OVERVIEW

A rare chance to acquire a Posillipo Technema 85 lying in Greece, the 85-foot motor yacht Princess Areen was delivered in 2007 and has remained in private ownership, meticulously maintained from her first day afloat. After advising on her purchase in 2021, we are pleased to re-present her to the market following a fresh repaint in 2025 and refined interior updates. Inside, light satin elm joinery flows throughout, set off by parquet flooring, luxurious leather settees and a convenient day head, while accommodation comprises four guest cabins, each appointed with its own ensuite. Outside, full-teak decks form elegant alfresco living areas and the generous flybridge of this flybridge motor yacht is equipped with a barbecue, a bar, a mini bar and a sink. A polished 85 foot luxury motor yacht with genuine superyacht allure and proven Mediterranean cruiser credentials, she is currently in the shipyard and available for inspection; enquiries are warmly welcomed.

DETAILED DESCRIPTION

Interiors

On the main deck a spacious salon welcomes guests with a supple leather sofa and a refined TV and bar corner anchored by a 43" Samsung Smart TV, Sky decoder HD, a Bose sound system and a D-Link Wi-Fi repeater, while the adjacent dining area, arranged around a table for eight, sits opposite a convenient day head that makes entertaining effortless. The galley is set apart from the lounge and accessed via a practical double entrance; it is comprehensively fitted with Miele appliances including an electric oven, fridge and freezer, a six-zone ceramic hob, a dishwasher and a combined washing and dryer machine, ensuring culinary ease on every passage. Forward, the helm station features an integrated chart table and an adjacent crew dinette for seamless operations, and the forward crew cabins benefit from a private entrance and en-suite facilities for discretion and comfort. Descending to the lower deck reveals serene sleeping quarters: four guest cabins each with a private bathroom, LCD TVs and CD/MP3 players, comprising a spacious amidships full-beam master double cabin, a forward VIP double cabin, a versatile triple guest cabin with a French bed and a third fold-away bed, and a well-proportioned twin guest cabin.

Equipment

The yacht's navigation suite is specified for confident passagemaking, centred on a comprehensive Simrad electronic fit installed in 2019 together with VHF Cobra Marine, Sailor Thrane & Thrane Sat Com and twin Simrad NSS 16 evo3 multifunction displays that centralize control and data. Situational awareness is elevated by a Furuno radar, a Simrad IS40 Tridata for echo, log and wind, the rock-solid Simrad AP70 autopilot and a Furuno Navtex NX-300, while

dedicated rudder and flaps level indicators provide precise trim and steering feedback at a glance. Beyond the bridge, onboard comforts and utilities are equally thorough: a Pin Craft retractable hydraulic gangway and a powerful searchlight ease arrivals, entertainment flows through five LCD TVs with a Bose sound system, Sky decoder and a Sea Tel TV/Sat system, and climate control is assured by a Condaria CWM/FCL 27003 reverse cycle air conditioning plant delivering 100,000 Btu. Electrical autonomy is provided by two 26 kW Kohler generators, a power distribution unit and Mastervolt battery charger, rectifier and inverter. Safety and service systems include CCTV by Came Security monitoring the engine room and cockpit, a twin freshwater pump 24/220V, an Idromar 150 lt/h desalination unit, two Lofrans aft winches and a Lofrans High Line windlass, plus two cockpit minibars, a safe and full emergency equipment for complete peace of mind.

Owner's upgrades and installations

In 2025 the yacht benefitted from a full repaint of the superstructure and hull as shown in the images, accompanied by diligent technical care: the water maker received a comprehensive service including membrane filter replacement; the air conditioning system received a new water pump; both port and starboard main engines underwent maintenance with oil and filter changes; the generator received general maintenance with replacement of belt, freshwater pump and elbow within the flag assembly; and in the electronics suite the SB display was repaired together with its main processor (Mpu29) and both the analog and binary input boards (AIB1 and BIB1). During 2019 and 2020 she was upgraded with a new TV Sat system and decoders, a wholesale replacement of electronic equipment with Simrad models, a new tender and outboard engine, and a refreshed EPIRB with renewed emergency equipment; critical hardware was overhauled including the windlass with new chain, and the freshwater pumps, bilge pumps and wx pumps were all

serviced. The engines received attention to heat exchangers, seawater pumps, starters and alternators, seacocks and exhausts, with new exhaust pipes fitted, while the generators were overhauled across exhausts, injectors, seawater and freshwater pumps and bearings. In 2017 and 2018 bushes were replaced and the propellers were balanced, and in 2016 and 2017 the hull underwent full striping, the main deck furniture received 3M white wrapping and a new parquet floor was laid. Note: there is minor work to be done on the portside main engine, and a quote and detailed description by MTU can be provided.

Introducing Princess Areen

Announcing a compelling opportunity to acquire a Posillipo Technema 85 currently in Greece: launched in 2007, Princess Areen has been privately owned and meticulously maintained from day one, and following assistance in her acquisition by the current owner in 2021 she is now offered back to market freshly repainted in 2025 and complemented by recent interior upgrades. Her light satin elm interior is laid with parquet floors and paired with leather sofas, enhanced on the main deck by a fifth day head for additional convenience, while below there are four guest cabins each with a private bathroom. Outside, all teak decks present a variety of alfresco settings and are crowned by a remarkable flybridge equipped with a barbecue, bar, minibar and sink for carefree entertaining. Currently in the shipyard for maintenance, Princess Areen is open to visits and inquiries are warmly welcomed.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
