OVERVIEW

The magnificent Sunseeker 76' Yacht embodies elegance and power, making a striking impression at first sight. Its streamlined hull, polished to a mirror-like sheen, radiates luxury and a sense of adventure. The deep V-shaped design is engineered to glide effortlessly through the sea, providing stability and confidence in any maritime conditions.

Aboard, you will find a seamless blend of light, space, and exquisite details. The smooth teak decks flow into stylish lounging areas, where plush seating invites you to savor the ocean breeze and sunsets. The flybridge presents panoramic views of breathtaking horizons, while the inviting jacuzzi is the ideal spot for evening relaxation under the stars.

Inside, you are greeted by a space of perfect harmony. The expansive salon is bathed in natural light streaming through large glass panels. Every detail—from the texture of the wood to the soft leather seating—has been carefully selected to offer comfort and inspiration. The opulent master suite provides a peaceful retreat, while the spacious VIP cabin offers a luxurious escape for guests you wish to impress.

This yacht is more than just a vessel; it is a beautifully crafted home on the water, where luxury and functionality blend seamlessly. It is designed for those who seek not only adventure but also unforgettable experiences, turning each journey into a story to be treasured.

The Sunseeker 76' is a tribute to the dream of boundless freedom, captured in the stunning and alluring form of modern yachting.

"Not for sale in US waters to a US resident."

DETAILED DESCRIPTION

Construction

The build of this yacht exemplifies precise craftsmanship and cutting-edge engineering. It boasts a hand-laid GRP framework, guaranteeing both strength and durability. The gel coat, adorned with refined stripes, lends an air of sophistication to its look. A vinyl ester skin coat with a powder-bound mat is applied, offering outstanding resistance to osmosis and extending the yacht's lifespan. The hull's bottom is constructed with a stitched multi-axial reinforced single-skin, delivering excellent stability and performance across diverse sea conditions. The hull's topsides are balsa-cored, achieving a design that is both lightweight and sturdy. The deck and superstructure are also cored, optimizing the balance between weight and strength. The hull is further fortified with longitudinal stringers, supported by transverse bulkheads and floors, ensuring remarkable rigidity and structural integrity. This construction method not only boosts the yacht's performance but also guarantees a smooth and comfortable journey on the water.

Deck

The deck of this yacht exemplifies exceptional craftsmanship and the use of premium materials, with all fittings made entirely from stainless steel. It features eight stainless steel deck cleats, ensuring secure mooring. The pulpit and cockpit rails, also crafted from stainless steel, offer both safety and elegance. The deck is further enhanced with stainless steel fendering, complete with a rubber insert for additional protection. At the bow, a stainless steel bow roller with an anchor stop and a stainless steel bow plate are installed, complementing the sturdy Delta anchor weighing 50kg, paired with a 60-meter, 12mm galvanized chain.

For ease of use, an electric bow winch and capstan are included, with controls accessible from the deck, cockpit, and flybridge, all powered by a 24v system. The chain locker is designed with space for fender storage, and a fender tie bar is conveniently located under the anchor locker lid. The foredeck offers ample storage lockers and comfortable seating, ideal for relaxation. Safety is prioritized with a curved safety glass windscreen and three pantograph windscreen wipers, complete with washers, powered by a 24 VDC system. Fuel fillers are strategically positioned on both the port and starboard sides, alongside a fresh water filler. The deck is equipped with MI CO navigation lights and a remote spotlight powered by 24v, ensuring visibility and safety. An ensign staff and socket are included, along with eight fenders and six warps for docking. The hull is treated with antifouling, providing protection and enhancing performance in the water.

Bathing platform

The bathing platform on this yacht seamlessly combines luxury with practicality, featuring a hydraulic lift system capable of supporting up to 550 kg. This design facilitates easy water access and simplifies the management of water toys or tenders. The platform and steps are elegantly finished with teak, adding a sophisticated touch while ensuring long-lasting durability. For added convenience, a hot and cold shower is available, ideal for rinsing off after a swim. The platform is fitted with a fresh water marina connection, guaranteeing a consistent water supply. Additionally, a dockside shore power connection is provided, ensuring dependable power when moored. Completing the arrangement is a stainless steel swimming ladder, ensuring safe and easy entry and exit from the water.

Flybridge

The flybridge of this yacht seamlessly combines practicality with luxury, offering an elevated experience on the water. Accessible via a hatch and stairs from the cockpit, the flybridge is designed to be self-draining, ensuring a dry and secure environment. An acrylic spray screen shields against the elements, while twin helm seats provide a commanding view and comfort for both the captain and co-pilot. The hydraulic steering system, along with duplicate engine controls and instrumentation, ensures precise handling and control. Additionally, duplicate autopilot controls, a second station radar/chart plotter, VHF, magnetic compass, rudder indicator, and trim tab control are all within easy reach, enhancing navigational capabilities.

The flybridge features two seating groups, perfect for socializing and relaxation. A folding teak table on a stainless steel leg provides a convenient space for dining or enjoying drinks. Instrument covers protect the equipment, while stainless steel guard rails and grab rails ensure safety. Glass holders are thoughtfully placed on either side of the sunbed and console, adding to the convenience. The wet-bar is equipped with hot and cold water, a refrigerator, ice maker, top-loading cool box, and griddle, making it ideal for entertaining. Low-level LED lighting and additional LED lighting under the radar arch create an inviting ambiance, perfect for evening gatherings.

Aft cockpit

The aft cockpit of this yacht is crafted with a focus on both style and functionality, featuring a teak-laid floor that exudes sophistication while being self-draining for effortless upkeep. A partially molded staircase with teak steps leads to the flybridge, seamlessly connecting the yacht's various levels. The cockpit includes a refrigerator, ensuring that refreshments are always at hand. Stern seating offers a comfortable area for relaxation, while stern safety gates

provide added security.

Access to the engine room is conveniently available through a hatch in the cockpit. For easy docking, the cockpit is equipped with two stern capstan winches powered by a 24v system, along with fairleads and rope lockers for efficient line management. Entertainment is enhanced with speakers in the cockpit, and the area is well-illuminated with overhead lights and low-level courtesy lights, both powered by 24v. A teak table with a folding top, mounted on a stainless steel leg, provides a versatile space for dining or socializing, making the aft cockpit a perfect combination of elegance and practicality.

Main helm console

The main helm console of this yacht serves as a center of cutting-edge technology and comfort, crafted to elevate the captain's experience. On the port side, an observation area with a seating group offers a cozy spot for guests to enjoy the voyage. The helm seats are upholstered for extra comfort, ensuring a pleasant navigation experience. The console itself boasts gloss black fascia panels, presenting a sleek and contemporary look, while the leather-trimmed chrome steering wheel and hydraulic power steering provide precise control and effortless handling.

Outfitted with a radar/chart plotter with GPS, the helm console guarantees precise navigation and situational awareness. The autopilot system further simplifies long-distance cruising. An electronic speed and depth sounder, along with a VHF radio with DSC, deliver essential information and communication capabilities. Engine instrumentation is clearly displayed, and a touch screen monitoring panel offers intuitive control over various systems. Trim tab controls, a compass, and a horn are all within easy reach, ensuring a seamless navigation experience.

Additional features include switch panels, windscreen wipers with washers, and a 12v socket for added convenience. Glass holders and a double AC socket

are thoughtfully included, catering to the needs of the captain and crew. Safety is prioritized with a hand-held fire extinguisher readily available. A side opening door to the side deck provides easy access, enhancing the functionality and versatility of the main helm console.

Saloon

The saloon of this yacht is an opulent and welcoming area, crafted for both relaxation and entertainment. It boasts a flush stainless steel glazed sliding door that opens to the aft cockpit, effortlessly merging indoor and outdoor spaces. The saloon is fitted with air conditioning, ensuring a pleasant atmosphere in any weather. A 55" television offers a cinematic experience, enhanced by a Blu-ray/CD/DVD player, sound bar, and sub-woofer for superior sound quality.

The interior is elegantly furnished with a coffee table and ottoman, creating a cozy environment for socializing or unwinding. LED overhead lighting powered by a 24v system brightens the space, while two table lamps provide a warm glow. For added convenience, there are two double AC sockets available. Scatter cushions add comfort and style to the seating area.

Owners can select from a range of interior finishes and veneers, allowing for a personalized touch. The saloon is completed with fitted carpet, enhancing the overall elegance and comfort of the area.

Dining

The dining area of this yacht is crafted to provide a roomy and sophisticated environment for formal dining and social gatherings. It includes a large dining table with eight chairs, offering plenty of space for guests to enjoy meals in comfort and style. The area is thoughtfully lit with LED overhead lighting powered by a 24v system, creating a warm and welcoming ambiance. For

added convenience, two double AC sockets are available, ensuring easy access to power for any additional requirements. The dining space is finished with fitted carpet, enhancing the overall elegance and comfort of the area. Access stairs to the lower decks are conveniently situated, allowing for smooth movement throughout the yacht.

Galley

The galley of this yacht is comprehensively outfitted to satisfy all culinary requirements, combining practicality with elegance. It includes a refrigerator and freezer, providing ample space for storing fresh and frozen items. The 4-burner ceramic hob and microwave oven offer a range of cooking possibilities, while the extractor fan keeps the air fresh. A stainless steel sink with hot and cold water ensures ease during meal preparation and cleaning. The galley also features a dishwasher, simplifying the cleanup process after meals.

For dining, an 8-place set of crockery and cutlery is available, along with 8 champagne flutes and 8 whisky glasses, suitable for both casual and formal settings. Two double AC sockets are provided for additional appliances or devices. Safety is emphasized with a hand-held fire extinguisher and a first aid kit within easy reach. A rubbish bin is also included, keeping the galley neat and organized. This well-equipped space is designed to elevate the dining experience on board, making meal preparation and enjoyment at sea a true delight.

VIP Forward Stateroom

The VIP forward stateroom is a lavish sanctuary crafted to deliver both comfort and sophistication. It boasts a generous double berth with convenient drawer storage underneath, offering plenty of room for personal items. A wardrobe

provides additional storage, ensuring the space remains tidy and organized. The stateroom includes a dressing table with a mirror and stool, creating an ideal spot for personal grooming.

The room is illuminated by LED overhead lights powered by a 24v system, and it also features two reading lights for added convenience. Two panoramic windows with opening ports and blinds allow natural light to fill the space, while a deck hatch with a screen provides extra ventilation. For entertainment, a 43" television and sound bar are included, ensuring a premium viewing experience.

The stateroom is equipped with air conditioning, maintaining a comfortable temperature regardless of the climate. Two double AC sockets are available for powering devices. A door leads to the en-suite toilet and shower, offering privacy and convenience. The room is finished with fitted carpet, enhancing the overall warmth and comfort of the space. This stateroom is designed to offer a tranquil and luxurious experience for guests.

VIP En Suite Shower Room

The VIP en suite shower room is crafted to deliver a private and opulent experience, equipped with all the essential amenities for comfort and ease. It includes an electric toilet, providing modern convenience and straightforward operation. The washbasin is paired with elegant taps and a soap dispenser, while a toothbrush and glass holder enhance the room's practicality. A towel ring with towels ensures that everything you need is within easy reach.

The room features a mirrored vanity unit, offering generous storage and a touch of sophistication. A separate shower compartment provides a dedicated area for invigorating showers, complemented by an extractor fan that keeps the atmosphere fresh. The space is illuminated by an LED overhead light powered by a 24v system, creating a bright and inviting environment.

An opening porthole with a mosquito screen and blind allows for natural light and ventilation while maintaining privacy. For added convenience, a razor socket compatible with both 240v and 110v is available, accommodating various grooming needs. This en suite shower room is thoughtfully designed to provide a tranquil and comfortable retreat.

Aft Master Stateroom

The aft master stateroom is an opulent retreat crafted to deliver unparalleled comfort and elegance. It boasts panoramic windows with opening ports and blinds, offering stunning views and natural light while ensuring privacy. The room is centered around a generous double berth, complete with under-berth drawers and storage for personal items. Bedside cabinets provide additional storage and convenience.

A fixed settee offers a cozy seating area, while a dressing table with a mirror and stool creates an ideal space for personal grooming. The stateroom is illuminated by LED overhead lights powered by a 24v system, complemented by a table lamp and two reading lights for added convenience. Two double AC sockets are available for powering devices.

Entertainment is well-provided with a 55" television, Blu-ray player, sound bar, and sub-woofer, ensuring a premium audio-visual experience. The room is equipped with air conditioning, maintaining a comfortable temperature in any climate. Two wardrobes offer ample space for clothing and accessories.

Doors lead to the en-suite toilet and shower, providing privacy and convenience. The stateroom is finished with fitted carpet, enhancing the overall warmth and elegance of the space. This master stateroom is thoughtfully designed to offer a tranquil and luxurious retreat for its occupants.

Master En Suite Shower Room

The master en suite shower room is an elegant and well-equipped space, crafted to deliver both luxury and practicality. It includes an electric toilet, offering modern convenience and ease of use. The room features two washbasins, each with stylish taps and a soap dispenser, providing ample space for personal grooming. A toothbrush and glass holder enhance the functionality of the area, while a towel ring with towels ensures everything you need is within easy reach.

A separate shower compartment provides a dedicated area for invigorating showers, complemented by an extractor fan that keeps the atmosphere fresh and comfortable. The room is illuminated by an LED overhead light powered by a 24v system, creating a bright and inviting environment. For added convenience, a razor socket compatible with both 240v and 110v is available, accommodating various grooming needs. This en suite shower room is thoughtfully designed to offer a tranquil and luxurious experience, making it an ideal addition to the master stateroom.

Starboard Guest Cabin

The starboard guest cabin is a cozy and inviting space crafted to offer guests a relaxing haven. It includes a double berth with handy drawers underneath, providing ample storage for personal items. Bedside units enhance functionality, offering extra space for essentials. A dressing table with a stool is provided, creating an ideal spot for personal grooming.

The cabin is lit by LED overhead lights powered by a 24v system, along with two reading lights for added convenience. A wardrobe provides generous storage for clothing and accessories. An opening porthole with a mosquito screen and blinds allows natural light and ventilation while maintaining privacy.

For entertainment, a 32" television is included, ensuring guests can enjoy their favorite shows or movies. The cabin is equipped with air conditioning, maintaining a comfortable temperature in any climate. Two double AC sockets are available for powering devices, ensuring guests have everything they need for a pleasant stay. This guest cabin is thoughtfully designed to provide a serene and comfortable environment for all who stay.

Starboard En Suite Shower Room

The starboard en suite shower room is a thoughtfully crafted space that blends functionality with comfort, ensuring a delightful experience for guests. It includes an electric toilet, offering modern convenience and ease of use. The wash basin is fitted with stylish taps and a soap dispenser, while a toothbrush and glass holder enhance the practicality of the area. A towel ring with towels is conveniently positioned, ensuring everything needed is within easy reach.

The room features a mirrored vanity unit, providing both storage and a touch of sophistication. A separate shower compartment offers a dedicated area for invigorating showers, complemented by an extractor fan that keeps the atmosphere fresh. The space is illuminated by an LED overhead light powered by a 24v system, creating a bright and inviting environment.

An opening porthole with a mosquito screen and blind allows for natural ventilation and light, while maintaining privacy. For added convenience, a razor socket compatible with both 240v and 110v is available, accommodating various grooming needs. This en suite shower room is thoughtfully designed to provide a tranquil and comfortable retreat for guests.

Port Guest Cabin

The port guest cabin is a warm and inviting space crafted to ensure guests enjoy a comfortable stay. It includes two single berths, each with storage

underneath, providing ample room for personal items. The cabin is equipped with two reading lights powered by a 24v system, allowing guests to enjoy a book or relax with ease. A wardrobe with a mirrored door offers additional storage and adds a touch of sophistication to the room.

The cabin is illuminated by LED overhead lights, creating a bright and welcoming atmosphere. An opening porthole with a mosquito screen and blind allows for natural light and ventilation while maintaining privacy. A double AC socket is available for powering devices, ensuring guests have everything they need for a pleasant stay.

For entertainment, a 24" television is provided, allowing guests to unwind with their favorite shows or movies. The cabin is equipped with air conditioning, maintaining a comfortable temperature in any climate. This guest cabin is thoughtfully designed to offer a serene and comfortable environment, making it an ideal retreat for those on board.

Port En Suite Shower Room

The port en suite shower room is a well-equipped area crafted to deliver both convenience and comfort. It includes an electric toilet, offering modern ease of use. The washbasin is fitted with stylish taps and a soap dispenser, while a toothbrush and glass holder enhance the practicality of the space. A towel ring with towels is conveniently positioned, ensuring everything needed is within easy reach.

The room features a mirrored vanity unit, providing both storage and a touch of sophistication. A separate shower compartment offers a dedicated area for invigorating showers, complemented by an extractor fan that keeps the atmosphere fresh. The space is illuminated by an LED overhead light powered by a 24v system, creating a bright and inviting environment.

An opening porthole with a mosquito screen and blind allows for natural

ventilation and light, while maintaining privacy. For added convenience, a razor socket compatible with both 240v and 110v is available, accommodating various grooming needs. This en suite shower room is thoughtfully designed to provide a tranquil and comfortable retreat for guests.

Crew Cabin

The crew cabin is a well-conceived space that merges practicality with comfort, ensuring a pleasant stay for the crew. Accessible via an entrance door from the bathing platform, the cabin includes a double berth, offering ample sleeping space. A wardrobe and storage lockers provide plenty of room for personal belongings, keeping the area neat and organized.

Natural light fills the cabin through a stern window with a blind and an opening porthole equipped with a mosquito screen and curtain, allowing for ventilation while maintaining privacy. The cabin is illuminated by LED overhead lighting powered by a 24v system, complemented by reading lights for added convenience. A double AC socket is available for powering devices, and the cabin is equipped with air conditioning to maintain a comfortable temperature. For added convenience, a washer dryer is included, making laundry tasks easy and efficient. The cabin also features a separate shower with hot and cold water, ensuring a refreshing experience. An electric toilet with a holding tank provides modern convenience, and a shaver socket compatible with both 240v and 110v caters to various grooming needs. This crew cabin is designed to offer a comfortable and practical retreat for the crew, enhancing their onboard living experience.

Engine Compartment and Ancillaries

The engine compartment and its ancillaries on this yacht are carefully crafted to guarantee peak performance and safety. The area is soundproofed to

reduce noise, creating a quieter atmosphere on board. Aluminum fuel tanks with electric sender units ensure dependable fuel storage and monitoring. The engines and generator(s) are safeguarded by fuel filters and water separators, providing a clean fuel supply for efficient operation.

The compartment includes both manual bilge and automatic flood pumps with high-level alarms powered by a 24v system, enhancing safety by alerting the crew to potential water ingress. Generator exhaust silencers and water separators, along with engine exhaust dry risers and water injection, ensure efficient and quiet operation. Strainers are installed on all raw water inlets to prevent debris from entering the system.

The yacht features hydraulic control systems for power steering, the lifting platform, and trim tabs, all powered by a 24v system, ensuring smooth and responsive handling. Air intakes are equipped with emergency shutdown flaps that operate automatically, while air distribution fans and air extraction fans with shutdown dampers maintain optimal ventilation. An exhaust gas temperature sensor is included to monitor engine performance and prevent overheating. This comprehensive setup ensures that the engine compartment operates efficiently and safely, providing peace of mind for those on board.

Electrical System

The electrical system of this yacht is meticulously crafted to ensure dependable and efficient power management across the vessel. It includes a slow-speed generator with an underwater silent exhaust and sound box, guaranteeing quiet operation with minimal disturbance. The shore power dockside connection facilitates seamless integration with external power sources, while a galvanic isolator shields the yacht from electrical corrosion.

The yacht is equipped with both 24v and 12v electrical systems, featuring fuel circuit breaker protection for enhanced safety. The 24v circuit comprises eight starter batteries and six domestic batteries, providing ample power for all

onboard systems. An alternator split charging system efficiently handles battery charging, while remote battery switches, controlled from a locker in the cockpit, offer convenient power management.

A battery charger is dedicated to maintaining the 24v circuits, ensuring consistent power availability. The AC water heater supplies hot water throughout the yacht, and AC sockets are strategically positioned for easy access to power. Additionally, a 24v hand light and cable are included, offering portable lighting solutions when needed. This comprehensive electrical system is designed to support all the yacht's power needs, ensuring a comfortable and uninterrupted experience on the water.

Underwater Gear

The underwater gear of this yacht is designed for peak performance and durability, ensuring smooth and efficient navigation. The yacht features a direct shaft drive through tunnels, enhancing propulsion efficiency and reducing drag. It is equipped with 5-blade nickel aluminum bronze propellers, renowned for their strength and corrosion resistance, delivering reliable thrust in various sea conditions.

Supporting the propellers are bronze P-brackets and Temet 52 stainless steel propeller shafts, offering exceptional strength and longevity. The dripless shaft logs come with spare seals, minimizing maintenance and ensuring a watertight seal. High-performance bronze rudders and struts contribute to precise steering and stability.

The yacht is fitted with seawater strainers for the two main engines and one generator, ensuring clean water intake and protecting the systems from debris. Seacocks are installed on all underwater fittings, providing safety and control. A full cathodic bonding system with aluminum anodes protects the underwater metal components from corrosion.

For enhanced maneuverability, the yacht is equipped with a 24v bow thruster, allowing for precise docking and handling in tight spaces. Stainless steel hydraulic trim tabs, also powered by a 24v system, provide additional control over the yacht's balance and performance. This comprehensive underwater gear setup ensures that the yacht operates efficiently and safely in all conditions.

Systems

The systems on this yacht are carefully crafted to ensure smooth operation and comfort for everyone on board. The hydraulic power steering, driven by a 24v system, offers smooth and responsive handling, enhancing the overall navigation experience. The electric toilet system, featuring an integral macerator, runs on a 24v system and allows for discharge either overboard or into a black water tank. The black water tank can then be emptied dockside or overboard, ensuring convenience and adherence to environmental standards. A polyethylene fresh water tank with an electric sending unit guarantees a reliable supply of fresh water, while an aluminum fuel tank with an electric sending unit ensures efficient fuel management. The water pressure system, powered by 24v, provides consistent water flow throughout the yacht. Hot water is supplied by a tank with an AC immersion heater, ensuring comfort for all guests.

Washbasins, showers, and air conditioning units drain into a sump box, which automatically discharges overboard via a 24v system, maintaining cleanliness and efficiency. The air conditioning system features reverse cycle AC, offering both cooling and heating options to maintain a comfortable climate in any weather.

The bilge pumping system, powered by 24v, keeps the yacht dry and safe, while the manual/automatic fire extinguishing system is integrated with engine, generator, and fan shutdowns for enhanced safety. Hydraulic trim tabs

and a lifting platform, both powered by 24v, provide additional control and functionality, ensuring a smooth and enjoyable voyage.

Miscellaneous

The yacht is outfitted with a variety of miscellaneous items that boost both functionality and convenience on board. A comprehensive toolkit is included, ensuring you have the necessary tools for any maintenance or repair tasks that may arise during your journey. For docking and mooring, the yacht is equipped with a boat hook and six mooring warps, providing secure and reliable options for tying up at any port.

To protect the yacht's exterior, eight fenders are supplied, offering essential cushioning against docks and other vessels. Additionally, the yacht is stocked with eight sets of towels, ensuring that all guests have access to fresh and comfortable linens throughout their stay. These miscellaneous items are thoughtfully chosen to enhance the overall yachting experience, providing peace of mind and comfort for everyone on board.

Optional Extras

The yacht presents an impressive selection of optional extras crafted to enhance comfort, functionality, and entertainment on board. The flybridge features a composite hardtop with an electric retractable center canopy and an aft electric awning, offering shade and protection from the elements. The Sleipner stabilizer vector fin system ensures a smooth and stable ride, while the hydraulic telescopic gangway in stainless steel with teak treads provides easy access to the vessel.

Interior and exterior lighting is enhanced with dimmer switches and low-level LED side deck lights, with ten lights per side. A second 27kW generator with Glendinning Cablemaster ensures ample power supply, and the flybridge is

finished with teak decking for a touch of elegance. For added convenience, a pair of retractable cleats for the tender on the platform and an additional pair of aft spring mooring cleats are included.

The yacht is equipped with two drawer refrigerators under the bow sunbeds and a wine cooler in the galley, ensuring refreshments are always at hand. A fresh water deck wash system and a large grey water storage tank option provide additional utility. Security is enhanced with a safe featuring a digital lock in both the master stateroom and the forward VIP cabin.

The main console navigation system includes Simrad IS42 speed/depth instruments, a Simrad AP44 autopilot system, and two 19" Simrad MO19T displays, among other advanced features. The flybridge console is similarly equipped with Simrad navigation technology, ensuring precise and reliable navigation.

The yacht's entertainment package is upgraded with a performance AV package, featuring Samsung UHD Smart TVs, Blu-ray players, and Sonos-powered sound systems throughout various cabins and zones, including the aft cockpit, flybridge, and foredeck. An entertainment inverter and seamless transfer system allow the entertainment system to run from the yacht's DC batteries.

Additional features include a stainless steel dual voltage Vitrifrigo refrigerator, a Vitrifrigo stainless steel ice maker in the cockpit, and a marine electric BQ grill on the flybridge. The yacht is also equipped with stern docking lights, underwater lights, and chrome heated towel rails in the master, forward, starboard, and port toilet compartments.

For added luxury, the yacht includes a water maker, stainless steel flybridge stern rails with acrylic dodger screens, and a platform overhead shower. Safety is prioritized with two life-raft 10-man canisters stowed in stainless steel frames on the flybridge railings. The yacht is anchored securely with a Lewmar 50Kg Delta galvanized anchor and 90 meters of 12mm galvanized anchor

chain.

The exterior is enhanced with Spradling Hitch premium upholstery, a wet bar with LED lights, and teak forward side decks. The interior features a smoked eucalyptus figured high sheen satin finish, with key locks for the cabin doors in the forward and master cabins. Optional arrangements include manual pleated blackout blinds in the master cabin and a storage unit to match the port side.

The yacht is prepared for export with movement to the port of shipment and necessary paperwork. A Class XII safety kit for eight persons is included, with the option to modify it to suit the vessel's use and location. These optional extras are designed to elevate the yachting experience, providing unparalleled comfort, convenience, and style.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
