OVERVIEW

GLOBEMASTER 26M by Kit Carlier Design NZ / Mazarin - German Yachts & Stimson Naval Architecture NZ

"The Globemaster is crafted as an all-terrain exploration yacht, designed to thrive in offshore conditions for prolonged journeys. The yacht's structure is built from a GRP foam sandwich, ensuring maximum strength and rigidity while keeping the vessel's weight to a minimum. The outer layers are a refined blend of E-glass and Carbon fiber, customized for each component. The E-glass exterior is complemented by carbon fiber on key bulkheads and inner deck layers, where enhanced strength and stiffness are most advantageous."

This is more than just a CAD "concept"; with completed Engineering and Fluid Dynamics, she is ready to set sail! Capable of reaching 32 knots, with a 4800NM range at cruising speed, powered by a 2000hp MTU engine, and offering an optional Hybrid Electric drive.

Explore yacht sales in the current boat location and consider this exceptional yacht for sale. Contact us to discuss your layout and interior preferences. Discover the opportunity to buy a yacht that embodies luxury and adventure.
