# OVERVIEW

---

## 2014 78' Italian Motor Yacht

Built and berthed in Italy, this 78-foot motor yacht blends refined Mediterranean style with spirited performance. Its long, sinuous sheerline and streamlined profile announce a vessel conceived for striking arrivals as much as for private retreats, marrying aesthetic grace with practical capability.

The exterior spaces are generous and thoughtfully arranged, moving effortlessly from cushioned bow sunpads through broad side decks to the expansive aft seating—an ideal stage for alfresco dining, lounging, and socializing. A GRP deck provides a solid, cool surface underfoot in summer conditions, while the composite fiberglass construction delivers a smooth, confident ride and the low-maintenance resilience that discerning owners appreciate. Wide side decks and secure handholds reinforce the yacht's seafaring composure, making transit on board safe and simple whether cruising or at anchor.

Step inside to a salon embraced by panoramic glazing that draws daylight and the horizon into the living area, creating an open, airy ambiance. Carefully chosen finishes, tactile surfaces, and a restrained color palette produce an environment that feels both contemporary and timeless, suited equally to formal entertaining or relaxed family cruising. Accommodations are arranged to afford privacy and comfort for owners and guests, with en-suite facilities, ample storage, and effective sound insulation that preserves calm into the evening.

Propulsion is provided by twin MAN engines, celebrated for their durability and smooth power delivery, yielding assured acceleration, quiet cruising speeds, and composed handling that inspire confidence at the helm. Systems are integrated for intuitive operation, and the composite build contributes to responsive performance and long-term structural integrity.

Designed for languid lunches at anchor and leisurely passages along sun-drenched coasts, this 78-footer balances sophistication with the simple pleasure of being at sea. Whether slipping into a Riviera cove or hosting cocktails beneath an Italian skyline, it elevates every voyage into an occasion—effortless, elegant, and unmistakably Mediterranean.

# DETAILED DESCRIPTION

---

## Mechanical equipments

---

Power is delivered by twin MAN engines rated at 2 x 1800 HP, turning Jolly Drive Surface Propellers T-34 with new propellers fitted in 2018, and the vessel's hotel power is secured by two ONAN generators: a 22,5 kW, 220 V unit showing approximately 4700 running hours as of 01/09/24 and an 8 kW, 220 V set from 2018 with approximately 800 hours as of 01/09/24. Stability and onboard comfort underway are significantly enhanced by two gyroscopic Seakeepers NC9 installed in 2018, while the engine room benefits from new thermo-acoustic insulation completed in 2024 and an FM-200 fire extinguishing system approved by R.I.N.A in 2024. Ventilation is assured by two reversible CEM 30/2-230M VE (R) ventilators providing inlet and outlet airflow as of 2024, and confident close-quarters handling is provided by a hydraulic bow thruster together with a hydraulic windlass. Fuel quality and generator protection are maintained by Parker Racor 500 MA filters on the generators and Parker Racor 75/1000/MA filters on the main engines, delivering reassurance for extended cruising and reliable performance.

## Audio-visual equipment

---

Onboard entertainment centers on a KVH TracVision M5 satellite TV antenna, complemented by modern connectivity through a 5G/LTE router paired with an OMNI-414 marine 4x4 MIMO antenna installed in 2024. Seamless, app-driven ambience is handled by CONTROL 4, Core 3 fitted in 2024, enabling WiFi control of music, televisions, and RGB lighting within the Apple ecosystem for a truly integrated guest experience. The audio architecture unites a Denon MOSCONI amplifier with HERTZ salon speakers and tweeters and JL speakers on the main deck installed in 2018, while visuals are delivered by three

Samsung TVs refreshed in 2024, creating an onboard cinema and soundscape that complements the yacht's elegant interior.

## Communication, navigation & electric

---

Confident passage-making and precise navigation are anchored by two Furuno NavNet TZT 14" Touch multifunction displays, supported by a Furuno NAVPILOT-711 autopilot, a Furuno GP-330 B GPS sensor, and a Furuno DFF 1 digital fish finder with transducer and speed sensor. Communications are handled by a Furuno FM-4721 VHF radiotelephone with antenna, while situational awareness is amplified by a Furuno DRS4D radar, an FA-50B CLASS AIS transponder, and a compass with lighting. Low-speed precision maneuvering relies on a Lewmar 300TTH hydraulic bow thruster with joystick at the helm station, and redundancy is addressed by carrying a third Furuno NavNet TZT 14" Touch multifunction display as a spare. A trolling system installed in 2018 increases versatility, and a touch-screen boat monitoring system with a 15" display places all onboard systems and alarms at your fingertips for confident control.

## Water treatment system

---

Freshwater autonomy is assured by a Schenker watermaker producing 150 l/h installed in 2018, supported by comprehensive sanitary upgrades: three independent Tecma WC Bidet Vacuum Flush units at 230 V repaired in 2024 and three Tecma Sanisplit NK grey water systems at 24 V renewed in 2024. Black water is managed by an automatic/manual electric macerator pump at 24 V from 2024, while shoreside convenience is provided by a shore water outlet with bypass. Safety features include a Gianneschi sea water pump dedicated to fire extinguishing installed in 2024, and everyday comfort is enhanced by Zizzeri taps and showers with hot/cold systems updated in 2018

and a removable deck carbon shower Elka added in 2024. A structural GRP freshwater tank with 600 liter capacity provides generous reserves and displays level readout on the PLC monitor, while pressure and distribution are maintained by two Gianneschi water pumps System GDE MG/3 (24V±230V\_50Hz) (2024) feeding a manifold with valves.

## Galley & laundry

---

Thoughtfully updated to support gourmet cruising, the galley presents a Bosch induction cooker installed in 2024 and a Bosch combo oven/microwave added in 2024, paired with a sleek hood featuring up/down movement and an efficient extractor, both installed in 2024. Cold storage is abundant with three Vitrifrigo fridges It from 2018, a Vitrifrigo freezer It renewed in 2024 and a Vitrifrigo ice maker dating from 2018, complemented by a Bosch wine fridge installed in 2024. Morning rituals are perfected by a KRUPS coffee machine from 2024, and the workspace shines with a new Silestone work-top with sink installed in 2024. Practical laundry care is discreetly handled by two Bosch laundry machines from 2018, while the salon's ambiance benefits from all décor accessories renewed in 2024, creating a galley and service area that match the yacht's refined lifestyle.

## Deck equipment

---

Anchoring and deck operations are engineered for confidence: a Trefoil stainless steel AISI 316 anchor of 50 kg installed in 2018 is operated by a Jolly Drive Marine hydraulic system, with a spare anchor ready for immediate use, and a D.12 stainless steel chain of 200 meters fitted in 2018 completes the ground tackle. A Lewmar V6 hydraulic windlass/barbotgine with waterproof deck controls and remote provides robust anchor handling, while a forward Sanguinetti capstan in light alloy with up/down control delivers 2000 W of

pulling power and two stern Sanguinetti capstans in anodized aluminum with up/down control provide 1000 W each. Deck protection includes twelve Hippomarine fenders, and visibility and elegance are ensured by a frontal windscreen of transparent tempered and laminated crystal served by a single Gallinea windscreen wiper, with lateral glass and portholes in Europe grey tempered and laminated crystal supported by ten carbon fiber pillars installed in 2018. Comfort and utility include a removable deck carbon shower Elka added in 2024 and an Opacmare gangway from 2018; aft, a sofa conceals a special locker for three Seabobs and scuba equipment with a portable compressor inside plus two side lockers for battery chargers from 2018, and a versatile aft transformer table integrates an ice maker from 2018. Forward, a large locker houses the electric board, flanked by two side life raft lockers in the bow area from 2018, and dockside convenience is enhanced by a fresh water dock filter, completing a deck arrangement designed for effortless operation and guest enjoyment.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.

For more information and to view available yachts, you can visit the company's official website: <https://shestakovyachtsales.com>
