OVERVIEW

AEGEAN EXPLORER 26M is a true displacement motor yacht, built with a steel hull and an aluminum superstructure, conceived for economical blue water range and expedition cruising. She delivers 187 GT of internal volume and accommodates up to 12 guests in six suites, notably featuring three master staterooms positioned on separate decks, while the upper deck master opens onto a private aft veranda. With 3,500 nm autonomy, frugal twin MAN power and CMC stabilizers, this tri deck luxury superyacht and explorer ensures confident, quiet passage making across every ocean.

DETAILED DESCRIPTION

Aegean Explorer 26 m

Seaworthiness, volume, comfort and technical refinement converge in the AEGEAN EXPLORER 26M to create a true blue-water yacht: a full-displacement hull in steel with an aluminum superstructure, intentionally engineered for low fuel and energy consumption so she delivers long, untroubled passages even in high seas and inspires confidence on extended voyages. Meticulous spatial planning yields superior comfort for up to 12 guests, with three master cabins elegantly arranged across the main, upper and lower decks and, in addition, two twin cabins and a VIP cabin that together ensure every guest enjoys a premium standard; the upper-deck master opens onto a private aft terrace that becomes an irresistible retreat for sunbathing or lounging, with customizable furniture to tailor the ambiance to your taste. Recognizing that exceptional service begins with well-rested professionals, the yacht provides four single crew cabins, each with an en-suite bathroom, offering complete privacy and a markedly higher standard of living for the crew. Inside, a philosophy of simplicity and unity shapes a harmonious, uncluttered environment where silky matte limed oak, white lacquer, chrome and refined marble accents converge in a timeless composition, and on the main deck a fully equipped galley with generous storage capacity supports extended voyages without frequent provisioning, turning long-range cruising into a seamless pleasure. Technical excellence defines her character: twin MAN D2676LE425 engines of 650 HP each, backed by two 35 kW EFKOZD generators, give the AEGEAN EXPLORER 26M a maximum speed of 12.7 knots and an economical range of 3500 nautical miles, while a comprehensive fit-out that includes an OPACMARE passarella, a SIDE POWER hydraulic bow thruster, DATA winches, CMC electric stabilizers, WEBASTO central air conditioning and

a ZERO SALT water maker ensures turnkey performance; a 4.50 m CAPELLI tender is stowed on the hydraulic platform, ready to extend your adventures ashore. The robust yet elegant lines of the Aegean Explorer 26 m now await her new owner.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts.
