## OVERVIEW

---

The 2024 Wally WHY150 exemplifies contemporary yachting at its most refined, combining innovative engineering, Wally's unmistakable aesthetic, and unusually spacious accommodation to create a standout wide body motor yacht. Offered in like new, near pristine condition and maintained to exacting standards, this example has seen only private cruising and has never been offered for charter. Its architecture, conceived around Wally's pioneering full wide body concept, produces exceptionally voluminous, light filled interiors organized in a seamless open plan flow that elevates everyday comfort and liveability. Broad expanses of glazing dissolve the division between salon and seascape, while the interior palette and finishes employ premium materials and tactile textures in a restrained, contemporary register worthy of a superyacht.

Outfitted with a comprehensive options package, the yacht includes dual electrical systems compatible with both US and European standards, facilitating effortless international operation. An audiophile entertainment specification—McIntosh electronics paired with Sonus Faber loudspeakers—supplies reference quality sound across every living area. Propulsion is provided by a Volvo Penta package that delivers assured performance, precise handling and relaxed cruising manners, while modern engineering solutions, including advanced stabilization, ensure a composed, quiet motion both underway and at anchor, reinforcing the blue water capabilities expected of a top tier luxury vessel. This WHY150 is a rare proposition for the discerning owner who values striking design, forward thinking technology and uncompromising exclusivity—an elegantly restrained wide body superyacht that truly stands apart in its class.
