OVERVIEW

The Cantieri di Pisa 80 VELOCE is currently under construction and offered for yacht sale, her carbon fiber hull and superstructure now seamlessly joined as the technical systems advance steadily toward completion. With delivery anticipated in six months, there remains the chance to choose among several layout configurations and to tailor every detail to your tastes, creating a truly bespoke yacht.

This elegant planing yacht, weighing a mere 48 tons, marries featherlight construction to potent propulsion: three MAN 2000 V12 engines give her a comfortable cruising speed of approximately 50 knots and a top speed of 60 knots, while a shallow draft of 1.3 meters makes her ideal for coastal exploration. Built in accordance with CE regulations and overseen by RINA class, she represents a rare opportunity in the current boat location for those intent on buying a yacht — an exceptional vessel for sale that combines performance, refinement, and the freedom to personalize.
