OVERVIEW

Delivered new in 2024, the Sunseeker 76 Naama is a luxury planing flybridge motor yacht and one of the newest listings on the brokerage market. Specified with twin Onan generators, a painted hardtop, tropical-spec air conditioning and a Morton parasol alongside numerous bespoke interior choices, she stands out as one of the most comprehensively equipped Sunseeker 76s launched to date. Inside, a contemporary palette is expressed through Silver Oak cabinetry complemented by the desirable Plan A layout, while the full-beam owner's suite is framed by expansive hull-side glazing and an ensuite finished in Minerva Calcutta White. Available for immediate delivery and lying on Turkey's southern coast, Naama is ready for private viewings at short notice.

DETAILED DESCRIPTION

Generators

A pair of Onan 27 kW generators with 1,200 hours on the clock furnish reliable, redundant electrical power to every onboard system, ensuring seamless, whisper-quiet performance both underway and at anchor.

Technical

Designed to deliver intuitive handling and uncompromised comfort, this yacht is equipped with tropical-specification air conditioning rated at 165,000 BTU, Sleipner hydraulic bow and stern thrusters of 23 hp and 20 hp respectively, and Sleipner fin stabilizers with zero-speed capability for calm cruising and secure anchoring. Precision helm control is provided by the Rexroth Marex OS 3D joystick paired with the Marex DP system, while extended autonomy is supported by an Idromar watermaker producing 125 lph, a Separ fuel polishing system, a Glendinning Cablemaster and a Victron inverter rated at 3 kW; an integrated oil change system services engines, gearboxes and generators for simplified maintenance. Anchoring and mooring are handled confidently by a Lewmar electric windlass capable of deploying a Delta 50 kg anchor on 12 mm chain up to 180 meters, assisted by two Lewmar electric capstans. Deck appointments have been selected for both style and functionality, including a Besenzoni gangway, a dedicated lift platform for the tender, five-blade propellers and Humphree flaps for optimized performance, and a striking black-painted hardtop on the flybridge topped with a retractable sunroof. Comfort and ambience are refined with an electric sun awning aft on the flybridge and a foredeck sun awning, dimmers for interior and exterior lighting, a platform overhead shower and two bar stools, while night-time presence is assured by Lumishore underwater lighting with eight lights aft and

two on each side.

Navigation and electronics

At the helm, three Simrad displays — two of which are positioned on the flybridge — furnish exceptional situational awareness, supported by a Simrad HALO radar with a 64 nm range, a Simrad AP44 autopilot, a Simrad NAIS500 AIS and a Simrad RS100 VHF radio to ensure confident navigation and passage-making. Depth and fish-finding data are delivered with precision by a Simrad IS42 sounder mated to an xSonic SS60 transducer, while a traditional compass and a full-boat monitoring system add reliable redundancy to the bridge electronics. Onboard entertainment and connectivity match the navigation suite in sophistication, with KVH satellite TV and Starlink for global reception, a Fusion exterior sound system paired with Sonos audio inside, a Samsung 55" HiLo television in the salon and a Samsung 55" television in the master cabin, supplemented by Apple TV and a 4G WiFi system for seamless streaming and connectivity.

Appliances

The galley and deck refreshment centers are luxuriously fitted with a Vittrifrigo DW360DT refrigerator matched to a DW360DT freezer and accompanied by a dedicated Vittrifrigo icemaker, while a Miele oven and Miele cooktop enable gourmet preparation and a dedicated wine cooler safeguards prized bottles. Routine cleanup is effortless thanks to a Miele dishwasher and an integrated Miele dishwasher/dryer combination. Alfresco dining on the flybridge is enhanced by a Kenyon grill alongside a Webasto refrigerator, and a dedicated wet bar houses its own fridge, coolbox and icemaker for seamless service. For extended cruising and immediate access to chilled provisions forward, two additional fridges are installed on the foredeck.

Toys, safety and exclusions

A Williams SportJet 395 tender is available for brisk transfers and a wide range of watersports, while life rafts affirm an uncompromising standard of safety at sea; a Morton Parasol provides elegant shade and enhanced comfort on deck. Any applicable exclusions will be supplied upon request.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
