

# JOHNSON 80' SKYLOUNGE WFISHING COCKPIT - JOHNSON

**Builder:** [Johnson](#)

**LOA:** 80' 0" (24.38 m)

**Year Built:** 2026

**Beam:** 20' 0" (6.32 m)

**Model:** Skylounge wFishing Cockpit

**Min Draft:** 19' 8" (6 m)

**Price:** \$6,950,000 USD Subject to change.

**Max Draft:** 19' 11" (6.08 m)

[See full listing on our website](#)

**Location:** Kaohsiung, Taiwan

**Cruising Speed:** 21 Knots (24.17 MPH)

**Max Speed:** 25 Knots (28.77 MPH)

# DETAILED DESCRIPTION

---

## I. Hull & deck - exterior general

---

The exterior is composed to welcome serious cruising, beginning with a main deck finished in 14 mm teak that imparts warmth and seakeeping character; forward, stainless steel and Nylac integral rollers with a machined guiding groove manage a generous 250-foot length of three eighths inch galvanized chain driven by a single Maxwell hydraulic windlass VWC4000 and secured to a single 120 lb stainless steel anchor, while a fresh water anchor chain washdown and a foredeck hose outlet preserve ground tackle and decks in shipshape condition. Heavy duty 316 stainless steel handrails and elegant elliptical stanchions encompass the side decks, joined by stout 316 stainless steel cleats and fairleads, with two additional pop up cleats on the aft platform for secure mooring. The deckhouse is wrapped in black tempered safety glass laminated five millimetres plus five millimetres for strength and clarity, and invites entry through a stainless steel pneumatic saloon sliding door with push button operation and safety sensors, while a pantograph style side door on the port side provides rapid deck access. Manship elliptical stainless steel portlights punctuate the hull, which is protected at the joint by a stainless steel rub rail with rubber insert. A pair of 24 V Maxwell VC1500 stern capstans simplify line handling, and aft built in seating upholstered in Sunbrella outdoor cushions surrounds an aft deck table with protective cover, all softly illuminated by low level LED courtesy lights along the side and aft decks. Teak laid stairs lead to the flybridge and a large teak inlay swim platform with a curved stairway connects gracefully to the aft deck; after a swim a hot and cold shower and a stainless steel swim ladder make re boarding effortless. The lazarette provides dedicated stowage for fenders, and a set of engine and thruster controls is fitted to either the

starboard or port aft coaming for confident docking. For tenders and toys, a hydraulic swimming platform (Besenzoni PL850 or equivalent) offers a 1873 lb lifting capacity.

## II. Underwater gear

---

Underway performance and protection are specified with bronze five blade propellers turning on bronze P brackets, driven by twin Aquatech 22HS stainless steel shafts of three and one half inch diameter, while shaft integrity is secured by Tides Marine shaft lip seal glands sized three and one half inch by five and one half inch with Duramax Marine cutlass bearings.

High performance stainless steel rudders run on Aquatech 22 stocks in bronze bearings and are sealed with Tides Marine lip seals. The hull bottom receives professional anti fouling treatment with Sea Hawk primer systems Tuff Stuff 1284 Grey or 1285 White finished with Sea Hawk self polishing copolymer antifouling Cukote 3445 Black or 3430 Dark Blue and dressed with a three inch boot top stripe in black, blue, or red to taste. A full cathodic bonding system ties to zinc anodes, seawater strainers serve engines, genset and air conditioning, and seacocks are fitted on all underwater penetrations. Manoeuvring is made effortless by hydraulic bow and stern thrusters together with "at rest" stabilizers, while an underwater exhaust system with mufflers and bypass keeps operation quiet and clean; hydraulic steering is provided by Hynautic model PSHC5803 with power steering for precise helm control.

## III. Sky lounge

---

The sky lounge is conceived for both command and repose, featuring a 14 mm teak and holly sole in a soft matt finish beneath a leather upholstered instrument console, and connected to the saloon by a stainless steel access hatch and staircase with teak treads; the lowering area beyond hosts a built in

leather couch and a refined smaller coffee table for relaxed watchkeeping. Command systems include hydraulic steering Hynautic PSHC5803, complete engine controls and instrumentation and a magnetic compass, and you may specify the fully integrated navigation suite to suit your preference: the Garmin option comprises GPSMAP 8617 17 inch fully integrated multi touch MFDs two units, a GMI 20 marine instrument display, a GMR Phantom four inch/40 W/72 NM solid state open array radar, a Garmin VHF 210 marine radio, a Garmin AIS 600 Class B transceiver, a GHP 20 marine autopilot system with SmartPump and a Garmin GSD 25 marine network sounder two kilowatt; alternatively, the Raymarine option comprises Raymarine GS 15.4 inch Glass Bridge multifunctional displays with Wi Fi two units, a Raymarine i70 multifunction color display, a Raymarine 48 inch HD color open array with four kilowatt pedestal, a Raymarine Ray218E VHF radio, a Raymarine AIS 650 Class B transceiver, a Raymarine Evolution autopilot with P70R control head and ACU 400 actuator control unit, and a Raymarine CP100 DownVision fishfinder. At hand are stabilizer control and monitoring, an ABT bow and stern thruster control panel, and a CCTV system with an eight channel network DVR and five cameras—two in the engine room, two on the aft deck and one on the foredeck facing the winch—alongside a rudder indicator and a Headhunter TS 3000 series fuel gauge. Night running is assured by a PAR 60010 2024 search light on joystick control. Entertainment is comprehensively considered with a Fusion system comprising the MS AV700I DVD/receiver with Fusion Link, MS CL602 six inch marine ceiling speakers four units, and an MS BT200 Bluetooth adapter module for the Sirius port; a pop up cabinet reveals a 32 inch LCD TV with Apple TV ready to stream. Mood is set by low level 24 V LED courtesy lighting and 24 V LEDs beneath the radar arch, while a stainless steel grab rail wraps the bar unit and LED indirect lighting traces under the wet bar and seating; a Buell air horn adds presence as you settle into the Lebroc LX double wide two seater helm seat and take the stainless steel wheel.

## IV. Engine propulsion & E/R equipment

---

Power is delivered by a MAN D2842 LE433 main engine rated at 1550 HP at 2300 RPM mated to a ZF transmission ZF2050A with a ratio of 2.029:1, while fuel polishing is accomplished by a dual Racor filter for each engine and a dedicated Racor filter for each genset. The engine room is engineered by Van Cappellen and insulated for both sound and heat with a foam and lead combination throughout, finished in bright white with grey non skid rubber flooring and laid out spaciouly for easy service access. Fuel tanks are monitored by electric sending units from the Headhunter TS 3000 series; safety systems include a SeaFire FM 200 automatic fire extinguisher and Delta "T" extractor fans with automatic vent closure in the event of fire. Illumination is abundant via AC fluorescent luminaires and LED DC dome lights, and a manual bilge pump draws from the lowest point when the vessel is at rest. Freshwater distribution is robust through a high volume AC pressure pump with a 24 V DC backup—Headhunter March 5 M5 115 AC pump and Groco PSR 4000004 24 DC pump—and chilled water air conditioning Cruisair rated at 96,000 BTU ensures comfort. Independence offshore is provided by twin Aqua Whisper DX 450 watermakers producing 450 GPD each. A dedicated oil changing pump services engines, generators and transmissions. Electrical generation is provided by Generator One Onan QD MDKDS 29 kW 60 Hz, with Generator Two Onan QD MDKBU 29 kW 60 Hz available as an option. Domestic hot water is supplied by two Torrid water heaters of twenty gallons each. Steering redundancy includes an emergency tiller, and each engine carries a hydraulic pump that feeds thrusters, stabilizers and steering. Clean living is supported by a central vacuum system Nutone CV352 capable of operating on both 110 V and 220 V.

## V. Electrical

---

The yacht's electrical architecture is arranged for global cruising with a 110/220 V alternating current system and a dedicated 24 V direct current network; shore power arrives via dual 75 foot Glendinning Cable Master 50 amp sets for reliable connection. Smart charging comprises a charger for the 24 V circuit, a charger for the 12 V circuit and an alternator split charging system that links and charges the house banks via BEP high charge regulators. Reserves include four 255 Ah 12 V gel cell sealed batteries for ship service, four 225 Ah gel cell sealed engine batteries and a 210 Ah gel cell sealed genset battery. Convenience is provided by AC sockets throughout with GFI protection as required and governed by a BEP battery select switch. The main electrical panel carries AC and DC breakers organised across four panels—engine room, helm, AC and DC—each fitted with automatic backlighting when the door opens. Protection extends to an anti electrolysis bonding system and twin automatic isolating and booster transformers rated 50 amp each. For robust onboard generation the specification includes two Onan QD MDKDS 29 kW generators.

## VI. Plumbing system

---

Designed for clean, quiet autonomy, the yacht carries a 100 gallon blackwater holding tank equipped with a macerator pump and a Y valve for overboard pump out, monitored by a Headhunter holding tank level indicator. Shower sump pumps keep heads dry, while marine grade piping distributes freshwater from a 350 gallon stainless steel tank fitted with a sending unit; sight gauges serve both fuel and water tanks and a dockside freshwater inlet simplifies provisioning. Color coded piping speeds identification and bronze intake valves secure all through hulls, while a discharge manifold minimises the number of hull penetrations. The freshwater Sealand vacuum toilet system

ensures efficient, odor free operation. Safety is reinforced by six high water bilge alarms serving the engine room, forward bilge and lazarette compartments with a mimic panel at the helm, backed up by six Rule 3700 GPH bilge pumps with float switches and high water alarms.

## VII. Interior finish

---

The interior joinery is executed in rich mahogany or cherry, accented by burr wood and ivory lacquer, and paired with your choice of premium upholstery fabrics to craft a bespoke, harmonious atmosphere throughout the living spaces.

## VIII. Galley

---

The galley is appointed like a fine home, anchored by the latest model G.E. electric refrigerator/freezer, cooktop, oven and a microwave with integrated extractor fan; a stainless steel sink with hot and cold water sits amid generous cupboards, drawers and stowage, with two double AC sockets for appliances. Underfoot you may choose either a classic teak floor or a cool marble surface, with additional overhead storage above the galley bench. A G.E. trash compactor and a G.E. dishwasher complete a space designed for gourmet ease underway.

## IX. Saloon

---

Life on board centers around a luminous saloon, with a dedicated dining area in the upper saloon and a pneumatic saloon sliding door with push button control and a safety sensor device connecting to the aft deck; entertainment is presented on a 42 inch LCD TV driven by a Bose Lifestyle 535 Series III home theater and a Pioneer BDP 160 Blu ray disc player, with Apple TV for

streaming. The lower saloon features a high quality leather couch with built in curved seating, while ship systems are managed at the main AC/DC control panel; ambience is provided by low level 24 V LED lights and 24 V LED ceiling lighting gathered around a refined coffee table to create a comfortable and sociable living area.

## **X. Master stateroom**

---

The full beam master is a private haven with a king size berth offering storage beneath and drawers in the base, complemented by a vanity and a comfortable couch; a cedar lined walk in closet pampers long passages. Illumination is provided by 24 V LED ceiling lighting and two 24 V reading lights, while natural light streams through three Manship stainless steel side windows—two fixed and one opening. Entertainment is first class with a 42 inch LCD TV, a Fusion MS 205 receiver/media player with full iPod/iPhone control, MS CL602 six inch marine ceiling mount speakers four units and an MS BT 200 Bluetooth adapter module for the Sirius port, plus a Pioneer BDP 160 Blu ray disc player and Apple TV.

## **XI. Master en suite shower room**

---

The master en suite is serene and beautifully finished, featuring a Sealand vacuum toilet in bone color, a wash basin set into a marble countertop with hot and cold water supplied to premium faucets and fittings, and a mirror with a mirror ceiling to elevate the visual space above a lacquer finish over the basin countertop and a warm veneer finish below; ventilation is assured by an extractor fan and an AC double socket protected by GFI sits conveniently nearby. A large shower enclosure carries a lacquer finish and marble floors, lit by 24 V LED ceiling lights with marble extending underfoot.

## **XII. Forward (vip) stateroom**

---

Guests are indulged in a forward VIP with a generous double berth, storage beneath and drawers in the base, complemented by a cedar lined walk in closet and a dressing table with stool; reading lights two units 24 V and 24 V LED ceiling lights set the tone, with AC double sockets for convenience. Entertainment is curated with a 32 inch LCD TV and a Fusion MS AV700I DVD/receiver with Fusion Link, MS CL602 six inch marine ceiling mount speakers four units and an MS BT 200 Bluetooth adapter module for the Sirius port, plus Apple TV.

## **XIII. Forward (vip) en suite shower room**

---

The VIP en suite mirrors the master's refinement with a Sealand vacuum toilet in bone color, a marble topped wash basin with hot and cold water and quality faucets and fittings; a mirror and mirror ceiling enhance a lacquer finish above and a veneer finish below the basin countertop. Ventilation is provided by an extractor fan, an AC double socket protected by GFI sits nearby, and a large shower with lacquer finish and marble floors is illuminated by 24 V LED ceiling lights with marble extending throughout the floor.

## **XIV. Port guest cabin**

---

The port guest cabin flexes for family or crew with two single berths, under berth storage and a Pullman berth for added capacity; lighting is thoughtful with two 24 V reading lights and two 24 V LED ceiling lights, and a hanging locker handles wardrobe needs. Entertainment includes a 32 inch LCD TV and a Fusion MS AV700I DVD/receiver with Fusion Link, MS CL602 six inch marine ceiling mount speakers four units and an MS BT 200 Bluetooth adapter module for the Sirius port, plus Apple TV.

## **XV. Port toilet/shower room**

---

The adjacent head features a Sealand vacuum toilet in bone color and a wash basin with a marble countertop served by hot and cold water and refined faucet fittings; a mirror and mirror ceiling reflect a separate shower compartment finished in lacquer with marble floors. Power is provided by an AC double socket with GFI, lacquer finish gleams above the basin and a warm veneer finish lies below, ventilation comes from an extractor fan, with LED ceiling lights setting the mood over a marble floor. A full height G.E. washer/dryer latest model brings true home convenience aboard.

## **XVI. Starboard guest cabin**

---

To starboard, a tranquil guest cabin offers a double berth with under berth storage, two 24 V reading lights and two 24 V LED ceiling lights, plus a hanging locker for smart stowage; entertainment mirrors the fleet standard with a 32 inch LCD TV and a Fusion MS AV700I DVD/receiver with Fusion Link, MS CL602 six inch marine ceiling mount speakers four units and an MS BT 200 Bluetooth adapter module for the Sirius port, alongside Apple TV.

## **XVII. Starboard toilet/shower room**

---

The starboard head delivers premium finishes with a Sealand vacuum toilet in bone color and a wash basin on a marble countertop with hot and cold water to quality faucets and fittings; a mirror and mirror ceiling brighten a separate shower compartment with lacquer finish and marble floors. An AC double socket with GFI supplies power, lacquer above and veneer below the basin complement the extractor fan, 24 V LED ceiling lights and a marble floor to complete the space.

## XVIII. Crew quarters

---

From the transom, a private entrance opens to crew quarters with two single berths, two 24 V reading lights, LED ceiling lights, an AC double socket and a hanging locker; the crew head is smartly finished with hot and cold water to the wash basin and a shower over a marble countertop and floor, and a Sealand vacuum toilet in bone color. Down time brings entertainment via a 24 inch LCD TV and a Fusion MS AV700I DVD/receiver with Fusion Link, MS CL602 six inch marine ceiling mount speakers four units and an MS BT 200 Bluetooth adapter module for the Sirius port, plus Apple TV.

## XIX. Fishing cockpit

---

Anglers will appreciate a purpose built fishing cockpit featuring an under deck catch well and a live bait well with its own pump and light; eight flush mounted rod holders ring the cockpit and a central launcher creates a clean, efficient workspace ready for the bite.

## XX. Remarks

---

Please note, this is an unbuilt new construction project which has not yet been started; the listing broker maintains a curated list of popular options and associated pricing, though the standard equipment detailed above is impressively complete. Anticipated completion time is approximately nine to twelve months depending on concurrent yard projects. Options are available upon request. All specifications are subject to change without notice. Price is FOB Taiwan and neither duty nor tariffs are included in the price.

## Comment

---

Since this is a new build offering, all photos shown are from previous projects; exact layout as well as wood and stone selections are at the buyer's discretion. Price is FOB Taiwan. Neither duty nor tariffs are included in the price.

## Disclaimer

---

Buyer assumes responsibility to verify all speeds, capacities, consumptions and other measurements contained herein and otherwise provided and agrees to instruct his agents to confirm such details prior to purchase. Vessel is subject to prior sale, price and inventory changes, and withdrawal from market without notice.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.

For more information and to view available yachts, you can visit the company's official website: <https://shestakovyachtsales.com>
