OVERVIEW

The 2015 Dominator 800 epitomizes Italian build excellence, commissioned by a seasoned captain for a discerning owner and delivered with CE Category A certification. A true flybridge motor yacht with evident bluewater capability, she carries a refined, authoritative presence that announces herself in any harbor.

Retained in private ownership since launch, the yacht displays exceptional workmanship, heavy duty hardware, and premium finishes throughout. Her advanced pod drive propulsion, fitted with counter rotating propellers, produces a remarkably smooth, quiet ride with lowered emissions—ideally suited to a performance cruiser on a planing hull destined for long, effortless passages.

Configured for both luxury and seagoing capability, she is equipped with twin SEAKEEPPER Gyro 9 stabilizers, Yacht Controller for intuitive joystick docking, HUMPHREE interceptors, a freshwater purification/watermaker system, and a Williams 385 jet tender—an impeccable superyacht tender arrangement that ensures seamless exploration and shore access.

The generous flybridge, sheltered by a sleek carbon fiber hardtop, encourages open air living with a well appointed bar and stools, expansive lounge seating, and ample sunpads—an elegant environment for relaxed cruising or refined entertaining aboard this luxury motor yacht.

Accommodation is arranged for eight guests across four finely detailed cabins: a full beam master with sweeping hull windows and a sumptuous en suite, a luminous VIP suite, and two twin cabins, each with its own private bathroom—an inviting, guest friendly layout for extended voyages.

Marrying Italian artistry with contemporary marine technology, this sport yacht achieves a harmonious balance of speed, composure, and comfort—an effortlessly stylish bluewater cruiser that enhances every moment at sea.

DETAILED DESCRIPTION

Key features

Custom-built by an experienced captain for an experienced owner, this yacht meets rigorous CE Category A standards (highest strength rating), marrying ocean-going capability with refined luxury. Boasting one owner since new and used exclusively for private purposes, she reflects meticulous care throughout, where sturdy components, high-quality materials, and precision craftsmanship define every surface and system. A unique Pod drive system with counter-rotating propellers delivers exceptionally low vibration, noise, and emissions, while two REINTJES FORTJES 4000 Z-drive pods elevate efficiency and maneuverability to a new level of confidence. Technology and comfort converge with two SEAKEEPER Gyro 9 stabilizers, a Yacht Controller, HUMPHREE interceptors with intelligent stabilization, a comprehensive water purification system, a Williams 385 Tender, and more—curated to ensure serene passages and effortless ownership.

Extra equipment

A specification curated for effortless yachting includes two Seakeepers model 9, YachtController® for precise wireless maneuvering, and an IDROMAR water purification system that keeps independence at sea assured. Electric curtains and blinds throughout the yacht add a discreet, luxurious touch, while exterior air conditioning on the aft deck maintains cool comfort under the sun. The hardtop features an electrically operated opening roof, and the hull gleams in a crème Gelcoat finish. Custom-made high-quality carpentry elevates every living area, a convenient day head serves the main deck, and a nimble Williams 385 tender stands ready for every shore excursion.

Engine room

Engineered for reliability and poise, the machinery space features hydraulic steering paired with an Idromar MC3J water maker delivering 350 l/h and an Idromar water purifier for pristine supply. Fuel is polished through two RACOR filters, and climate control comes from a Condaria 120.000 BTU plant.

Precision handling is ensured by a hydraulic bow thruster rated at 300 kp and a hydraulic stern thruster at 350 kp, supported by a Ganeschi – II fresh water pump. Trim authority and ride comfort are perfected by four HUMPHREE interceptors specified with full optionals and an active intelligent stabilization system, complemented by two Seakeeper M 9 stabilizers for remarkable stillness underway and at anchor.

Electrical systems

Power management is robust and travel ready, with shore power rated at two 63 Ah feeding a 230 V AC 50 Hz network through a Mastervolt inverter. Battery capacity is comprehensive and clearly segregated: four 250 Ah for the engines, two 100 Ah for the generator, six 154 Ah service batteries, and two VHF batteries, ensuring dependable starts, continuous hotel loads, and resilient communications.

Communication & bridge

The helm is comprehensively appointed, with two Raymarine VHF sets and full AIS integration underpinning situational awareness. Redundancy and clarity come from two Raymarine P70R autopilots serving the pilothouse and fly, Raymarine GPS, both a gyro compass and a magnetic compass, and a Raymarine 4 kW radar paired with a Raymarine depth sounder. Navigation is displayed across three Raymarine GS150 chart plotters, while wind

instruments—wind indicator and transducer—are installed in the pilothouse and on the flybridge. A powerful searchlight, EPIRB, SART, and a two marine certified HD SAT receiver array with hard disk expand capability offshore. An interphone links engine room, cockpit, pilothouse, flybridge, anchor storage, and cabins, complemented by satellite internet and a central management system for seamless command.

Audio visual equipment

Designed for indulgent onboard living, the entertainment suite features a high performance audio/video system anchored by a YAMAHA amplifier and SONANCE speakers, orchestrated via two integrated iPads for intuitive, whole yacht control. A BOSE 325 system supports CD, Blu Ray, iPhone and iPod playback with intelligent remote control, delivering rich, room filling sound. Visuals delight with two 40" LED TVs in the salon and owner's cabin, complemented by three 22" LED TVs serving the two guest cabins and the VIP cabin. Seamless connectivity arrives via SAT communication telephone, Internet, Wi Fi, and CAT 5 cabling throughout all cabins.

Galley & laundry

The galley is appointed for gourmet performance with a MIELE induction oven, MIELE microwave, and MIELE extractor fan, while cold storage is secured by a Frigonautic refrigerator/freezer and a dedicated Frigonautica freezer. Entertaining is effortless with a BREMA ice maker and a MIELE winecooler preserving vintages at the perfect temperature. Practicality is completed by an LG washing machine discreetly installed in the crew cabin.

Deck equipment

Purposeful deck gear begins with an anchor windlass and two aft warping capstans supporting precise mooring, complemented by one anchor on one 170 chain for dependable holding. Boarding is seamless via an Opacmare passerelle, and the hydraulic swimming platform with a lifting capacity of 700 kg simplifies tender handling and water access. Nighttime ambiance and safety are enhanced by three XENON underwater lights at the stern. Overhead, the hard top features an electrically sliding roof, while an AC outlet in the cockpit brings welcome air conditioning outdoors. Practicality continues with electric doors to the galley on the starboard side and to the crew cabins aft.

Safety & fire protection

Safety is engineered into every watch with an emergency yacht management console positioned near the pilothouse and a vigilant CCTV suite of four cameras, including infrared units covering the engine room and cockpit, with monitoring at the pilothouse. Fire protection is comprehensive: an automatic FM200 anti-fire system pairs with a professional marine fire and smoke detection network spanning all cabins and the engine room. Special acoustic and thermal isolation in the engine room and on the main deck adds a further layer of protection and comfort.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
