DETAILED DESCRIPTION

Main salon

The main salon is a study in contemporary comfort, anchored by an L shaped leather sofa to starboard with a removable ottoman that cleverly creates an additional aft section when desired, and balanced by a leather loveseat to port, while a glass top coffee table sits over rich wood flooring creating an elegant gathering space. Flanked to port by a double low storage unit and matched by storage cabinets to port and starboard with elegant glass stowage, the layout pairs generous stowage with refined surfaces. Daylight pours in beneath an electrically hydraulically operated panoramic sunroof with an electric blind, complemented by Roman blinds on every window and tie back drapes at the salon door for nuanced light control, and by evening tailored LED lighting sets a refined mood. Entertaining is effortless at the wet bar with a marble countertop, sink, icemaker and refrigerator, while the integrated entertainment suite centers on a Samsung 55" LED TV on a hi/lo lift supported by dual KVH Sat TV with auto switch system, an HR24 HD Satellite DSS receiver/DVR, Sonos audio, Apple TV and the Bose Lifestyle SoundTouch 535 system feeding five Bose Mini Jewel speakers. Every element is considered, every surface impeccably finished, and every convenience close at hand to make social life aboard both graceful and effortless.

Galley

Designed for convivial dining and serious culinary work, the galley pairs an L shaped leather dinette with useful under seat storage, a glass dining table and four chairs, creating an inviting space for both casual breakfasts and formal dinners. The culinary lineup features premium Miele appliances including a refrigerator/freezer, a four burner glass ceramic range with an

upgraded professional hood extraction vented overboard, a microwave/convection oven and a dishwasher, joined by a dedicated wine cooler to keep vintages at the ready. Natural light filters through a plexiglass skylight onto Silestone countertops, high gloss cabinetry and warm wooden flooring, while a single extra large, deep stainless steel sink with stainless steel pot holders handles prep with ease and an under floor finished pantry discreetly expands storage for extended cruising.

Master stateroom

The master stateroom is a private sanctuary centered on a king berth with an innerspring mattress and generous storage below, framed by an upholstered leather headboard and nightstands that combine comfort with meticulous finish. High gloss Zebrano cabinetry and furnishings bring a tailored sheen throughout, while a starboard vanity/lounge creates a serene retreat with two sofas facing each other, a central vanity table and a matching starboard chest of drawers topped in glass. Entertainment is first class with a Samsung 55" LED TV, DSS satellite receiver, Bose 535 surround sound, Apple TV and Sonos audio, and side windows with opening portholes invite sea air to enliven the space. Practical needs are met by a walk in closet and a built in safe, while the private bath is indulgent yet purposeful with a Tecma head, smoked glass sink, medicine cabinet, glass vanity top and a shower featuring a marble column insert, a glass door and a wood laminate floor.

Vip guest stateroom

Beautifully appointed for favored guests, the VIP stateroom offers a double berth with storage beneath, set against an upholstered leather headboard and surrounded by high gloss Zebrano cabinetry that elevates the space. To port, a fold away vanity table disappears when not in use, while two wall units with

doors, a wardrobe closet and two storage columns beside the headboard with integrated wall lighting keep everything elegantly organized. Panoramic windows to port and starboard are complemented by two round openable portholes and an emergency hatchway provides direct egress to the bow. Entertainment comes courtesy of a Samsung LED TV with satellite TV, Apple TV and Sonos audio, and the private bath features a Tecma head, marble sink, medicine cabinet, glass vanity, shower enclosure with a glass door, a porthole with blinds and resilient wood laminate flooring.

Twin guest stateroom, stbd

On starboard, the twin guest stateroom offers flexible accommodations with twin berths featuring storage below that can convert to a king berth with a filler, and an additional drop down Pullman berth for extra capacity, making it ideal for families or varied guest arrangements. High gloss Zebrano cabinetry, a nightstand between the berths with a wall light, and an upholstered leather headboard create a polished atmosphere, while a wall unit with a door and a wardrobe with a mirrored door provide ample stowage. Natural light flows through a panoramic window and porthole with blinds, and entertainment is assured with a Samsung 24" LED TV, satellite receiver, Apple TV and Sonos audio. The private head includes a Tecma head, glass sink, medicine cabinet, shower with a glass door, a porthole and durable laminated flooring for comfort and convenience.

Twin guest stateroom, port

To port, the twin guest stateroom mirrors the yacht's refined aesthetic with twin berths and storage below, high gloss Zebrano cabinetry, a nightstand between the berths with a wall light and an upholstered leather headboard that together create a cohesive, inviting cabin. A wall unit with a door and a

wardrobe with a mirrored door handle personal effects with ease, while a panoramic window and porthole with blinds frame the view and admit natural light. Guests enjoy a Samsung 28" LED TV with an HD DSS receiver, and in the private head a Tecma head, glass sink, medicine cabinet, shower with a glass door, porthole and laminated flooring ensure comfort equal to the surroundings.

Crew quarters

Purpose built for professionalism and privacy, the crew quarters are accessed from the port walk around via a pantograph door in the deckhouse, with stairs leading down over wood flooring to a compact, efficient layout. The captain's cabin features a single berth, storage, a closet, porthole, Samsung 19" TV, HD DSS receiver, Fusion stereo and JL speakers, while the crew cabin is likewise equipped with a Samsung 19" TV, Fusion stereo and JL speakers to ensure communications and downtime are well supported. A dedicated crew head includes a shower with a plexi door, and for shipshape operations a Miele washer and dryer with custom venting streamline laundry and turnaround, preserving both privacy and professionalism underway.

Lower helm station, electronics

At the lower helm, a semi automatic pantograph door grants swift access to the starboard side walkway, while dual Treben electric leather helm chairs face an adjustable leather wheel and Azimut tilt wheel, with an emergency panel close to hand to prioritize control and safety. The integrated Raymarine Platinum Volvo Package includes an open array SHD digital radar feeding two Raymarine GS165 displays for radar, fishfinder and plotter functions, complemented by a Volvo Penta 7" color monitoring system for engine and systems oversight. Precision control comes via the Volvo Penta autopilot, a

dedicated Volvo autopilot interface, Volvo Penta controls with joystick docking and cruise control, Volvo Dynamic Positioning System, Volvo interceptor trim tab controller with auto mode and a separate Volvo cruise control selection, while navigation aids include a Ritchie 4" compass, windshield wiper controls and a Raymarine VHF radio. LED lighting, fire suppression override and a Naviop systems monitor and control unit enhance safety and oversight, two Seakeeper gyro controls sit alongside bow thruster control, Volvo engine throttles and the Volvo joystick, and entertainment and situational awareness benefit from a KVH TracVision HD7 TV Sat system, chain counter control, searchlight control and a Mac mini computer with hard drive to weave data and comfort into a single, confident command center.

Flybridge electronics, equipment

Ascending from the cockpit via a steel stairway, the flybridge reveals custom wrap around seating surrounding a polished wood cocktail table beneath a custom Bimini top, an alfresco environment designed for hours of conviviality. Two helm chairs with covers face a comprehensive Volvo Platinum electronics suite featuring Volvo Penta autopilot, Volvo DPS, Volvo interceptor tabs in auto mode, Volvo cruise control, Raymarine Tri Data and Naviop, with tactile Carling switches and a Volvo Penta maneuvering joystick plus a secondary Volvo Penta joystick at hand for precise handling. An adjustable steering wheel, horn and navigation lights, VHF station, compass, chain meter and TV video to Raymarine round out the helm, while entertaining on deck is effortless with a Fusion stereo system driving JL Audio and Sonos audio, supported by Sirius/XM radio and a Wave WiFi antenna. Teak decks underfoot, stainless steel handrails and grabrails and a sunbed cushion along the instrument console with its protective cover complete an alfresco bridge that is as capable as it is inviting.

Cockpit, garage, tender

A seamless connection to the sea begins with steel and glass sliding doors to the salon and a generous stern sunpad with cushions, facing a cockpit sofa with backrest, cushions and covers that invites relaxation. A steel framed stairway with teak treads leads to the sundeck while two plexiglass aft gates and two launching/retrieving warping winches with recessed controls manage the quarters with ease, complemented by a locker beneath the sundeck and a separate steel framed stairway with teak steps up to the flybridge. Thoughtfully placed LED lighting with dimmers and outdoor JL speakers create ambiance, the wet bar features a sink, fridge and an icemaker connection for auto fill, and secure engine room access with lock and Aqua Eye enhances safety. Shade arrives at the touch of a button via the electric retractable sunshade, teak decks extend throughout with teak steps down to the platform and grab rails, and an electro hydraulic fold away gangway and a pivoting electro hydraulic garage door convert to a spacious swimming platform. Mooring for the tender is integrated alongside a hauling and launching winch system for the tender and jet ski, and after a swim hot and cold shower options, a foldaway swim ladder and shore power sockets add convenience while Sonos audio carries your soundtrack across the teak. Tenders and toys include a Williams Turbojet 385 inflatable, two kayaks and two paddleboards to elevate every anchorage into your private resort.

Bow and deck equipment

Forward, a Delta 50 kg anchor rests in a stainless steel anchor holder ahead of a double chain locker with drainage and a dedicated fender compartment, managed by anchor winch and chain wash pump controls to ensure reliable anchoring. Stainless steel mooring line gear and two stainless steel chocks partner with two stainless steel grab rails while teak walkways and side

walkways with teak decks provide secure footing. Comfort at the bow is assured with an electric folding Bimini top shading the seating around a coffee table, bow dinette cushions with covers and matching bow sunbed cushions with covers, complemented by two plexiglass cup holders. Practicality is built in with an emergency exit hatch from the VIP stateroom to the bow, a windscreen wiper system, side net window and windscreen covers and a stainless steel pulpit with fiberglass disembarking side doors. Nighttime allure comes from LED underwater lights, and freshwater washdown connections are available both forward and along the decks. The hull gleams in Urals Grey, and movement around the yacht is simplified with a Marquipt Tide Ride boarding ladder, a watertight side door leading down to the crew cabin to port and a watertight side door giving pilothouse access to starboard, plus bosun's lockers for storage to port and starboard. For entertainment, Fusion stereo, Sonos audio and JL speakers bring sound to the bow and the beach area.

Electrical equipment

Robust electrical capacity underpins every journey with two 28 kW generators, two 230 V, 50 A shore power sockets and two 230 V, 50 A shore power extension cables to simplify marina connections. Energy storage is comprehensive with ten AGM 24 V batteries and six additional AGM 24 V batteries dedicated to the main engines, maintained by three Mastervolt 24 V battery chargers to ensure consistent power management. Cable handling is effortless with two Glendinning Cablemasters, while a Mastervolt 24 V converter and a Newmar DC converter ensure clean, reliable power throughout, and vigilance is constant with the Aqua Eye monitoring alarm system.

Engines & machinery

Performance and poise come from triple Volvo Penta D13 Common Rail main engines delivering a combined 2700 HP through Volvo Penta IPS 1200 marine gears with a 1.88 reduction ratio, driving six IPS Q4 four bladed propellers for decisive thrust and efficiency. Close quarters confidence is assured with an 11.2 kW, 24 V bow thruster, while two Seakeeper gyro stabilizers, supported by large generators, tame the sea for exceptional comfort underway and at anchor. Reliability is engineered in with dual Racor fuel filters for the main engines, an electro hydraulic pump serving the gangway, garage door and electric sunroof, and a Condaria air conditioning system delivering a total of 144,000 BTU throughout the yacht. Safety is comprehensive with five 24 V bilge pumps, two Seafire FD900 fixed extinguishing systems, two fire hoses positioned forward and in the cockpit and nine handheld fire extinguishers.

Overview

Built to U.S. specifications, PANDA distinguishes herself with a host of custom upgrades, most notably an innovative propulsion configuration delivering 2700 HP from the Volvo IPS package paired with two SeaKeeper gyros for remarkable stability and refinement. The experience is elevated by a custom folding Bimini top, two Seakeeper/gyro controls for intuitive stabilization management and custom flybridge seating that invites lingering afternoons under way or at anchor, while a custom sound system envelops the entire yacht and dual KVH Sat TV with auto switch ensures seamless entertainment. Practical enhancements include sound deadening for the freshwater pump, the Aqua Eye monitoring alarm system for peace of mind, a custom Marquipt Tide Ride boarding ladder for effortless embarkation and extra LED lighting in the engine room to illuminate every inspection. PANDA is, in every respect, the thoughtful evolution of performance yachting.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
