## OVERVIEW

---

TIME-2 FLY is an exemplary interpretation of the celebrated 80' Hatteras motor yacht, a model from one of the marque's most successful runs with more than fifty-five hulls launched. Fresh from an exhaustive bow-to-stern refit at the renowned Saunders Yachtworks, completed in October 2025, this yacht has been thoroughly renewed and elevated with exceptional attention to detail. The exterior received a full repaint from the boot stripe to the flybridge in Awlcraft 3000 Cloud White, presenting a flawless, superyacht-caliber finish. Every major system aboard has been inspected, serviced, or replaced as part of the overhaul, delivering a genuinely turnkey offering and positioning TIME-2 FLY among the most comprehensively updated and attractively valued 80' Hatteras yachts available today. The low-hour CAT C32 main engines were brought up to date with a complete 2,000-hour service, while power redundancy is provided by twin Onan generators. Navigation and communications electronics were modernized and all mechanical systems received thorough servicing to ensure dependable long-range performance. A Yacht Controller has been fitted for precise remote docking and Starlink connectivity provides reliable internet access under way.

Accommodation is arranged for comfort and privacy with four ensuite staterooms plus crew quarters for three, while the interior displays newly fitted carpeting throughout and high-gloss millwork that reflects the meticulous refit. A welcoming country-kitchen galley enhances entertaining, and select headliners have been renewed in the salon, day head, and refreshed crew area. The expansive salon, bordered by oversized windows, bathes the living spaces in natural light, and an enclosed bridge with an adjoining sky lounge incorporates an elegant sky-bar for refined socializing. Additional upgrades include professional re-bonding and resealing of all deckhouse and sky lounge windows, the inclusion of a bridge davit and tender,

and complete, detailed maintenance records available for review. With the owners' plans having changed, this exquisitely refitted yacht is prepared for immediate delivery.

## DETAILED DESCRIPTION

---

### 2025 refit upgrades

---

In 2025 the yacht received an extensive refit highlighted by a flawless Awlcraft 3000 Cloud White topcoat applied over Awlgrip 545 Finish Primer, paired with an Awlcraft 3000 Extreme Black boot stripe that defines a crisp, contemporary profile. All onboard lighting was converted to LED and every rubber sanitation hose was replaced vessel wide, while shore power was enhanced with a new 100 foot AC shore power cord. Mechanical services performed by CAT included comprehensive attention to the main engines, conditioning of the propeller wheels and servicing of the cutlass bearings with new bearings installed, polishing of all five fuel tanks, installation of new CAT C32 risers, and exhaust system upgrades featuring a new accumulator, new bands and new bypass hoses with clamps. Reliability and safety improvements incorporate four new engine impellers, new port and starboard main engine coupler PUCS, new StarLink systems, two electric remote spotlights, new starting 8D batteries and a replaced engine room Fire H Series system cylinder, and the life raft successfully passed its certification inspection. Climate control was refined through inspection and servicing of the AC chillers and their lines, building on the additional AC chiller that was fitted in 2022. The bow thruster oil cooler was replaced and replenished with fresh oil, stabilizer fins were removed for service and fitted with new seals, and the engine room decks and bilges were renewed with Bilgecoat. Finishing touches include new style Hatteras emblems that elegantly underscore the yacht's refreshed presentation.

### Other updates & upgrades

---

On the bridge deck an Avon tender powered by a 50 hp Yamaha engine shows approximately 100 hours, and the exterior leisure areas were enhanced with

Miele outdoor grills installed in 2020 and an elegantly reworked sky lounge bar designed for effortless entertaining. Navigation and control were significantly modernized when a Yacht Controller was fitted in 2024 and integrated with a Furuno suite from 2019 that includes four 17-inch Navnet TZ touch displays, two multifunction TZT2BB black boxes, one six-foot and one four-foot open radars, multi-beam sonar, autopilot and a satellite weather receiver. A FLIR thermal camera was added in 2022. The interior received a comprehensive refresh in 2024 with headliner and wall reupholstery, the addition of a custom standard-size bridge bar complete with a built-in beverage refrigerator, a gourmet ice cube maker and a bar sink, a newly appointed leather-upholstered lounge area, and an AIS receiver that was updated in 2022 and again in 2025. The galley is equipped with a KitchenAid refrigerator/freezer and a Bosch dishwasher, both installed in 2019, complemented by a reupholstered settee from 2020 and an Insinkerator garbage disposal added in 2022. The salon benefits from a Control4 whole-boat entertainment system installed in 2021 and a Samsung 50-inch smart TV fitted in 2022, while Smart TVs throughout the master and guest suites were replaced in 2022.

Mechanical systems have been carefully maintained and upgraded, including a new six-ton A/C chiller installed in May 2026 and upgraded Caterpillar C-32 engines serviced to 2,000 hours under CAT maintenance, supported by twin Onan generators. Remote spotlight units (2024 model) were installed in 2025. All water heaters have been renewed within the last two years; a blackwater pump and two freshwater pumps were installed in 2022. The watermaker underwent a full overhaul in 2021, new CAT aftercoolers were fitted to both engines in 2021, and a new windlass installed in 2021 carries 300 feet of new chain. Deck utility was improved with three new freshwater hose reels and underwater lights added in 2020. Propellers and shafts were rebalanced during 2024/2025 with new shaft seals and rudder shaft seals and treated with PropSpeed, and the hull received bottom paint in 2024/2025. Additional enhancements include updated electronics from 2019, a teak swim platform

added in 2021, artificial teak laid on the foredeck in 2021, and renewed forward cushions in 2022.
