OVERVIEW

2022 78' Luxury Motor Yacht — United States

Sleek and purposeful, this 2022, 78-foot luxury motor yacht marries contemporary performance with refined comfort. Her silhouette—accentuated by a carbon fiber deck—announces an appetite for innovation, while a fiberglass composite hull provides the reassuring strength and quietness of a true bluewater cruiser. With an 18-foot beam she delivers generous interior volume and expansive deck spaces, all presented in an elegantly modern aesthetic that suits both relaxed weekends and formal entertaining.

Propelled by triple Volvo power, she reaches a spirited 33-knot top speed, making long passages and coastal hops feel effortless; the yacht's balanced hull and a substantial 19.1-foot draft ensure composed, precise handling across varied sea states. A fuel capacity of 1,321 gallons gives the range for spirited escapes or extended coastal voyages, and a freshwater tank of 290 gallons supports comfortable stays at anchor.

Life aboard is defined by light, space, and thoughtful engineering. The carbon fiber deck reduces weight while elevating strength and refinement; forward and aft open-air lounging areas invite sunlit afternoons, and the cockpit's sociable layout flows naturally from morning coffees to evening gatherings. Broad side decks and clear sightlines facilitate confident movement whether underway or at rest, and premium deck hardware underscores seaside durability.

Inside, expansive panoramic windows bathe the salon with natural illumination, revealing fine joinery, a calm modern palette, and tailored finishes that feel both understated and luxurious. A well-appointed galley makes hosting effortless, and generous accommodations ensure guests enjoy the same sanctuary as the owner. Climate control and acoustic insulation create a quiet, restorative environment after a day on the water.

At the helm, the triple-Volvo installation delivers smooth, responsive control and efficient cruising characteristics, with systems laid out intuitively and designed for straightforward maintenance. Smart storage solutions are integrated throughout, and robust construction paired with quality deck fittings inspires confidence when the elements demand it. Located in the United States and built in 2022, this 78-foot performance cruiser is an elegant platform for memorable journeys, blending speed, serenity, and the reassurance of forward-thinking composite construction and triple-Volvo reliability.
