OVERVIEW

THE ENTERTAINER is a 2018 Ferretti 780 conceived to do something different: instead of a conventional owner's suite, this flybridge motor yacht devotes that prime volume to a full KTV lounge complete with a button-tufted banquette, a stone-accent wall and a cinema-scale screen, while a bespoke bar integrates seamlessly into the main-deck salon. Above, an expansive flybridge defines the social heart of the yacht, with its own wet bar, grill station and an L-shaped settee sheltered beneath a glazed hardtop, creating what is arguably the ultimate entertainment platform on any 79-foot planing motor yacht.

Under the skin, propulsion is effectively brand new: twin 2024 MAN V12s rated at 1,550 hp each, recording under 50 hours as of August 2026, pair with the proven 2018 hull to deliver a virtually as-new drivetrain at a fraction of the cost of a new build. She settles into a comfortable 24-knot cruise and can reach approximately 28 knots, with stabilisers and Super Tropical air conditioning ensuring every guest remains composed and comfortable. If your ideal day on the water centers on great company, big sound and ice-cold cocktails, arrange a private viewing to experience this yacht firsthand.

DETAILED DESCRIPTION

Introduction

THE ENTERTAINER is a distinctive 79-foot (24.01m) Ferretti Yachts 780 launched in 2018, presented in an uncommon, purpose-built configuration for the Asian market. Rather than a traditional owner's suite, her centerpiece is a dedicated KTV (karaoke) entertainment room, while a custom bar has been artfully integrated into the main-deck saloon—a layout conceived expressly to host and entertain, prioritizing sociable spaces over long-range cruising with a full owner's stateroom.

Mechanically she is essentially new: twin 2024 MAN V12 1,550 hp engines record less than fifty hours as of August 2026, reflecting minimal use since installation and offering performance comparable to a recently commissioned vessel, all at a fraction of the cost of a new build. Her proportions deliver a comfortable, seakindly platform with an LOA of 24.01 meters, a beam of 5.80 meters and a draft of 1.94 meters. The galley-down arrangement liberates the main deck for convivial living, and guest accommodation comprises one double cabin and one twin cabin, each with ensuite facilities. For comfort both underway and at anchor she is fitted with stabilizers and Super Tropical air conditioning, ensuring a cool, tranquil environment in even the most demanding climates.

Accommodations

The main deck flows into an expansive saloon dressed in dark leather L-shaped seating and complemented by a fitted bar, an elegant space designed to host sizeable gatherings with ease. Instead of a traditional master suite, the interior is dominated by a striking KTV room, appointed with a tufted

banquette sofa, a stone-clad feature wall and a large screen, curated expressly for lively parties and social entertainment rather than quiet repose. Guest accommodation has been deliberately kept compact, consisting of one double and one twin cabin, each appointed with marble-finished en suite bathrooms, while the galley is comprehensively equipped with granite counters, an induction cooktop, a built-in oven and a fridge/freezer to keep catering conveniently close during hosted events.

Exteriors

The Ferretti 780 is arranged to entertain on every level, beginning in the aft cockpit where teak decking encircles a full dining table perfect for effortless al fresco meals. The flybridge opens into an expansive social area beneath a sleek glazed hardtop that keeps the space usable in any weather; an L-shaped lounge encourages long conversation around a generous dining table, while a dedicated wet bar—complete with grill station, sink and storage—elevates outdoor service, and an independent Simrad-equipped helm places confident control within easy reach. Forward, a large foredeck sun pad with its own dining table creates a peaceful retreat from the bustle, and teak side decks coupled with clean, low-profile lines ensure the exterior remains as crisp and contemporary as the day she left the yard.

Engines & technical highlights

Driven by twin 2024 MAN V12 diesels, each rated at 1,550 hp, this Ferretti 780 had recorded under fifty engine hours as of August 2026, delivering an effectively as-new propulsion package within a 2018 hull. Direct-shaft transmissions paired with fitted stabilizers ensure exceptionally smooth and comfortable passage-making, with an approximate cruising speed of 24 knots and a 28-knot top end. Twin 19kW Onan generators together with Super

Tropical-spec air conditioning equip the yacht for sustained, high-use operation in hot climates. With virtually no wear evident on her principal systems, she presents a rare technical opportunity in this size and price bracket.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
