OVERVIEW

Step aboard the 2014 Ocean Alexander 82' Cockpit Motor Yacht Rhondavous and be welcomed by yachting at its most polished. As one of only two 82s ever built with the sought after factory cockpit—this being hull No. 2—she marries rare lineage with Ocean Alexander's celebrated build quality. Her generous volume, graceful circulation, and assured blue water demeanor create a vessel that artfully reconciles luxury, performance, and livability, equally suited to coastal cruising, entertaining memorable groups, or settling into extended liveaboard escapes with family and friends in classic motor yacht fashion.

Recently refreshed in a comprehensive 2025 refit, Rhondavous now carries the latest 2025 Garmin navigation suite for confident passage making, a modern lithium battery-inverter system that modernizes electrical resilience, and a chef's galley upgraded with a Monogram oven, microwave, and induction cooktop to satisfy gourmet ambitions. New premium upholstery lifts the aesthetic across the salon, flybridge dining area, helm chairs, settee, outdoor lounges, and the bow sunbed, while a full complement of custom covers preserves each element ashore or at anchor.

Additional improvements include brand new bedding, luxurious plush carpet throughout, a crystal clear polycarbonate flybridge enclosure for protected alfresco enjoyment, and all new recessed overhead deck lighting that subtly enhances the vessel's atmosphere from bow to stern. Elegant yet capable, Rhondavous captures the magnetism of a luxury flybridge motor yacht with the practicality of a cockpit layout—delivering tranquil comfort underway and effortless sociability at rest. For the discerning buyer seeking a rare Ocean Alexander with pilothouse pedigree, modernized systems, and turnkey readiness, this 82' Cockpit Motor Yacht presents an exceptional invitation to your next blue water adventure.

DETAILED DESCRIPTION

Why choose Rendezvous?

Built by Ocean Alexander to a premier standard, Rendezvous is a true turn-key yacht poised for immediate enjoyment, equally at home hosting family cruising, lively entertaining, or ambitious adventure travel. Her spacious layout is dressed in luxury finishes, highlighted by hard-to-find custom Walnut cabinetry and wall panels with a refined satin sheen, while her impressive performance and reliability inspire confidence every time you cast off. Meticulously prepared and easy to inspect, she is ready for viewing and immediate delivery.

Key features

Power comes from top-of-the-line V10 1600HP MTU main engines showing S 1943 / P 1949 hours, complemented by twin Kohler 32KW generators, all recently serviced with green oil sample reports for peace of mind. Comfort at sea and at anchor is assured by upgraded ABT TRAC zero-speed stabilization, hydraulic bow and stern thrusters, and a Sea Recovery water maker producing 900 gallons per day. The spacious cockpit invites fishing, diving, or simply relaxing with family and friends, with easy access to the water for every activity. Rhondavous is held in a transferable, tax paid Washington State limited liability company—consult your tax advisor for substantial potential tax advantages now and ahead; she may also be purchased outside of the LLC. Inside, a luxurious open concept salon with high end Walnut finishes, designer décor, expansive windows, and a convenient main deck day head sets a sophisticated tone; in total there are five heads. Accommodations pamper six guests in three large staterooms with ensuite heads and custom stone showers, anchored by a full beam master suite with heated stone floors

and large cedar lined closets. Upgraded crew quarters feature over under berths, an eating area, desk, head with stone shower, new bedding, a separate cockpit entrance for added owner privacy, and Walnut appointments to match guest spaces—ideal as a versatile fourth stateroom for owner operators. The gourmet galley inspires culinary adventures with a brand new 2025 Monogram 27" electric oven, 30" Monogram induction cooktop, and large 30" Monogram microwave, ample cabinetry with drawer type shelving, generous counter space, Fisher & Paykel dishwasher drawers, a Whirlpool trash compactor, and a Whirlpool garbage disposal. Entertainment flows effortlessly with integrated AV highlighted by a Savant system, Starlink for broadband connectivity, and onboard Wi-Fi, perfect for relaxing or hosting. On the flybridge, a rare extra large factory retractable sunroof, helm air and heat, a generous alfresco dining area, wet bar, grill, and a double seat helm station command sweeping views. For superior motion control, the advanced ABT TRAC zero speed stabilization system is specified with larger 12 square foot fins versus 9 square foot, bringing a new level of comfort underway and on the hook. A 2016 fifteen foot AB center console rigid inflatable tender powered by a Yamaha 70HP outboard with 115 hours carries new upholstery, has been freshly detailed, and is winter stored indoors; a galvanized Seaswirl trailer is included. Handling tender duty is a hydraulic 1750 lb davit crane with a three function hydraulic boom—rotation and extension—operated by handheld remote.

Performance & handling

With robust twin diesels, Rhondavous delivers the speed and range to make coastal passages effortless and offshore cruising confident, while her hull design keeps the ride smooth and stable whether slicing through a swell or resting quietly at anchor.

Recent upgrades & maintenance

Maintained with meticulous care by experienced yachtsman owners, Rhondavous benefits from fresh bottom paint and PropSpeed, recent service on main engines and generators, and recent green oil sample reports. Immaculately clean bilges and a spotless lazarette reflect true pride of ownership. She is fully turn key and ready for immediate enjoyment, and—being the only 82 available with zero speed stabilizers—represents a rare opportunity to acquire a late model Ocean Alexander in genuine turn key condition.

Walkthrough

Rhondavous is handsomely styled, as striking inside as she is outside, ruggedly built and exceptionally user friendly with full walk around side decks, a full height engine room, and dedicated crew quarters. Conceived for active boaters, she features a huge aft cockpit for fishing, diving, and watersports, expansive storage for tenders and toys, and a wonderfully social layout indoors and out. The modern interior blends custom Walnut cabinetry with light toned soft goods and abundant granite and marble accents. Three large staterooms are complemented by ensuite heads with stone showers and heated floors, a sought after main deck day head, an open plan country kitchen, and thoughtful upgrades throughout to satisfy the most discerning tastes.

Cockpit

A large teak laid cockpit sets the stage, with elegant Euro style teak steps up to the aft deck, a live well for the catch of the day, an electric grill, three tackle drawers, a teak swim platform, and a transom door for effortless water access.

Two hatches lead down to the lazarette for generous storage, while a convenient sink keeps everything shipshape between adventures.

Aft deck

Entertaining flows naturally on the aft deck, where a wet bar with refrigerator pairs with a swing out TV, generous built in seating, a custom teak dining table, and a tailored sunshade for long, luxurious afternoons outdoors.

Salon

The salon elevates relaxation with a retractable flat screen TV and a professionally upgraded AV system, driven by a Marantz AM/FM surround receiver and a Savant AMP 8125, while Starlink broadband enables streaming of DirecTV, Apple TV, Netflix, and Amazon Prime; the obsolete KVH satellite and DirecTV system is disconnected and inoperative, with the new Starlink system included. A convenient on deck day head with a granite countertop sits nearby, joined by a wine cooler, dual cabinets with built in glass storage, and a retractable bug screen for the aft electric door. Beautiful Walnut paneling and cabinetry with satin varnish, LED lighting, foyer granite flooring, Hunter Douglas Silhouette blinds, a double electric door, an L shaped sofa with storage, and dedicated A/C and humidifier controls complete this refined gathering space.

Galley

The gourmet galley showcases granite countertops and Walnut cabinetry over elegant marble flooring, with a custom plate holder drawer, dedicated silverware and cutlery drawers, a Whirlpool garbage disposal, a 36" GE stainless double door refrigerator, a brand new 2025 30" Monogram

microwave, a brand new 2025 30" Monogram induction cooktop, a brand new 2025 27" Monogram electric oven, a 15" Whirlpool trash compactor, 24" Fisher/Paykel dishwasher drawers, Franke double sinks with a pull out faucet, and practical drawer type shelving in the large cabinets.

Master stateroom

The master stateroom is a sanctuary of Walnut cabinetry with a satin finish, centered on a king sized berth with four storage drawers beneath, and served by a flat screen TV with professionally upgraded speakers. Two nightstands with granite or marble tops frame the bed, while large hull side windows flood the space with light. Full height, cedar lined hanging lockers with automatic lighting, along with Hunter Douglas Silhouette blinds, complete this serene retreat.

Master head

The master head features double sinks and chrome Grohe fixtures, including a custom six head shower, a lighted mirrored vanity, and heated granite floors. A refined china bowl base with a Planus toilet system pairs with a seamless stall shower enclosed by a one piece glass door within a granite frame, while a stainless rectangular portlight with screen brings in natural light.

VIP stateroom

The VIP offers a queen sized berth with drawers beneath, two overhead hatches with screen covers, satin Walnut finishes, a flat screen TV, and two cedar lined hanging lockers with automatic lighting.

VIP head

The VIP head is dressed with granite countertops, custom bathroom hardware and fixtures, heated granite floors, and a mirrored medicine cabinet. Grohe faucets serve both sink and shower, the seamless stall shower closes with a one piece glass door, and a stainless rectangular portlight with screen and a convenient shower seat add light and comfort.

Foyer

At the lower foyer, custom granite compass point flooring and a mirrored feature wall with mirrored ceiling set a dramatic tone, with a washer and dryer neatly integrated. Double doors open into the master suite, surrounded by satin Walnut finishes and custom wall panels.

Guest quarters mid ship

Amidships guest quarters offer twin full size beds with drawers, a nightstand with two drawers, a flat screen TV, and a cedar lined hanging locker with automatic lighting, all served by an ensuite head with a stone stall shower and finished in satin Walnut cabinetry.

Guest head

The guest head mirrors the yacht's upscale fit with granite countertops, custom bathroom hardware and fixtures, a mirrored medicine cabinet, Grohe faucets at sink and shower, a seamless stall shower with a one piece glass door, a stainless rectangular portlight with screen, and a comfortable shower seat.

Crew quarters

Upgraded crew quarters provide over 100 sq ft of space, including under bunks, a hanging closet, a captain's desk, a Walnut table with seating, all satin Walnut trim, wood flooring, a flat screen TV, A/C and lighting controls, a port hole window, and a U Line refrigerator—comfortable, practical, and finished to guest level standards.

Pilothouse

In the pilothouse, a custom teak Ocean Alexander steering wheel fronts a sunken, extended dash with comprehensive instrumentation, windshield defrosters, and bug screens for the doors. A U shaped dinette with a chart drawer beneath sits on handsome wood flooring, served by two side doors, a six drawer cabinet, and a Stidd helm chair on a chrome pedestal.

Pilothouse electronics

Navigation and communications are thoroughly modern: a 5" Ritchie compass partners with two new 24" Garmin 9024 touch screen GPSMAP displays loaded with Worldwide Maps, a new Garmin 72 mile 6' open array radar, three new Garmin IP cameras, a new Garmin AIS 800 transceiver with GPS, a new Garmin B265 CHIRP transducer, and a new Garmin Reactor autopilot, while an ABT TRAC stabilizer reader monitors the zero speed system. A new Icom M510 VHF radio and Iridium satellite phone/email complete the package.

Flybridge

The flybridge is a destination in itself, with three Stidd helm seats with covers facing a command console, a full service wet bar with sink and refrigerator, four bar stools and granite countertops, a flybridge audio system with

speakers and a 60" flat screen TV, abundant built in seating with storage beneath, a teak deck and teak steps on the aft stairwell, and a four sided custom polycarbonate enclosure from Canvas Supply. Climate controlled comfort is assured by 24,000 BTU air conditioning, while a retractable sunroof in the hardtop, bow and stern thruster controls, an ABT TRAC electronic zero speed stabilizer panel, built in seating for 10 with cushions and covers, a custom teak table, a fridge, and a high capacity icemaker make this the perfect alfresco lounge.

Flybridge electronics

At the upper helm, an ACR spotlight stands ready beside two new Icom M510 VHF radios, a 5" Ritchie compass, two new 24" Garmin 9024 touch screen GPSMAP displays with Worldwide Maps, a new Garmin 72 mile 6' open array radar, three new Garmin IP cameras, a new Garmin AIS 800 transceiver with GPS, a new Garmin B265 CHIRP transducer, and a new Garmin Reactor autopilot. Redundancy and protection are enhanced by a galvanic isolator to safeguard zincs from stray current, an ACR searchlight with two remotes at the flybridge and pilothouse, and a FLIR night vision camera.

On deck

Every detail on deck speaks to capability and style: 2" эллиптические леера из нержавеющей стали 316 на главной палубе, швартовые кнехты и клюзы из нержавеющей стали, ролик якоря из нержавеющей стали, закаленные затемненные стекла; удобная лестница из кокпита на флайбридж из стеклопластика с тиковыми накладками на ступенях. Для развлечений — аудиосистема в кокпите с динамиками и 24" комбинированным TV/DVD, откидной телевизор на бортовой палубе и кастомный тиковый стол, а на корме — скамья с новой обивкой. На кормовой палубе расположены

мокрый бар с мойкой и бар холодильник, душ, магистральный водяной ввод, электрический барбекю Kenyon, боковые посадочные калитки, съемная купальная платформа с тиковым настилом длиной 3', корпус с внешней полиуретановой окраской и мощная из нержавеющей стали купальная лестница. Якорное устройство включает Maxwell 4000, вертикальный гидравлический брашпиль с ножными кнопками, счетчик цепи Maxwell на нижнем посту, якорь плуг из нержавеющей стали 125 lb с 300' якорной цепью (3/8" HT) и стопором; также предусмотрены береговой водяной подключаемый штуцер, шторка экранировка для уединения и защиты от ветра на кормовой палубе, три подводных прожектора и прожекторы на крыльях мачты.

Engine room machinery

Engineering spaces are as robust as they are orderly: MTU 10V2000 @1600HP main engines show S 1943 / P 1949 hours, breathing through a Von Widmann designed underwater exhaust and protected by four Racor filters with a polishing system. Control is precise from three stations—flybridge, pilothouse, and an aft deck docking station—each with complete engine and thruster instrumentation. Delta T intake/exhaust fans with demisters strip moisture from the airstream to keep machinery spaces dry, while engine hour meters, electric engine controls, and an engine alarm system for oil and temperature safeguard operations. Dripless shaft seal logs and rudder post seals reduce maintenance, and two Kohler 32KW gensets (Port 1948 hours, Starboard 1937 hours) ride in sound shields with vibration dampening. An oil changing system services both mains and gensets, and ABT hydraulics power 25HP bow and 25HP stern thrusters. Upgraded ABT hydraulic stabilizers (12 sq. ft. x 2) with a zero speed system feature dual monitors in the pilothouse and flybridge. Visibility and oversight are elevated by three new Garmin IP cameras. Hotel systems include a Headhunter Tidal Wave automatic

sewage treatment system, Cruisair compressors for central air conditioning across seven units totaling 136K BTU (reverse cycle), and a Sea Recovery 950 gallon per day water maker.

Electrical

Power management is comprehensive and current: six Victron Energy 25.6V/200Ah NG LiFePO4 lithium house batteries deliver a total of 1000 amps, backed by heavy duty AGM batteries (engine 550AH, genset 490AH), a battery paralleling system with control switch, and engine battery isolation switches. Charging and inversion are handled by a Victron Quattro 5000 inverter/charger, a Victron engine battery charger (24V/50A) and genset charger (12V/25A), plus a Mastervolt 100AMP service charger. Lighting is efficient throughout with 24V lights in all compartments and 24V LEDs, including AC/DC anti explosion fixtures in the engine room, alongside international navigation lights. A 5" Ritchie compass, a galvanic isolator to protect zincs and guard against stray shore/water current, and an ACR searchlight with two remotes at the flybridge and pilothouse add redundancy and safety. All primary AC and DC wiring is clearly labeled throughout the yacht, GFI (110V) AC outlets with SmartLock exceed UL protection requirements, and a PLC touch panel electrical control keeps everything intuitive. Shore power connections include a 100+50AMP receptacle in the transom with a 115' Cablemaster.

Fire & safety equipment

Safety is taken seriously with 2 x Fireboy automatic fire suppression systems tested and certified February 2026, 6 x fire extinguishers certified February 2026, 8 x Type II adult life jackets, 1 x life ring without floating throw line, an 8 person offshore life raft, and 4 x handheld flares, 4 x cartridges, and 1 x gun.

Tender

A 2016 fifteen foot AB center console rigid inflatable tender with a 70HP Yamaha outboard showing 115 hours comes freshly detailed with new upholstery and a custom storage cover. The package includes a Garmin GPS chart plotter, an Icom VHF radio, and a galvanized Seaswirl trailer.
