesels that deliver lively performance wrapped in refinement: slip into a comfortable, effortless 26 knot cruise for long passages, or summon approximately 32 knots when the open sea beckons. The helm layout is crafted for intuitive, confident control, reflecting the yacht's emphasis on precision, ease and the unmistakable exhilaration of true performance boating.

Sunseeker's signature design language is evident throughout the interiors, where abundant natural light, clean lines and refined materials create an inviting, calm atmosphere. The salon offers panoramic views and carefully chosen textures that suit both relaxed mornings and intimate evenings, while a well appointed galley supports seamless entertaining. Accommodation is generous and sophisticated, with four luxuriously finished heads providing a superyacht level of comfort within a 77 foot platform.

Outdoor living is central to the experience: the aft cockpit is designed for lingering lunches and sunset gatherings; wide side decks lead forward to a sun drenched bow lounge ideal for quiet repose; and a broad swim platform forms a private terrace at the water's edge, welcoming effortless entry to the sea. Underfoot, durable fiberglass decks, premium fittings and meticulous craftsmanship underscore a commitment to comfort and longevity in every

detail.

With approximately 1,505 gallons of fuel and about 317 gallons of freshwater aboard, extended cruises are practical as well as pleasurable, enabling island hopping or swift coastal passages with confidence. Delivered new in Turkey and perfectly poised for the Mediterranean season, this planing motor yacht exemplifies the modern Express Cruiser: seductive lines, spirited speed and a composed, curated interior from Sunseeker's renowned design teams — the very definition of arriving in style.
