OVERVIEW

At 26.14 meters in length, the Ferretti 850 is a testament to Italian craftsmanship blended with progressive naval engineering. A generous flybridge, a contemporary bow lounge and a carefully orchestrated aft terrace work together to make every voyage effortless and refined. Extensive glazing frames uninterrupted sea views and floods the interiors with natural light, amplifying the sense of space throughout the yacht. Four beautifully appointed staterooms offer lavish private retreats, culminating in an unmistakable luxury motor-yacht experience.

DETAILED DESCRIPTION

About the yacht

The 2016 Ferretti Yachts 850 is a distinguished 26 metre motor yacht that fuses Italian savoir faire, contemporary aesthetics and advanced marine engineering. The boat is the product of a collaboration between Studio Zuccon International Project and the Ferretti Group Engineering Department, and represents a fresh interpretation of the flybridge concept by combining bold external lines with generous interior volumes and assured onboard performance.

Its sculpted silhouette is characterised by crisp, modern profiles and large glazed areas that flood the interior with natural light while framing panoramic sea vistas. Every element has been refined to balance form and function, creating an environment of understated luxury that blurs the distinction between inside and out.

The flybridge serves as the principal entertainment space, appointed with generous lounge seating, an alfresco dining area, a wet bar and extensive sun pads for relaxing under open skies. Forward, the foredeck provides a secluded lounge for guests to unwind and enjoy uninterrupted views, while aft the versatile cockpit transitions seamlessly into an innovative beach club and hydraulic swim platform, establishing an inviting waterfront setting for swimming, watersports and leisure.

Within, the main salon expresses contemporary Italian style through floor to ceiling glazing, premium materials and meticulously chosen finishes that evoke the feeling of a modern waterfront residence. A formal dining area and an expansive lounge create refined spaces for hosting, relaxing or spending quality time with family and friends in total comfort.

Accommodation is arranged to welcome up to eight guests in four en suite

staterooms, anchored by a full beam master suite that offers exceptional volume, privacy and elegant detailing. A generous VIP stateroom and two well appointed guest cabins ensure every visitor experiences first class comfort, while separate crew quarters deliver discreet, efficient service and preserve owner privacy.

Twin MAN diesel engines provide the Ferretti 850 with spirited performance alongside excellent cruising comfort, stability and fuel efficiency. Her refined hull form and engineering afford confident handling in a range of sea conditions, making her equally capable for long passages, family excursions and luxury charter use.

As a defining model within the Ferretti Yachts lineup, the 2016 Ferretti Yachts 850 remains a benchmark in her category, marrying timeless Italian elegance with innovative design, expansive entertainment areas, sumptuous accommodation and impressive seakeeping for memorable voyages.

Equipment

Designed for effortless yachting, the vessel is fitted with a streamlined hard top that protects the helm, while a sophisticated gyro stabilizer maintains composed motion both underway and at anchor. Precise handling is made easy by bow and stern thrusters, complemented by a versatile third station that allows confident docking from the most advantageous vantage. A robust hydraulic platform facilitates tender handling and swim access, working in concert with the included tender and a convenient pasarella to ensure seamless boarding ashore. Onboard entertainment and navigation are covered by satellite TV and an advanced chart plotter, and extended independence is delivered by a reliable watermaker and inverter so you can enjoy quiet autonomy without sacrificing comfort.

Other details

Redundant power is provided by a pair of Onan generators: a 27 kW unit showing 1,280 hours that underwent an overhaul in 2024, and a 19 kW unit with 5,960 hours. Onboard comfort is elevated by two gyro stabilizers, while a 3.50 m Williams tender ensures seamless shore transfers and relaxed on water outings. The teak decks and the parquet flooring in the salon and galley were renewed in 2024, reflecting attentive ongoing care. All major maintenance has been carried out by an authorized MAN service, with the principal services fully up to date.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts.
